GOMPERS APPEAL IS GRANTED BY SUPREME COURT

Washington, June 20—Chief Justice White has granted an appeal to the supreme court for Samuel Gompers, John Mitchell and Frank Morrison, labor leaders convicted of contempt of court in the noted Bucks Stove and Range case. The appeal will be heard after October. The three officials were held in contempt by the supreme court of the District of Columbia for violating an injunction against boycotting the Bucks Stove & Range company.

Upon complaint by the company, the court sentenced Gompers to a year in jail, Mitchell to nine months and Morrison to six months. The supreme court of the United States set aside all the sentences because the contempt proceedings were brought in the name of the stove company. Thereupon the district supreme court appointed a committee to bring contempt proceedings in the name of the court. This was done and later the same sentences were imposed as in the first instance. The court of appeals of the District recently reduced these sentences to one month's imprisonment for Gompers and to \$500 fines for the other defendants.

For several weeks applications for a review of the cases had been pending in the supreme court. Chief Justice White referred the application for the granting of a "writ of error" by which the cases would be reviewed to the entire court. The court adjourned without announcement of final action, but yesterday the chief justice, probably in accordance with directions of the full court, granted a writ of error and an appeal in the cases. This technical action was due to division of opinion as to whether the contempt cases should be treated as "law cases" and brought up on a "writ of error" or treated as "equity" cases and brought up on "appeal."

Mr. Gompers has been very ill for

The association is the organ of the Congregationalists in work for the once suppressed races in the country. It entered the educational work for the freedmen directly after the Civil War and started several great institutions, some of which are now independent. Work is done for the mountaineers of the border states, the blacks, the Indians, the Chinese in California and in Porto Rico and Hawaii. The income last year from all sources, was over \$400,000. The Negro problem is always before the country and work done successfully is always worth hearing about.
