Uncle Sam's First Two Dreadnoughts Which Soon Will Be Placed in Commission in East

UNCLE SAM'S first two Dreadnoughts, the battleships North Dakota and Delaware, are practically completed and soon will be in commission. The Delaware is now having her powerful guns installed at Newport News and the North Dakota is getting ready for her trial at Quincy, Mass. These two leviathans differ from the other battleships of our navy in many respects aside from their tremendous size. The most striking difference is noted in the long, rakish hulls, the absence of the high superstructures so predominant in the older ships and the five immense turrets which protect the ten twelve-inch rifles that each of the ships will carry. It is estimated that either the Delaware or the North Dakota with their high speed will be more than a match for any other three ships now in the navy.

COUNCIL VOTES 'YES' ON FARCE UTILITY LAW

'SOLID SIX' STANDS TOGETHER AFTER LONG FIGHT

PROPOSED ORDINANCE EMASCULATED FOR CORPORATIONS Wallace Designates Measure as Passed as Absurd—Hewitt Denies Dromgold's Statement That He Drew Paper as Read

Tools of Corporations Following are the members of the city council who served the interests of the corporations by emasculating the public utilities commission ordinance and voting for the passage of the farce: R. W. Dromgold, First ward. E. A. Clampitt, Second ward. H. H. Yonkin, Sixth ward. Henry Lyon, Seventh ward. Bernard Healy, Eighth ward. E. L. Blanchard, Ninth ward.

AFTER one of the most spectacular fights ever waged on the floor of the city council, the purposeless, absurd, emasculated public utilities ordinance presented by Councilman R. W. Dromgold was passed. But the votes for it were barely enough for Wallace, Wren and Pease voted against the ordinance. The votes for it were from the six recognized servants of the corporations in the council, Blanchard, Clampitt, Dromgold, Healy, Lyon and Yonkin.

But these corporation servants have not yet succeeded in handing their masters a nice little sugar coated pill that they can easily swallow and laugh at. The mayor is yet to be reckoned with. While the mayor will not define his position he will write VETO on the ordinance in the largest capital letters at his command. And then it will be up to the council again to pass the ordinance over his veto.

RESIGNATION OF CRANE FAVORED

League Gets Busy But there will be a public utilities ordinance, much better and broader in its scope than the puny thing the council approved yesterday, if the people of Los Angeles want such a commission. The Municipal league yesterday began to circulate petitions to present the ordinance prepared by this organization to the people as an initiative proposition. As the general election takes place in December, the league will only attempt to secure the signature of five per cent of the voters and the ordinance will be on the ballot at the general election. The ordinance of the Municipal league contains the features that Dromgold eliminated from his ordinance and that are so distasteful to the corporation.

Slips Clerk "Bum Package" Dromgold either willfully or negligently did not understand and handed the clerk the ordinance he had trimmed the day before. When the clerk called attention to the fact that he had the wrong ordinance, Dromgold again asked that the Municipal league measure be read instead.

Mr. Crane left for New York today.
