\$1.00 a Week

Will satisfy us. Our stock of Suits, Jackets and Skirts is large and varied and calculated to suit the most exacting taste.

The fact that we have been obliged to lease an additional store on Phoenix avenue is proof positive that we have gained the confidence of the ladies. Come and see us. Courteous attendants will be on hand to meet you, and if you decide to buy you will not need a long purse, nor be required to pay cash.

Guarantee Credit Clothing Co. 33 East Main Street. 15 PHOENIX AVENUE.

It's Our Ambition

To keep increasing our Furniture business in a way that will be absolutely unattained by "fakey" advertising. Fifty odd years ago we started in on the basis of selling oak for oak, cotton for cotton, silk for silk, hair for hair—selling \$25 suits for \$25, \$5 articles for \$5, etc. Then we had no inflation of values to apologize for—no overdrawn mark-downs to invite ridicule—no misrepresentations to break confidence. This is our business platform. If you like it, if it sounds right, if it's your idea of clean, legitimate business, if you deem it worthy of your confidence, try us.

A SWEEPING SUCCESS

Was our Opening Sale Week for the new meat season; it beat all records up to date. Said a lady to her friend: "Why, I always thought a market that sold goods cheap kept poor meats; but the steaks and roasts I get here are as tender and juicy as I pay 5 cents a pound more for elsewhere." That is the whole story.

TO REVISE CONSTITUTION.

The People of Iowa Have Voted On the Subject. Des Moines, Ia., Nov 14.—Returns from eighty-five of the ninety-nine townships of the state give a total of 150,160 in favor of calling a convention for revision of the state constitution and 146,178 against.

Returns from eighty towns give a total of 109,769 in favor of the Titus amendment to the constitution providing for biennial instead of annual elections and 134,478 against. A literal construction of the last proposition, according to Attorney-General Remley will continue in office for another year the present incumbents, in all about 2,000 of state, county and township officials to which successors were chosen at the election just held and it is doubtful if the officers so elected can assume their offices at the expiration of the year as they were elected for the term to begin the first Monday in January, 1901. The only way out of the difficulty seems to be for the present officials to resign and permit the governor to appoint the recently elected ones to the vacancies.

KENTUCKY NOT ARRIVED.

Tangier, Nov 14.—The United States battleship Kentucky has not arrived here. The United States consul is not going to Fez. The memorandum delivered to Sid Hadji Mohammed Torres, commissioner for foreign affairs, relative to the claims of the Americans against the Moors, did not include the demand for indemnity for the murder of Marcos Essagui, a naturalized American citizen, who was killed by a mob in this city.

Removal of Big Mining Deal

HAZZLETON, Pa., Nov 14.—A report is current here that negotiations are on for the sale of all the collieries and washeries of the region owned by individual operators and that the Lehigh Valley and Pennsylvania Railroad companies are the prospective purchasers. None of the operators hereabouts profess to know anything of the matter.

ABOUT CONSOLIDATION.

Principal Matter to Be Adjusted Is Question of Taxation. It is hoped that the committee appointed by the board of aldermen to draft a bill pertaining to consolidation will get together and report back to the aldermen not later than December 15. The principal matter to be adjusted in the measure is the question of taxation and if the committee can hit upon a system of taxation that will be equitable to the people who live in the rural districts, as well as on those whose homes are situated inside the old city lines. If a bill should be passed that would be an unsatisfactory as the one making the city line co-terminal with that of the Center district has turned out to be, there will be no end of trouble over it. The people on the outskirts might just as well make up their minds now, as later, that if they want to get public improvements they will have to pay for them. Look at the condition of people in the added district. They receive little or nothing from the city, and the town will not turn a hand for them, and, in consequence, they are worse off to-day than they were before they were "taken in." No administration wants to give them anything. When the republicans were at the helm they ridiculed the idea of giving the "outsiders" water, sewers, lights and sidewalks, on the same condition as taxpayers in the old city limits, so long as the latter were paying twice the amount of taxes as the former. The present administration has done a little better than this, but it has not gone far enough to suit the demands of people who thought that once they got inside the line all they had to do was ask for improvements and they would be forthcoming, no matter how manifestly unfair the rate of taxation might have been. No doubt the committee will give this phase of the bill the attention it requires, and endeavor to fix things so as to lay proportional loads on each. It is all well enough to talk about the political aspect of the case, but in the opinion of a vast majority of the owners of property in the town, the political end of the game is a small affair compared with the financial side of it, the question of taxation, that concerns every man who owns a foot of property, no matter what his politics may be. Let us have no advantage of each other politically and an equitable adjustment of the matter of taxation and that all will be well, no matter which party happens to be in the ascendancy.

BOARD OF PUBLIC SAFETY Met and Approved the Half Monthly Payroll. The board of public safety met last night and approved the half monthly payrolls, as follows: Fire department, \$809.22; police department, \$1,277.81. John C. Thompson, foreman of Hose company No 5, was heard in reference to the purchase of beer for drinking for bunkers at the house. The chief was without authority to purchase such supplies as are needed for No 5's and the other volunteer companies. The petitions for a fire alarm box at the corner of North Main and Ludlow streets and at the corner of West and East Main streets, referred to the board by the aldermen, were considered, and a vote passed instructing the clerk to inform the aldermen that the funds on hand would not warrant the outlay. The application of the Brass City Athletic club for permission to give a sporting exhibition, no date mentioned, was received and laid on the table, the board being of the opinion that it would not be well to grant more than one such petition each month. Licenses have already been granted for the month of November and December. Certificates were received from the Connecticut Steam Boiler, Insurance and Inspection Co. stating that the boiler of Engine No 1 is in good condition, and that the boiler of Engine No 2 is in such condition that after this year a new boiler will have to be procured. Michael Mansfield appeared before the board and signed his application for appointment as a supernumerary policeman. The board adjourned until the regular meeting in December.

TONS OF ROCKS FELL.

Phoenix, Ariz., Nov 14.—While workmen were engaged in repairing the timbering in a tunnel at the Fairbanks copper mine near Tombstone, Monday, the beam in the ceiling fell, letting down tons of rocks. Antonio Laya was crushed to death and two other men were severely injured. They were imprisoned until Tuesday night, when the rescuing party reached them. They will recover.

BODIES WERE RECOVERED.

Hong Kong, Nov 14.—The bodies of twenty-two persons who were killed by the collapse of houses on the shore in the typhoon which struck Hong Kong last Friday night, have been recovered. More than fifty bodies have been taken from the harbor, and the remains of many victims are still to be found. The damage to property and crops is enormous.

NEW Addition to Anchor Line Fleet.

NEW YORK, Nov. 14.—The Anchor line, which maintains two steamship services from the port of New York, one to Glasgow via Moville, the other to Genoa, Naples and other Mediterranean ports, has now in course of construction an addition of five new steamers to its large fleet, with new engines, about 25 steamers. With these five new steamers and one recently completed an addition of 74,000 tons will be added to the line's tonnage.

Telegraphers Strike.

STOCKTON, Cal., Nov. 14.—O. H. Lehner, local superintendent of the Valley division of the Santa Fe, states that the telegraph operators at intermediate points along the line struck at noon yesterday, though the operators at main stations are still working. Strikers threatened strike by the operators have been current several days because of the alleged disinclination of the officials to grant an increase in salaries.

APPRENTICES FOR NAVY YARD.

Chicago, Nov 14.—Orders were read yesterday at the recruiting station for the enlistment of forty-five apprentices to be sent to the navy yards at Newport, R. I., where they will be placed on training ships. Orders were also read for the enlistment of as many landsmen as the department can secure.

BROOKLYN BRIEFS

—Mr and Mrs John Lynehan of James street are receiving congratulations. It is a boy. —Thomas Devereaux, a boy about 14 years old, residing on Summit street, received a serious injury on his thumb yesterday afternoon while working on a lade in foreman Lewis' room in the American Ring shop. Dr Russell dressed the wound which was rather painful.

An article in another column of the paper will furnish interesting reading to the members of the St. Thomas Cadets and their supporters. The article, to which reference is made, is concerning a meeting of the Christian Endeavor society yesterday at which a committee was appointed to enter a protest with the town authorities against Sunday football.

—The young ladies connected with the Third Congregational church are making arrangements to hold a fair in the church hall during the second week in December. The fair will be short in duration, continuing for two nights only. A fine entertainment will be given each evening and an attractive menu will allure many to the supper tables. The various committees have been appointed to arrange the necessary things incidental to a fair.

"THE CADET GIRL."

Dan Daly and the Big Production at Poli's. The local management announces the production of "The Cadet Girl" on Wednesday evening of next week at Poli's, and says that anything of the show business will realize the importance of the announcement. "The Cadet Girl" is the musical comedy which A. H. Chamberlyan, manager of the Columbia theater in Boston, brought out at the Herald Square theater last summer. It enjoyed the most tremendous success in spite of most innumerable obstacles thrown in its way by jealous rival managers and their sympathetic critics, packing the theater to overflowing during seven weeks of the hottest weather and wringing from unfriendly critics the admission that it was the greatest thing in the way of musical comedy ever attempted in America. The salary list of the company is nearly \$4,000 a week, there being actually eighty-three people in the organization, and Mr Chamberlyan promises to bring every one of them here. He does not expect to make a dollar during his week's tour of Connecticut, his purpose in making the tour being to show their people the character of the attractions he presents at his Columbia theater in Boston.

In the company, in addition to the world renowned Dan Daly, are George A. Schiller, William Cameron, W. P. Carlton, Charles Dandy, Charles E. Harry Dodd, Charles M. Bowers, Adele Ritchie, Toby Claude, Catherine Lewis, Edna Floyd, Maude Thomas and many others, including the renowned chorists which the press of New York, Boston and Philadelphia have pronounced the best and most beautiful ever seen in this country.

Waterbury is specially fortunate in being included in Mr Chamberlyan's itinerary of Connecticut.

TEACHER OF TRAINING SCHOOL

Removed to the Hospital Yesterday With Typhoid Fever. It is said a great amount of sickness prevails among the pupils of the Waterbury training school. Every other day at least one or more of the young ladies are detained home by sickness. Miss Catherine Hennessey, of Wall street, has been absent from school about six weeks, on account of an attack of typhoid fever. She is still at home. Last week Miss Olive M. Lyford, assistant principal of the school, was also seized with an attack of typhoid fever, and yesterday was removed from her residence, 119 Central avenue, to the hospital. Miss Lyford's sickness is a case of much regret, not only to the principal, Miss Finch, and her second assistant, Miss Bohan, but also the young ladies of the training school, with whom she has become a favorite on account of her desire to aid and assist them in every manner. Miss Lyford will not be able to resume her duties for at least four weeks, during which time her place will be filled by Miss Finch and Miss Bohan. Besides, this affair at the training school are progressing most favorably. During the past week a change has been effected. The young ladies who have belonged to the model department have been changed to the practical department, and Miss Finch is highly satisfied with the work of the members of both departments thus far, and as the young ladies are exceedingly pleased with the methods which have been employed by Miss Finch and her assistants, there can be no doubt that the first year of the training school will be a gala success.

VETERAN ASSAULTED.

Chicago, Nov 14.—James Aldrich, 60 years old, and a veteran of the civil war, was the victim of a vicious assault by a crowd of alleged strikers last night while on his way home from work in the plating mill of Philip Rinn & Co. After being knocked down and choked and beaten he was forced to use his revolver in order to save his life. Aldrich fired six shots directly into the ranks of the attacking party, scattering them right and left. Bernard Hutsell and John Fuchs were wounded. Both will recover.

The shooting was the culmination of a series of attacks made on men employed by the Rinn company.

WORK WILL BE CONTINUED.

Seattle, Wash., Nov 14.—Unofficial information received in this city during the past few days indicates that Captain Abercrombie, who is engaged in building the interior portion of a line from Valdez, Alaska, to the Yukon and in exploring the country for the war department, plans to continue operations this winter. In order to clothe his men properly for outdoor work in the interior portion of Alaska, Captain Abercrombie has made a request on the quartermaster for heavy woolen clothing, part of which has already been forwarded to him at Valdez, and the remainder is soon to be shipped.

APPRENTICES FOR NAVY YARD.

Chicago, Nov 14.—Orders were read yesterday at the recruiting station for the enlistment of forty-five apprentices to be sent to the navy yards at Newport, R. I., where they will be placed on training ships. Orders were also read for the enlistment of as many landsmen as the department can secure.
