This country is doing its part in the civilization of Africa. It appears that about 275,000 gallons of distilled liquors were withdrawn from bond in the year ending June 30, 1890, for exportation to five ports in Africa, and that the whole of this deadly stream flows through the port of Boston.

SOME Indian women who recently arrived at Fort Sheridan were in such desperate need of clothing that the officer in charge of the fort, not having a supply of petticoats and kindred garments on hand, was forced to put the women into trousers. Happily, the squaws didn't become unmanageable in these emblems of sovereignty.

On February 12 the Associated Press announced through all the papers that the acting secretary of the treasury had the day before issued warrants for the payment of \$1,000,000 on account of pensions aggregating \$30,000,000 due during the quarter ending March 4.

The anti-lottery law has had some effect, as the returns of the postal note and registered letter business at the New Orleans postoffice show.

The terrible tale of their suffering will hardly be more public for several days, and with the most favorable improvement of the men will be strong enough to talk.

TOO WEAK TO TALK

The Rescued Miners Taken to the Surface. THEIR RECOVERY WILL BE SLOW

Tenderly Cared for by Friends in a Public Hall at Jeannetteville.

A Procession of Miners Sing the Doxology—Impossible to Get a Statement from Any of the Men—They Are So Weak that a Simple Movement of the Head is Impossible.

HAZELTON, Pa., Feb. 25.—The four miners who were drawn as from the grave in the dark recesses of the Jeannetteville mine, were brought to the surface at 5 o'clock, and taken to the Sons of Temperance Hall at Jeannetteville.

It was indeed a strange, but ghastly procession. Many of the miners had not had their clothes off for days and weeks, so vigorously was the search prosecuted. The hall is about one mile from the slope, and the road passes the residence of J. C. Haydon, the proprietor of the mine.

Use Her Camel's Hair Shawl. Mrs. Haydon and family came outside and accompanied the party to the hall, where upon the beds, blankets and comforts were placed over and around the men, and in the excitement of the moment Mrs. Haydon took from her own body a heavy camel's hair shawl and wrapped it around one of the men.

IMPORTANT IN SPRING.

Advice What People Should Take During the Spring Months—A Remedy Certain to Produce Beneficial Results.

In the Spring everybody begins to think of taking a spring tonic. Not only is this a very common practice, but a very necessary and healthful one. It is a fact which physicians acknowledge and the people recognize generally, that a spring tonic taken during the months of March, April and May is more conducive to the rest, ration of health in cases of those who are sick than any other course of treatment that could properly be adopted.

It is further understood by everybody that even those who call themselves well, it is very important at this season of the year, if they would maintain good health and vigor, to take a spring remedy to strengthen and invigorate the nerves, blood, brain, liver, kidneys, and bowels, assist Nature in the efforts she always makes in the spring to cleanse, purify and invigorate the system.

In the Spring there are great and important changes going on in the body. Perfect health and maintenance of it, requires that the system be cleansed and the organs sloughed, and the person has a languid and weakened feeling, with more or less nervousness and debility. If the person has previously been sick these symptoms will be more aggravated, and the system will be more and more exhausted.

It was indeed a strange, but ghastly procession. Many of the miners had not had their clothes off for days and weeks, so vigorously was the search prosecuted. The hall is about one mile from the slope, and the road passes the residence of J. C. Haydon, the proprietor of the mine.
