Pianos, Pianos, Pianos.

Say, John, are you a judge of pianos? Well, now, Peter! really that is laughable; why do you ask?

Why, you see, Susie, the pet of our house, is seven years old, and wife and I have been thinking that as she is not very strong it would be the proper thing to give her a musical education.

Well, you see, Susie, the pet of our house, is seven years old, and wife and I have been thinking that as she is not very strong it would be the proper thing to give her a musical education.

Why, Peter, I have been thinking for some time on this subject, and I have decided to buy a piano for her, and she was of the opinion that she should decide to both buy at once that Sloninger would give us a discount.

SIR JOHN'S LAST SCHEME.

An Appeal for Votes to be Made by the Quebec Bishops on Sunday.

OTTAWA, Feb. 26.—On Sunday next Sir John Macdonald will play his trump card in the Quebec section of his "colossal contest."

It is stated on reliable authority that the Roman Catholic Church has as yet only sounded the first note, and that a collective pastoral letter signed by all the archbishops and bishops in Quebec, defining their attitude, will be read in all the Catholic churches of the province on Sunday. It is believed that this letter will powerfully influence the whole Catholic electorate of the province.

It is also claimed that every Conservative candidate will be authorized to assure his supporters that after the elections, and within the statutory time, the legislation of the Manitoba Assembly regarding separate schools in that province and the dual language question will be disallowed. This is said to be the price the church has demanded for its support of the government.
