

Its Comical

To hear what political talking machines have to say nowadays. One fellow will say, look at the full dinner pails during the last four years. The other fellow will answer yes, but filled with what? Some with air, more with stale bread, etc. And, my friend, how about a full coal hod this winter? But the latest answer we've heard why one should vote for McKinley is that it won't cost so much as it will if Bryan is elected. Well, for goodness sake, if William J. Bryan will keep people at home put him in by all means. There certainly isn't enough work here now for the working people. The same person says if Bryan goes in it will cost \$9.34 to send \$5 out of the country. More power to Mr Bryan. We hope he will make it 57 cents more. If we have too much money, there are lots of opportunities to spend it right here in our own country. There isn't any too much money here to fill dinner pails, cosy parlors and coal bins. Speaking of coal reminds us of some nice, well made, galvanized coal hods which we are giving with each pound of our warranted good Baking Powder. Secure one while we have them. If you don't need a coal hod we will give you a wheelbarrow instead. Say, if McKinley eats as good butter as we sell, he's in luck. Try some this week at

Two Ways To Chop. 12 Quart Galvanized Pails 18c.
One's the old-fashioned, slow, unsatisfactory way—with chopping knife and tray—the other's the up-to-date, easy, labor saving, food saving way—with the "Enterprise Food Chopper"
It chops all kinds of meat, raw or cooked, and all kinds of fruits and vegetables, into clean cut, uniform pieces, fine or coarse, without mashing, and with great rapidity.
Unlike other choppers, it has four cutters, including nut butter cutter—steel ring takes up the wear—a flanged screw makes it juice tight.
See them in our south window, priced \$1.25.

The ladies of the Maccabees held a very pleasant and interesting meeting in Congress hall last evening, a large number being present. The meeting was addressed by the state deputy of the society, John Johnson, New Haven, who spoke of the benefits to be derived from membership in the society, of the increasing numbers of the society. Mr Johnson is a fluent and entertaining speaker and held the attention of those present throughout. During the evening a pleasant entertainment was furnished, which was very enjoyable.
At the Y. M. C. A. gymnasium last evening the first indoor competition of the gymnasium squad was held. A large number entered the event, which was three standing broad jumps. The result of the contest was as follows: Mahoney, squad A, first, ten points; Mahoney, squad B, third, seven points; Dixon, squad B, fourth, three points; Barnes, squad B, fifth, one point. No one in squad C qualified. The contests were very close and exciting and no doubt will be repeated in a short time.

While the committee was waiting for the New Haven people to put in an appearance last night, some one remarked that they might have had a mishap as the democrats of Waterbury experienced when they were on their way to New Haven to take part in a parade when Hancock was running for president. A big crowd left Waterbury early in the evening and all were in high glee at the prospect of a grand time in the Elm City when the car was derailed near Naugatuck and in a jiffy every soul on board was in the lobs. It was decided not to try to reach New Haven that night, but to hold a parade in the rubber town instead, with the result that Naugatuck witnessed the biggest parade it ever saw since before and it said that the effect of that demonstration has been felt there to this day.
The Naugatuck Valley Poultry association held the largest and most interesting meeting last night in its history. Five new members were admitted into the association. The members proceeded immediately to complete plans for the coming poultry and pet stock exhibit to be held in City hall during the month of January. This show bids fair to be the largest of its kind ever held in the state and the committee has secured as Judges H. L. Ball, of Salisbury, Mass., and F. W. Field, of Somers, Conn. Both of the judges are well known about New England. Offers of special prizes are coming in from all over the country. The news of the big exhibit has been spread broadcast and it is expected that the city will be full of visitors during the three days of the show. Exhibits will be made of cats, Belgium hares, rabbits, ducks, turkeys and fur bearing animals. An incubator firm will present the interesting novelty of hatching chickens during the show. The entries will be given later.

Rooster Says
If Bryan is
Elected president your sugar will cost you double the price you are paying now, and he gives the following reasons for saying so:
In 1898 we consumed 4,474,150,500 pounds of sugar. We only raised 804,031,680 pounds. This compelled us to go into foreign countries and purchase 3,670,118,820 pounds of sugar that we paid for with gold dollars. Nothing else would be accepted. We all know that one gold dollar is equal to two silver dollars of the brand of William J. Bryan. If this reasoning is not sound, will some democrat let me know and I will sell milk for 5 cents a quart all winter.
