

BIG CROPS WILL BRING GOLD TO U.S. PROTECTIVE MEASURES OF EUROPE USELESS CASH CONTINUES TO POUR INTO NEW YORK

Such banks shall immediately make available in money to the banks in such western states the full amount of the reserves held by such New York banks on account of such western banks.

The tying up of many millions of dollars of western money representing the reserves of the western banks held by New York banks, must inevitably result in empowering the New York banks to determine the time and conditions of free resumption of banking functions by the western banks, whereas if the reserves of the western banks were converted into available money at once the financial situation of the west would be free from domination on the part of the east and the west would become a valuable ally of the east in the restoration of desirable financial conditions rather than remain, as it is at present, a fellow sufferer.
