Terrible Revolution in Dogdom Levels Caste Distinctions; Penalties Heavy Aristocratic Canines on Equal Terms With Mongrel Curs; Howls Resound

New rules of etiquette for dogs of all classes, whether blue ribbon winners high in the caste of dogdom society or merely unknown mongrels of the alleys and byways, will become effective in San Francisco when the mayor affixes his signature to the "muzzling ordinance" passed Monday by the board of supervisors.

The mayor was engaged with outside duties yesterday and did not sign any of the ordinance finally passed by the board Monday afternoon, but when his signature is attached to the bill which Supervisor Cagliari succeeded in getting passed after a hard fight, a new order of things will prevail in the canine world.

Old easy going habits will be ended. Hereafter, dogs properly registered and tagged with a license number have been free to romp and run without fear of molestation. Under the new rules modes of street apparel are prescribed and strict regulations regarding conduct are laid down.

It's going to be as hard for a canine of high degree to accustom himself to the new regulations and abide thereby as it is for a taxicab driver to get all the provisions of the new traffic ordinance through his head and then keep within the law.

PRINCIPAL PROVISIONS Here are the principal provisions of the new rules, which all dogs are respectfully advised to follow to the letter:

- 1. When at home in your own back yard, see that there is a good fence around the yard, and don't try to jump over it, for the new law says that you must remain within "a sufficient inclosure." 2. When out walking with your master or mistress, secure that the line, rope or chain be attached to your collar and that your escort keeps hold of the other end.

3. When strolling the streets unaccompanied be sure that your costume includes a nice little muzzle, strapped tightly about your jaws. The latest designs in muzzles are being examined by the board of health, and you will be able to obtain recommendations from the board within a few days as to what is proper for street wear.

Note—Be sure and abide by these rules. The dog catcher'll get you if you don't watch out.

The dog catcher, by the way, has become a very busy person and is preparing to be even busier. Two wagons and an automobile truck are now being used in dog catching, and four crews are kept busy.

Thus far no licensed dogs have been taken up, but from 40 to 50 stray dogs are impounded each day. When the new ordinance becomes effective, the dog catchers are relieved from the necessity of looking for the license tag, the number taken up each day probably will double or triple.

THE LAW IN FULL The new ordinance reads, in full, as follows:

Be it enacted by the People of the City and County of San Francisco as follows: Section 1. Every dog kept within a sufficient inclosure or led and controlled by a line, rope or chain, or not being effectively muzzled so as to prevent such dog from biting persons or animals, is hereby declared to be a nuisance to public health and safety.

Sec. 2. Every owner or having control of any dog shall effectively muzzle it so as to prevent it from biting persons or animals, provided, however, that no dog need be muzzled while kept within a sufficient inclosure or led and controlled by a line, rope or chain. All muzzles shall be properly adjusted and shall be of a design approved by the Department of Health.

Sec. 3. Every dog kept within a sufficient inclosure, or led and controlled by a line, rope or chain, or not muzzled, as required by the provisions of Sec. 2 hereof, shall be impounded in the public pound by any peace officer or the police.

Sec. 4. Every person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than fifty dollars or by imprisonment in the county jail for not more than sixty days, or by both such fine and imprisonment.

Sec. 5. This ordinance shall take effect immediately and shall remain in full force and effect up to and including the first day of July, 1912.

OWNERS WARNED Up to Monday night 524 dogs had been received at the pound since March 1. The new automobile has been in operation five days and is doing the work of two or three wagons.

Owners of licensed dogs will be warned regarding protection against rabies. As soon as this has been done all loose dogs will be taken without regard for license tags, unless the dogs are muzzled.

When licensed dogs are impounded the owners will be notified and may obtain their pets by payment of \$2.50. But the owner is not sure to get off with the payment of the fee, for the ordinance makes it a misdemeanor to allow a dog at large without a muzzle, and provides a penalty of \$50 or 50 days in jail, or both.

"ALL DOGS LOOK ALIKE" The ordinance draws no class distinction, nor does the size of the possible canine victim make any difference. Miss Laura McKinstrey's Pekingese spaniel, for instance, or Mrs. Fred Kohl's aristocratic Pomeranian, are just as likely to land in the pound as Vincent de Laveaga's bull terrier or a schoolboy's Great Dane.

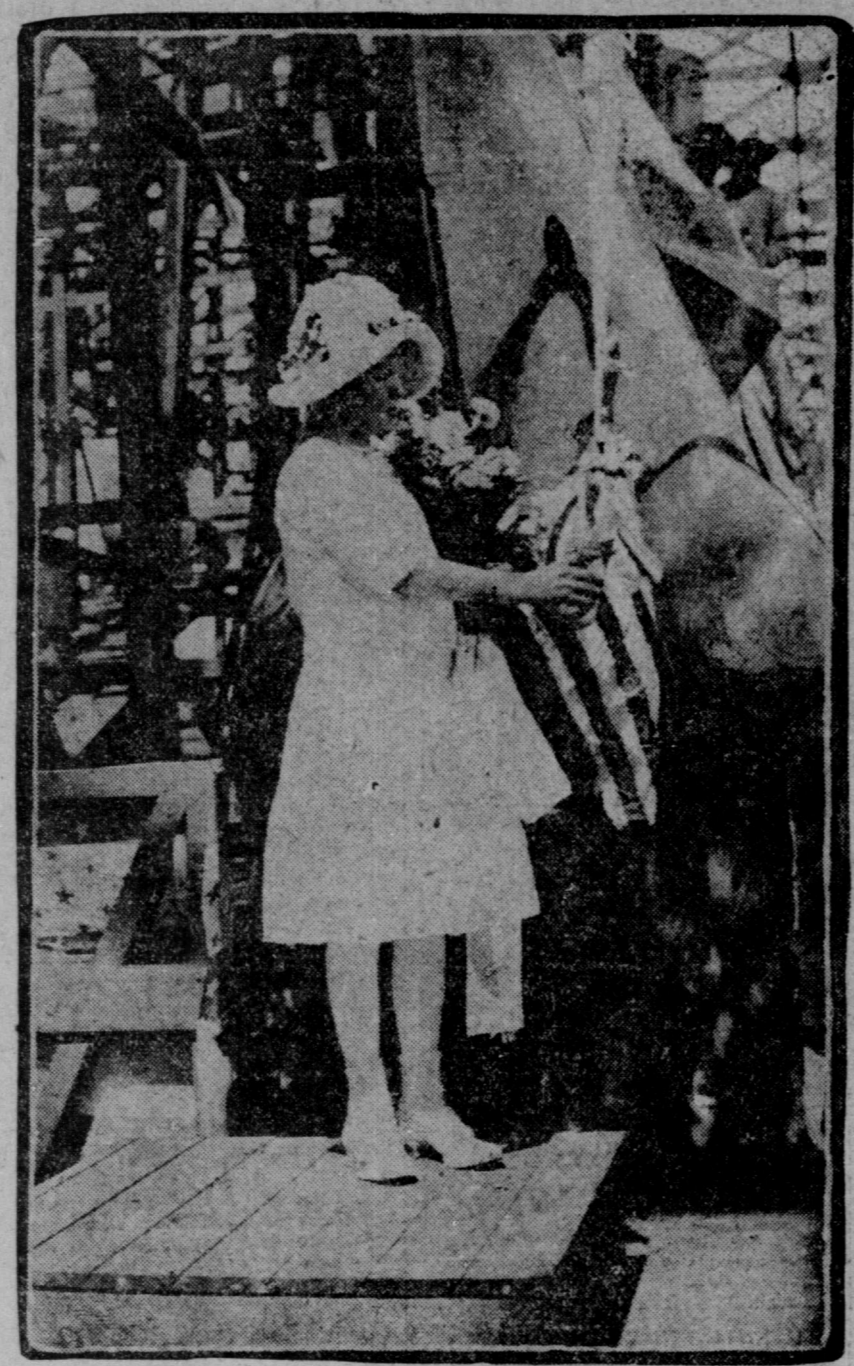

Nice legal questions are involved in the ordinance which may be threshed out later. If Miss Innes Keeney carried her Pomeranian in a muff or Miss Margaret Barron took her Pekingese spaniel for an outing in her pocket, would the muff and the pocket constitute "sufficient inclosures"?

Some of the society women who are deeply interested in the ordinance and its results are:

Mrs. James Ralph Jr., who has a whole family of prize winning cocker spaniels; Mrs. Richard Hammond, who has a Boston bull terrier; Mrs. Lloyd Baldwin Jr., who has a Boston bull; Mrs. Eliza Moore, who has a cocker spaniel; Miss Edith Chalmers, who has a collie, and whose pets are Alondra; Mrs. W. H. Anderson (formerly Ada Armstrong), who has a dog of a top black and tan terrier; Miss Harriet Alexander, who has a Pomeranian; Miss Marion Newhall, who has a family of fox terriers; Mrs. Bert Schlessinger, who has a kennel of Boston bull terriers; Miss Lydia Hopkins, whose pet is a Pekingese spaniel; Miss Erin St. Ger and Mrs. Josie Bowie Detrick, who have cocker spaniels; Mrs. Lansing Kellogg, who has a Boston bull terrier; Mrs. George Cameron, who has a King Charles spaniel; Mrs. George Caldwell, who has a spaniel terrier; Mrs. Joseph O. Tobin, who has a spaniel terrier; Mrs. George H. Stoddard, who has a bull terrier; Mrs. Eunice Seifridge, who has a setter; Miss Marion Stone, who has a collie; Mrs. Philip Pringle, who has a pointer; Mrs. Jack de la Motte, who has a collie; and Mrs. Philip Van Horne Lansdale, who has a Boston terrier.

Hawaii Has Mad Dog Scare Efforts are being made by the territory of Hawaii to check the spread of rabies. All dogs coming from or through any country where rabies exists will be kept in quarantine by the commissioners of the territory 120 to 150 days.

Splash! And Now 'Tis Annette Rolph, U.S.N.

Annette Reid Rolph christening the submarine Barracuda.

"F. 2" Launched and Mayor's Daughter Is Honorary Member of Navy

It is now Miss Annette Reid Rolph, United States navy. The mayor's pretty little daughter yesterday christened the submarine torpedo boat Barracuda as it started from its cradle at the Union Iron works to take its first dip in the salt water. By virtue of this act Miss Rolph becomes an honorary member of the navy. This insures her a welcome on any American warship in any part of the world and confers upon her the privilege of using the starboard gangway when she makes her visit.

"Tell her," said Mayor Rolph, "that she must break the bottle against the Barracuda's nose. There was a crash, a loud pop, and the air was filled with broken glass and champagne, and through the rainbow that the sun created in the vapor of grape juice the Barracuda could be seen sliding with ever increasing speed toward the water.

It dived in with a splash, heeled over to port and then took a roll to starboard. Slowly it came up on even keel and by the time it reached the end of its tether was floating serenely as a duck.

After the launching President J. A. McGregor of the Union Iron works presented to Miss Rolph a beautiful gold watch and chain, a gift for remembrance from the Electric Boat company, the builders of the Barracuda. He also informed her that by acting as sponsor for the little warship she had become an honorary member of the United States navy and that a pin, emblematic of her membership, would be here in a few days.

SISTER SHIP TO CARP The Barracuda is a sister ship to the Carp, which was launched from the Union Iron works September 6, 1911, and five other sisters are in grades at the same shipyard in various stages of completion. The Barracuda and her sisters will be important additions to the navy coast defense force.

The launching was attended by Mayor Rolph and a number of city officials and by many officers of the army and navy. The officers of the British warship Shearwater were among the guests on the launching platform. The launching was in charge of W. R. Sands, chief engineer of the Electric Boat company; Assistant Naval Constructor A. H. Van Keiran, Lieutenant Kirby Crittenden and J. J. Tynan, general manager of the Union Iron works.

How Nature Makes New Complexions (From the Family Physician) It is well known that the human skin is constantly undergoing a tearing, down and building-up process. With advancing years or waning vitality this tissue-change lags; the lifeless, soiled surface skin stays on so long that its owner gets a "poor complexion."

Common sense tells us this dead skin can not be enlivened by any cosmetic. The natural thing to do is to remove it. It has been found that ordinary mercerized wax completely absorbs the devitalized skin, in minute particles, so gently, gradually, as to cause no inconvenience. This wax, which any druggist can supply, is put on at night like cold cream and washed off in the morning. If you'd have a brilliantly beautiful complexion, just try this simple method.

WITNESS TELLS OF PLEDGED PROPERTY

Testimony Tends to Show That Issue of Oil Bonds Was Without Consideration

[Special Dispatch to The Call] BAKERSFIELD, March 19.—The Kern Valley bank rested its case in the Sunset road oil bond foreclosure suit today with the testimony of Frank H. Granger, a Salt Lake railroad accountant, whom the bank's attorneys say is their most important witness.

Granger testified that he examined the books of the Sunset Road Oil company in January, 1908, and produced a memorandum made at that time which the bank's attorneys maintain shows that all the property set forth in the company's minute book as the consideration for the bond issue in 1907, belonged to the company in July, 1905, prior to the first bond issue. The bank will depend largely upon this testimony to support its contention that the later issue of bonds was without consideration and therefore void.

W. L. Stewart, general manager of the Union Oil company, testified that he never received either of two letters, copies of which were produced from the Sunset Road Oil company's files and which were supposed to have apprised the Union in February, 1909, of the fact that the Kern Valley bank had decided not to subordinate its bonds to the Union's lease. Stewart also testified that the Union had more than fulfilled the terms of its lease, keeping several strings of tools running for some time after the price of oil had fallen below 40 cents, which was the point at which the Union was to be released from further development work.

MUSICIAN HONORED—Yallico, March 19.—S. W. Ballbaeh has been elected president of the Yallico Musicians' union. This is the fourth time that Ballbaeh has been honored by being chosen president.

NEW WELL TAPS RICH OIL FIELD

Strike Made by Midway Company Indicates Trend and Dip of "32" Incline

[Special Dispatch to The Call] BAKERSFIELD, March 19.—The Midway Fields Oil company has brought in a well at 2,650 feet on section 4-11-23, which is of great importance to the fields, as it indicates the trend and dip of the "32" incline. The strike proves almost conclusively that the entire flat of hundreds of acres east of Maricopa, most of which the government has withdrawn from entry, is laden with vast wealth in oil.

The American Midway Oil company has erected five new rigs on section 32-32-24. The Honolulu Consolidated, a Mattison company, is preparing to drill two new wells near its gusher in the Buena Vista hills.

The Mojave desert in the vicinity of Kramer and Barstow is reported to be dotted with oil rigs, and several companies are drilling. The Kramer Consolidated Oil company has a test well down more than 1,200 feet that is expected to come in, a well of paraffine base. More than 40 rigs have been erected in the Kramer-Barstow district.

The Esperanza Consolidated Oil company has put up six new rigs on its Midway property. Three wells are being drilled.

The Dunlop Oil company is drilling its sixth well on its twenty-five hill property near Taft. The Dunlop has 11,000 barrels monthly production.

BISHOP O'CONNELL INSTALLED IN EAST

Cardinal Gibbons Officiates at Ceremony for the Richmond Diocese

RICHMOND, Va., March 19.—Right Rev. Dennis J. O'Connell, appointed from San Francisco recently by the pope to succeed the late Rev. Augustine Van de Vyver, was installed as bishop of the diocese of Richmond here today by Cardinal Gibbons and the Catholic clergy of Virginia.

The procession from the episcopal residence to Sacred Heart cathedral was a brilliant pageant. Among the church notables present were the Marquis Edward J. Du Me, the pope's private chamberlain, accompanied by his marquis, Very Rev. E. R. Dyer of Baltimore; Very Rev. Joseph E. Hantschman of New York; Rev. Thomas C. O'Reilly of Cleveland and Mother Catherine Drexel of Philadelphia.

PLANS FOR WHARVES APPROVED BY BOARD Specifications Require Completion Before the Exposition

SACRAMENTO, March 19.—The advisory board of the state department of engineering today approved specifications for the construction of two wharves in San Francisco, to cost \$1,000,000, for the exclusive use of American-Hawaiian steamship lines, and to be completed before 1915.

BLESSED SUNSHINE RECORDS COMPILED SACRAMENTO, March 19.—The annual average rainfall in Sacramento for the last 62 years was 19.24 inches, states N. R. Taylor, weather observer. His records show that the average number of hours of sunshine each month runs from 111 for December and January to 434 for July, 405 for August.

A TRIAL WILL CONVINCE ANY ONE. THE GREAT KIDNEY REMEDY NEVER DISAPPOINTS

A few years ago I was troubled with a complication of kidney and stomach ailments and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one-dollar bottle of Mr. Alexander's, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I begun using Swamp-Root sooner, I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish. Yours very truly, CHARLES E. HARRIS, 400 Sixth St., Marion, Iowa. I certify that Charles E. Harris signed the above testimonial in my presence, being first duly sworn to the truth thereof, this 12th day of July, 1909. D. R. KINLEY, J. P.
