Two Ways To Chop.

One's the old-fashioned, slow, unsatisfactory way—with chopping knife and tray—the other's the up-to-date, easy, labor saving, food saving way—with the "Enterprise Food Chopper"...

It chops all kinds of meat, raw or cooked, and all kinds of fruits and vegetables, into clean cut, uniform pieces, fine or coarse, without mashing, and with great rapidity.

Kelly's Rooster Says If Bryan is Elected president your sugar will cost you double the price you are paying now, and he gives the following reasons for saying so: In 1898 we consumed 4,474,150,560 pounds of sugar. We only raised 804,031,080 pounds. This compelled us to go into foreign countries and purchase 3,670,118,880 pounds of sugar that we paid for with gold dollars. Nothing else would be accepted. We all know that one gold dollar is equal to two silver dollars of the brand of William J. Bryan. If this reasoning is not sound, will some democrat let me know and I will sell milk for 5 cents a quart all winter.
