Announcement is made of the approaching marriage of Miss Catherine Sullivan, daughter of Mr. and Mrs. M. J. Sullivan of Myrtle street, and Raymond F. Ashman of Warren, Conn., which will be solemnized at St. Mary's parsonage on October 16.

Miss Sullivan was graduated from the New Britain State Normal school with the class of 1912 and has since been engaged as a school teacher here. Mr. Ashman is a contractor.

# RELIEVED FROM ITCHING BURNING ECZEMA

Gives Resinol the Whole Credit.

Aug. 15.—"For some time I suffered frightfully from eczema on my legs. From my knees down they were covered with scales, and itched and burned as though hot coals were resting on them. I would scratch until the blood came, and was unable to sleep at night. Nothing that I tried helped me, until a druggist recommended Resinol Ointment. After applying it once, I enjoyed the first good night's sleep I had had in weeks. Now I am sound and well after using a little over one jar of Resinol Ointment, to which I give the whole credit." (Signed) F. E. Price, 414 Downer St., Indianapolis, Ind.

Resinol Ointment and Resinol Soap are carried in stock by all druggists.

# SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lanky. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

# COUNCIL OF DEFENSE BACKS UP PRESIDENT

Opposes Peace Until Germany Makes Unconditional Surrender

Hartford, Oct. 9.—Connecticut opposes any peace treaty with Germany and her vassals "unless preceded by an unconditional surrender" as being "against the interests of America and her allies and against an enduring and a just peace."

This expression of the fighting spirit of all Connecticut is contained in a resolution passed by the Connecticut State Council of Defense, telegraphed last night by the Council to the President of the United States, and sent to members of the cabinet, the Connecticut delegation in congress and to all other state defense councils. The resolution, drawn by Justice George W. Wheeler of Bridgeport, was passed unanimously by the council. In passing it, members of the council believed that they were expressing the spirit of the entire state of Connecticut.

The peace stand of Connecticut, as interpreted by the council's resolution is:— No consideration of peace until Germany and her vassals are thoroughly beaten and her far-reaching plan of world domination destroyed.

No peace negotiations, conciliations or bargaining.

No peace until Germany is stripped of the territory she has wrested from other nations.

No peace treaty that does not require that Germany make reparation for the damages and losses she has caused, and compels her to give adequate assurances for the future.

No armistice while a soldier of Germany is beyond the German borders, nor while a single submarine is fighting against the ships of the Allies.

The Resolution. The complete text of the resolution follows:— "Resolved, That the Connecticut Council of Defense heartily rejoices in the unparalleled achievements of the Allies. Bulgaria has unconditionally surrendered. Turkey is cut off from the Central Powers. The right wing of the Austrian Army is fleeing from Serbia. Its left wing is being steadily pressed out of Albania and Montenegro. The Italian drive is on the way. From the North Sea, south all along the Western Front the allies are steadily driving Germany and her vassals out of Belgium and France. On September 9th, in resolutions then passed by the Council, we said:— We wait with confidence the day when the American troops, under their own commanders, shall execute their orders and carry on a battle upon their own sector. They will emulate the valor and military skill of our Allies, and we cannot ask for more. Three days later General Pershing struck at the St. Mihiel salient and the American forces won in an incredibly short time one of the most brilliant victories of the war. The valor of our troops had been demonstrated at Seicheprey and in every conflict in which they have been engaged since.

"St. Mihiel told the world that the American general could conceive a plan of battle which is the admiration of military experts, prepare it to its just detail and carry it out ahead of schedule time, successful at every point.

"All of this continued, triumphant progress is due in no small measure to the unity of command under that master of strategy and self control Marshal Foch. "Germany is resisting desperately. As she is forced back she leaves behind her a waste of desolation and woe. No single thing that their trained and ruthless cruelty could conceive of has been omitted. Her cruelty continues on land and sea. Every industry which could compete with Germany is destroyed. All that she can do to despoil Belgium and France that she continues to do.

"Germany is organizing her industry and her business so that after the war she may flood the markets of the world with her goods at a cheaper rate than any can sell for. Her industry and her business have largely been put under governmental control. Her mercantile marine and her feet are largely intact. Her present purpose is to secure an economic domination upon which to build another world-dominion war. Neither the German Government nor the German people show the slightest appreciation of their crimes, nor the smallest desire to make reparation. They finally see that their doom is impending, and they ask directly or through their vassals that we enter upon negotiations for peace. "For an honorable peace," as William proclaims, meaning a peace which will not strip the Fatherland of all the land it has seized, or the plunder its troops have taken, nor make her pay for the losses she has caused to the innocent whoever her troops have gone.

"Resolved, That in the opinion of the Council there should be no peace vassals are thoroughly beaten, and her far-reaching plan of world-dominion destroyed. We are opposed to any peace by negotiation, conciliation, or bargaining.

"Germany must be stripped of all the territory she has won and her grip on territory, nations and peoples adjoining her must be loosed. The safety of the world depends upon this.

"Justice demands from Germany and the German people and her vassals, and Connecticut insists upon that demand, that they make reparation for the damages and losses caused by them, and that they be compelled to give adequate assurances of the future and to practice lawful liberty to all. We are opposed to any peace treaty which does not include these provisions.

"Resolved, That the Council is opposed to every suggestion of an armistice while a soldier of Germany is without the bounds of Germany as they were at the outbreak of the war, and while a single submarine is operating against the ships of the Allies.

"Resolved, That the making of a peace treaty with Germany and her vassals at this time unless preceded by an unconditional surrender, is against the interests of America and her allies and against an enduring and a just peace."

"Resolved, That the Council is opposed to every suggestion of an armistice while a soldier of Germany is without the bounds of Germany as they were at the outbreak of the war, and while a single submarine is operating against the ships of the Allies.

# SPANISH INFLUENZA--WHAT IT IS AND HOW IT SHOULD BE TREATED

Nothing New—Simply the Old Grip, or la Grippe That Was Epidemic in 1889-90, Only Then It Came From Russia By Way of France and This Time By Way of Spain.

Go to Bed and Stay Quiet—Take a Laxative—Eat Plenty of Nourishing Food—Keep Up Your Strength—Nature is the "Cure".

## ALWAYS CALL A DOCTOR

### NO OCCASION FOR PANIC.

Spanish influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

There is no occasion for panic—Influenza itself has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally, patients in a run down condition—those who don't go to bed soon enough, or those who get up too early.

### THE SYMPTOMS.

Grippe, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

### THE TREATMENT.

Go to bed at the first symptoms, not only for your own sake but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, aspirin or Dover's Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or specific for influenza—the disease must run its course, but nature will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing, and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

### DOCTORS TO ATTEND

Members of Medical Society Going to Funeral of Dr. Grace.

Members of the New Britain Medical society, through the secretary, Dr. Robinson, are advised that the funeral of Dr. Edward S. Grace, who died early yesterday morning, will be held tomorrow morning and all members of the society are to attend in a body.

Dr. Grace was one of the younger members of the New Britain Medical society and his death is a distinct loss, which is keenly felt by his brother physicians throughout the city.

# Postum

Good Friend of the Coffee Drinker

Coffee often disagrees with the best of us

When you find it wise to stop coffee for a few days on account of disturbed digestion or too much "nerves," switch to Postum and note the result.

Many people who love their coffee follow this plan with excellent results.

Postum comes in two forms: Postum Cereal which must be boiled, and Instant Postum, made in the cup in a moment. They are equally delicious and the cost per cup is about the same.

## SPECIALLY PRICED FOR THIS SALE ONLY

Sizes 16 to 18 and 34 to 56 in light and dark colors and a vast variety of patterns. \$2.75 to \$5.95

official statement issued by the British War Office. "Rayak," the statement continues, "is the point at which the enemy broad-gauge railway from the north joins the Aleppo-gate system in Palestine. The latter system, therefore, is entirely in our hands. A considerable quantity of rolling stock, ammunition and engineers' stores was captured. The railway station and the aerodrome had been burnt by the retreating enemy prior to the evacuation. "In the coastal zone, the enemy has evacuated Beirut, and sailed northward. "Saida (on the Mediterranean, 20 miles south of Beirut), was occupied by us Monday without opposition, its inhabitants welcoming our arrival.
