BOISE, June 4.—Through James H. Hawley, senior of the group of prosecutors, the state of Idaho today made the opening statement against William D. Haywood, whom it charges with the murder of Frank Steuenberg, and then began the presentation of the testimony by which it hopes to prove the indictment laid against him.

The opening statement was a broad, sweeping arraignment of the leaders of the Western Federation of Miners, who were charged with plotting wholesale murder, and hiring assassins, all in a giant conspiracy of vengeance upon the persons who obstructed their way to destroy opposition by terrorism, to control the political destinies of the communities covered by their organization.

It charged a widespread conspiracy dating in inception from the north Idaho disturbances fifteen years ago, reaching down to the murder of Frank Steuenberg, and whose murdered victims by bullet and bomb number scores. Hawley declared that wherever in the mining stations of the coast states the federation had been in control there had been left a trail of blood to mark its operations.

As to the general conspiracy Mr. Hawley said: "I have said, gentlemen, it has been part of their object and policy to control the politics of the various sections where they have lived, where they have existed, where their organization, their subordinate lodges had control. This conspiracy, this collusion, these crimes, this understanding between the leaders of this organization, together with some that were associated with them in a subordinate role, together at other times, together at that on the outside played into their hands, who were necessarily brought into their confidence has, as I have stated before, caused the death and been the real cause of the death of Governor Steuenberg."

With this understanding the conference closed, but another meeting will be held in a few days.

Dunne

SAN FRANCISCO, June 4.—The jury was completed this afternoon for the trial of Mayor Eugene E. Schmitz for the first of the five indictments returned against him by the Oliver grand jury, by which he is accused jointly with Abraham Ruef of having extorted from Joseph Malanti \$1175 as the first instalment of a \$5000 annual bribe to secure to the French restaurant keepers of San Francisco their licenses to sell liquor.

Judge Dunne, upon motion of the prosecution and over the determined and spirited objections of the defense, formally disqualified Sheriff Thomas O'Neil and Coroner William Walsh as unfit to perform any court functions in connection with the trial, and appointed William J. Biggy an alisor to have charge of the jury until a verdict has been rendered or a disagreement reached.

It is the desire of Judge Dunne, now that the jury has been completed, to hold night sessions, and tomorrow he will hear suggestions from counsel as to this. "I want this trial to go forward now," said the judge, "with as few interruptions and as much speed as justice will permit."

OUTCOME OF SAILORS'
STRIKE SEEMS UNCERTAIN

PARIS, June 4.—The strike situation still continues uncertain, but officials of the navigation companies are of the opinion that a general resumption of work is a matter of a short time only. The decision of the companies, made at the request of the government, not to prosecute deserters, will have, it is considered, a good influence on the men who still waver. The men at several ports have expressed a desire for continuation of the movement, but the officers generally are inclined to go back to work.

Attorney Frank D. Kellogg Retained
to Begin Proceedings Against
Railroad King—After
Coal Roads

WASHINGTON, June 4.—After a conference with President Roosevelt, Commissioner Franklin K. Lane of the interstate commerce commission said that before July 1 legal proceedings would be instituted to compel E. H. Harriman to answer certain questions propounded him by members of the commission at the recent hearing in New York when the merger of the Harriman lines was under investigation.

Previous to his conference with the president, Commissioner Lane had conferred with Frank E. Kellogg, special counsel for the government in the Standard Oil prosecutions, and it was arranged that Mr. Kellogg should represent the government in the case to be brought against Mr. Harriman. The proceedings to compel Mr. Harriman to answer the questions referred to will be brought in the courts of the southern district of New York. Whether the prosecution or the defense should win the decision, the case is expected to be appealed to higher courts and ultimately to the supreme court of the United States.

According to opinions already expressed by members of the interstate commerce commission it may be a year or even more before final decision can be reached on these efforts to compel answers to the questions to which Mr. Harriman declined to respond. For these reasons it was announced several weeks ago that the commission did not intend to await the result of these proceedings before taking action on the general subject of the investigation of the Harriman lines.
