Much ado about nothing is now being made about one teacher in the public school who refused to show her vaccination to Dr. J. H. Morgan.

There is chance for reform all about us. Even the weather could come in for a share of it. It will soon be served up like hot tamales after 9 o'clock in the evening.

The gates in the boxing tournament of the Wilmington City Bowling League last night resulted in victories for the Christian Association and Republican Club teams.

The Washington Fire Company will celebrate its 40th anniversary at German Hall this Friday evening.

Refrain from the habit during this cold and flu season of wearing a heavy coat and a heavy hat.

Wagering is prohibited by the laws in the form of slot machines, policy playing, Ferris wheel and other devices, gambling in stocks is winked at by the law.

It can be stopped for the time being but like the measles it is liable to break out at any time.

There is certainly delightful weather to have to stand out in the cold for one hour in a cramped position.

Martial Law Likely to Be Proclaimed in Spain.

NATIONAL CRISIS MAY RESULT.

Picked Battle at Barcelona and Streets Barricaded by Strikers.

MADRID, Feb. 21.—According to telegrams received here from Barcelona, the street fighting there continues.

A proclamation has been issued ordering all private individuals to surrender any weapons they may possess under pain of severe penalties.

The military engineers have assumed control of the street car service, and a few cars half filled with soldiers are running on the road.

The strike movement has begun to spread seriously. At Castellon de la Plana, taking advantage of the night and the absence of the police, the strikers set fire to two factories.

A pitched battle occurred in the outskirts of the city between the strikers and the military escort attached to several wagons that were bringing in provisions.

A strike commenced at Valencia, but, owing to the refusal of the dock laborers to participate, it did not become general.

Martial law has been proclaimed at Manresa, about thirty miles northwest of Barcelona.

The government declines to publish figures of the casualties in the riots of Tuesday and Wednesday.

Allegheny and Monongahela Rivers Ice Gorged at Many Points.

PITTSBURGH, Feb. 21.—A sleet storm, with rapidly moderating weather, and two days of rain predicted by the government weather office promise to bring about the conditions feared for weeks past by river men and citizens generally.

The gorge in the Allegheny extends almost without a break from Pittsburgh fully seventy miles up the river and varies in thickness from five feet to sixteen feet.

The river from Wheeling to Parkersburg is gorged almost solid, and the river men fear this almost as much as they do the gorge in the Allegheny.
