Wilmington Conference.

FOURTH DAY—OFFICIAL REPORT OF THE CONFERENCE OF THE CONFERENCE ACADEMY. Special to the Commercial.

ST. JOHN, DEL., March 20.

Devotional services were conducted, this morning by Rev. J. D. Curtis.

The closing of the second day, which had to be laid over yesterday, came up, and after suitable representatives, Revs. F. McSorley, T. B. Cramer, H. E. Roe, N. McQuay, J. M. Green, Isaac N. Foreman and E. Ayres were admitted to the conference and elected to disson's orders. S. B. Baker, who is suffering from ill health was continued on trial in the hope he may sufficiently recuperate to enter the effective ministry a year hence.

The interest of the magnificent lecture left to our conference by Rev. Rev. James Riddle, of Wilmington, amounting to \$120, was ordered to be paid to the Conference. Funds for the Methodist Ministry, was referred to the Conference Education committee. This is doing a good work but amid numerous embarrassing circumstances.

Dr. Curry, editor of the Christian Advocate, pastor of the Freeman's Aid Society, Prexyman of the Conference, and of the Methodist Episcopal Church, and of the Independent Methodist church of Baltimore, Toronto, N. J. was present and delivered an address at the Delaware Conference, were introduced to our conference.

Mr. Hudson was elected to local deacons' orders, and H. E. Bradley, a local deacon member of the Mission Conference, was elected to the same office.

The Conference Academy made a written report through W. H. Huelin, the agent. He said the academy had received \$24,000, and \$10,000 to be forthcoming in April, and though we have on the subscription book about \$22,000, we are still in need of \$2,000.

After the reading, Rev. J. H. Quigg offered a series of resolutions urging that the members of the Conference should assume the debt and raise it in any manner they may devise.

This called forth a spirited debate, participated in by Rev. Curtis, Kenney, Ex-Gov. Bannister, Thomas Mallin, the irrepressible J. B. Mann, Bishop Scott, and others, when the sum of \$25,000 was recommended by the Conference to place this impeded institution in safety, and insure its continued prosperity.

Mr. Mann proposed one hundred dollar subscriptions to make Bishops James, Scott and Wiley and Rev. Dr. Curry "life members of the Conference." Some of our Wilmington friends were present.

Mr. Mann was also made a life member, Dr. Curry leading off with \$25.

THE TEMPERANCE ANNIVERSARY. SMYRNA, DEL., March 22.

The temperance anniversary was held on Saturday evening, Rev. W. E. England in the chair.

Rev. A. Stongle was the first speaker and made some points which he enlarged upon at considerable length. His subject was "How to protect life, liberty and happiness; promote law and order; protect those incapacitated for self-protection, such as the insane, idiots, and the feeble-minded; and to give to the subjects these guarantees, it also licenses a traffic that is injuriously subversive of this condition of public order." Some of our Wilmington friends were present.

Mr. Mann was also made a life member, Dr. Curry leading off with \$25.

SECOND EDITION.

The Susquehanna Floods.

SITUATION AT PORT DEPOSIT—THE WATER STILL RISING—FRIDAY IN THE EVENING. Special Dispatch to the Commercial.

PORT DEPOSIT, March 22.

The ice gorge still remains intact, with no indications of an early breaking up. The water, however, continues to rise from the town, and having already fallen about five feet, those whose houses have been vacated by the flood are preparing to reoccupy them. The upper and lower ends of the town

REMAIN UNDER WATER, but in the central portion the streets are bare again. The wharves and lumber yards are still inundated and under the influence of the cold weather the violence of the current in the river is much reduced.

This, with the vent under the ice which the water has evidently found will sufficiently account for the movement towards the banks of the river by the swollen current, and below, the current

WHOLLY CONTAINED INSIDE ITS BANKS. Should a break up not occur in the Western branch of the Susquehanna, (the belief prevails here that the present flood is the result of the loosening of the ice only in the Eastern branch), before the gorge passes off no further danger is apprehended, as it has already been stated, the present jam the loss which will be sustained is incalculable.

Yesterday was spent WITHOUT ANY RELIGIOUS OBSERVANCE of the day in the churches. The water is still lingering about them, and they are inaccessible for worship. The town, therefore, was much the same aspect of the preceding two days.

Visitors continued to flock in, the talk about the flood was continued, and the only change noticeable was in the closing of the stores.

Provisions, which were scarce at first, are plentiful again and we now have an abundant supply. To the poorer people, however, the same aspect of the present jam the loss which will be sustained is incalculable.

THE MAJOR REVELL.—The Major Revell, of the Maine line has resumed her trips between New York and Philadelphia, beginning on Wednesday last.

REV. L. H. ADAMS, who came up from Conference to preach at Scott church, yesterday, was escorted by a tall veteran morning, and prevented from so doing.

APPOINTED.—Among the appointments by the Post office department, last week, was that of Joseph H. Chambers to be postmaster at Stanton.
