LOCATIVE BUILDING. The striking and valuable development of the past decade in locomotive building has been in the most important direction of all, namely, in boiler-power and steam-pressure.

THE APETITE OF A GOAT. Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the most perfect Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy.

HAVE A HIGH IDEAL. Without a high ideal an individual never climbs. Keep your eyes on the mountain top, and, though you may stumble and fall many times in the ascent, though great boulders, dense forests and roaring torrents may often bar the way, but look on the towering sight of the light which shines away up in the clear atmosphere of the mountain peak, and you will ultimately reach your goal.

Slips of the Tongue. It is an invariable rule that members of the house of commons must address their remarks to the house through the chair, and, though in the flow of argument an orator is often allowed, without remonstrance, to use the second personal plural in admonishing his opponents, the first words are always addressed to the occupant of the chair.

THE NEGATIVE MAN. One of the most pitiful sights in the world is the man who never has any opinion of his own, the lackeystyle man, the man who never differs from you, whose only opinion is assent to the one you express.

MISTAKE OF A SMALL LAWYER. This is so true that it is interestingly very much so. A well known Maine attorney is especially noted for his keenness in looking out for the best end of every bargain.

HEARD IN PASSING. Senator Scott, one of Hanna's assistants, says trusts are good for the country. What say the voters? Whether Mr Bryan will win or lose is now up to the voters, but the knowledge that he deserves to win is common property.
