

GIFT YOUR TAG EARLY

To-morrow Will Be Waterbury's Busy Day—Partial List of Aides.

Tag, tag, tag! To-morrow will be tag day in this city, weather permitting, and after a couple of weeks of preparation the executive committee has everything in readiness for a big day.

The main office of the committee to-morrow will be the City hall annex, where the women supervising the hundreds of workers in the city will be located during the day.

All the taggers will have a red cross band on their arm, and none that has not a band will have the right to collect money. So see to it that every coin you part with goes to a person with a white band marked with a red cross on their arm.

Some of the business men in the town seemed to think they are only to be tagged once. Far be it from the youthful taggers to allow men with money in their pockets to escape with one touch.

As already stated, and for the last time it should be thoroughly understood, business men, merchants, and in fact everybody else will be tagged as often as they will permit it.

Undoubtedly some men before the day is over will look not unlike a billboard, their coats will be decorated with so many of the tags. In Hartford and New Britain, which have already had tag days, some of the men went through the streets with their hands full of bills, and kept giving them out until they had none left—in their hands.

A 5 cent piece is the smallest amount acceptable, but there is no limit on the high water mark. The collectors will have sealed boxes and into these the contributors will drop their money.

Anyone wishing to give a large amount may take it to the committee if he so desires.

The executive committee wishes to thank the telephone operators of the Southern New England Telephone Co for their promptness in answering calls during the past week.

Although a number of automobiles have been turned over to the committee to-morrow, still there are more needed. You men with automobiles should get a little hustle on this evening, call up some one of the committee and volunteer the services of your cars for to-morrow.

They will be much appreciated and with them the committee can do their work more thoroughly. So give up the pleasure of your car for a while at least to-morrow.

The city has been divided into twenty districts and City Engineer Cairns has made a map of each district. One automobile will cover each district. Cars will also be stationed at the factory gates during the noon hour.

The following with their cars will look after the factory interests: Mrs. T. J. Kilmartin, Mrs. Charles Meigs, Mrs. Theodore Nuhn and Dr. Grave's District will be attended to by Mrs. John Booth Burrell, Mrs. Oscar Fitzsimons, Mrs. J. M. Daly, Mrs. C. F. Trotter, Mrs. Harry Chase, Mrs. Warren Hall, Mrs. J. H. Curries, Mrs. Thomas Kelly, Mrs. F. O. Peabody, Mrs. J. Leroy Mintie, Mrs. Anna Benedict and Mrs. Irving Chase's carriage.

The committee has been working in their office at the City hall annex during the afternoon and some of them will in all probability remain there this evening until all details have been completed. They begin their duties to-morrow morning at 7 o'clock, so you see they are giving much of their time to the anti-tuberculosis cause.

Religious bodies, regardless of creed, must co-operate with medical

men if the crusade against tuberculosis is to be successful," said Bishop O'Connell, rector of the Catholic University of America, who presided at the fourth post session meeting of the international congress on tuberculosis. Bishop O'Connell expressed gratification at the success attending the congress. "I cannot speak of the scientific results attained," he said, "but I can testify as to the great popular interest it has awakened. We are now all ready to enlist as crusaders in this fight on our insidious common enemy, consumption. These scientists have told us that tuberculosis is curable. Admitting this to be so, it is our duty to co-operate in this war on the disease. To shirk this obligation would be criminal."
