Medical.

THE GREAT REPUTATION

Which VEGETINE has attained in all parts of the country as a

Great and Good Medicine,

and the large number of testimonials which are constantly being received from persons who have been cured by its use, are conclusive proof of its great value. It is recommended by physicians and apothecaries. As a blood-purifier and health-restorer, it has no equal.

VEGETINE is not prepared for a fancy drink made from poor liquors, which debilitates the system and tends to destroy health instead of restoring it.

Are not the many testimonials given for the different complaints satisfactory to any reasonable persons suffering from disease that they can be cured? Read the different testimonials given, and no one can doubt. In many of these cases the persons say that their pain and suffering cannot be expressed, as in cases of Scrofula, where, apparently, the whole body was one mass of corruption. If VEGETINE will relieve pain, cleanse, purify and cure such disease, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? It works in the blood, in the circulating fluid. It can be truly called the *Great Blood Purifier*. The great source of disease originates in the blood; and no medicine that does not act directly upon it, to purify and renovate has any just claim upon public attention. When the blood becomes lifeless and stagnant, either from change of weather or climate, want of exercise, irregular diet, or from any other cause, the VEGETINE will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the *Vegetable Kingdom* are more safe, more successful, in the cure of disease, than mineral medicines. VEGETINE is composed of roots, barks and herbs. It is pleasant to take, and is perfectly safe to give an infant. Do you need it? Do not hesitate to try it. You will never regret it.

CANNOT BE EXCELLED.

CHARLESTOWN, March 19, 1869.

H. R. STEVENS:—

DEAR SIR—This is to certify that I have used your "Blood Preparation" in my family for several years, and I think that, for Scrofula or Cankerous humors, or Rheumatic Affections, it cannot be excelled; and, as a blood purifier and spring medicine it is the best thing I have ever used; and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.

Yours respectfully,
MRS. A. A. DINSMORE,
19 Russel Street.

WHAT IS NEEDED.

BOSTON, Feb. 13, 1871.

HENRY R. STEVENS, Esq.:—

DEAR SIR—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and, after using several bottles, was restored to health, and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared; and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.

Respectfully yours,
U. L. PETTENGILL,
Firm of S. M. Pettengill & Co.,
No. 10 State street, Boston.

GIVES HEALTH, STRENGTH AND APPETITE.

My daughter has received great benefit from the use of the VEGETINE. Her declining health was a source of great anxiety to all of her friends. A few bottles of the VEGETINE restored her health, strength and appetite.

GAINED FIFTEEN POUNDS OF FLESH.

SOUTH BERWICK, Me., Jan. 17, 1872.

H. R. STEVENS, Esq.:—

DEAR SIR—I have had Dyspepsia in its worst form for the last ten years, and have taken hundreds of dollars' worth of medicine without obtaining any relief. In September last I commenced taking the VEGETINE, since which time my health has steadily improved. My food digests well; and I have gained fifteen pounds of flesh. There are several others in this place taking VEGETINE; and all have obtained relief.

Yours truly,
THOMAS E. MOORE,

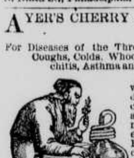
AYER'S CHERRY PECTORAL.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.



The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long, as *Ayer's Cherry Pectoral*. It has been known to the public about forty years, by a long continued series of marvellous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed the *Cherry Pectoral* has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded, if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

Washington News

THE DEMOCRATS TRYING TO SHAPE A POLICY FOR THE NEXT CAMPAIGN.

Special Dispatch to the New York Times.

WASHINGTON, Dec. 8.

Besides the members of both houses of Congress there are many prominent Democrats here from all parts of the country, including the National Committee. They are trying to shape a policy, and the plan of the National campaign of next year, as well as conferring and counselling with the new House for legislative policy that will not ruin their chances of success in the national contest. It has leaked out that there is quite a difference of opinion to the course to be pursued. Quite a large number incline to an aggressive course and wholesale investigations, while a large element seem to have determined upon a moderate and conservative policy and few investigations. There has been no general caucus of the Democrats as yet, only meeting of the leading men of the party, but it is expected that the latter part of this week or the early part of next, soon after the committees of the House are announced, there will be a general caucus held, at which some definite agreement as to the policy of the party will be effected.

PINCHBACK'S CASE.

The case of Pinchback, of Lousiana, will be taken up before recess, probably, though there is some disposition to postpone it till the Senate is as full as possible. Pinchback is very hopeful, and bases his expectations partly on the need the Republican Senators have for a few recruits to assure them a constant majority. The vote is likely to be very close unless many changes have been made in the political situation in New Orleans by seating Mr. Pinchback or rejecting him, and this may, perhaps, favor the recognition of his claim to a seat.

CUTTING DOWN THE ARMY.

The Democrats will introduce a bill into the House in a few days to reduce the Army from a maximum of 25,000 to 15,000. This they claim, would reduce the military expenses forty per cent, or about $16,000,000 per year. It would cause the retirement of about four hundred line officers. Some such bill may be expected to pass the House during the Winter.

TROUBLE IN DISPENSING PATRONAGE.

The Democrats are experiencing much trouble on account of the patronage which falls to them with their ascendency in the House. The new Doorkeeper has appointed nearly all his assistants, and so has the Postmaster. The latter has taken nine or ten men from Virginia, and many of these are from the vicinity of Alexandria. Maryland applicants have had nothing, and are very angry. Eight of the Postmaster's appointees could not take the "iron-clad oath," but subscribed to the modified form. New England Democrats have been promised three places only about the House.

Centennial Matters.

CONGRESS ASKED FOR $1,500,000—INVITED TO PHILADELPHIA.

WASHINGTON, Dec. 8.—The first step toward an appropriation for the Centennial was taken in the Senate to-day. An elaborate and frank exposition of the receipts and expenditures of the managers of the Centennial, containing all the items involved, the amount of money on hand, and an estimate of the amount still required, was laid on the desks of the Senators this morning. Later in the day Mr. Oglesby presented a memorial of the Board of Finance, asking for something over a million and a half dollars at the hands of Congress. The temper of Congress is more favorable than heretofore toward contributing to the success of the Exhibition. There was also sent to each member and Senator to-day an invitation to visit the grounds of the Centennial, at Fairmount Park, on the 17th instant, and return on the evening of the 18th. A special train will be provided, and in Philadelphia the Congressmen will be the guests of the city. Lunches, dinners, banquets, speeches, and a general good time is promised on behalf of Philadelphians. It is proposed to show to Congressmen exactly what has been done without Government aid, and what it is yet proposed to do. It is claimed that no idea of the extent of the work accomplished can be obtained except by a personal visit. Thus far, although invitations were issued to-day, over a hundred acceptances have been received.

Motion in the Keely Motor.

ANNUAL MEETING AND ELECTION—THE NEW GENERATOR AND RECEIVER, ETC.

There was a movement in the Keely motor business yesterday. It was the day of the annual election of directors by the stockholders, of whom there are 115 on the rolls, having 20,000 shares of a "face" value of $50 a share, distributed among them, and held about half-and-half in New York city and in Philadelphia. After electing eleven directors and hearing the reports of the present condition of the machine, the party took carriages and drove out to Keely's workshop, where they inspected the new generator, which was received yesterday afternoon from I. P. Morris & Co.'s. It weighs two tons, and is made of phosphor bronze, an Austrian gun metal, and will, according to Keely, be able to generate 38,000 pounds pressure to the square inch. The new receiver, a perfect sphere thirty inches interior and forty two inches exterior diameter, weighing seven thousand pounds, cast in steel at the Chester Works, and taking four days to cool and thirteen days to be decarbonized, will also be received from Roach's works, at Chester, in about a week. Then, in about three months, the Keely motor will be ready to split ships in two, drive engines to New York and back on a pint of water, etc., etc., etc.,—*Philada. Times, 9th.*

SALE OF THE CLEMENTS PROPERTY.—Sheriff Cooper, of Kent county, sold at Smyrna, on Tuesday, the real estate of James R. Clements, of that town, part in fee but in the greater portion only a life estate. This last part was bought in by the heirs. The total amount of sales was $16,000. The mansion and store in Smyrna were bought by Mrs. Geo. W. Cummins, Jr., and Wilbur F. Clements, the former for $275., and the latter for $224. The farm below Smyrna Landing was sold in fee to Jno. A. Cavender for $5,615., and the foundry in Smyrna to same purchaser at $930. The *Times* says much of the property went at remarkably low rates. For instance, No. 26, at the Landing, including two granaries, brick office, lime sheds, a double two-story frame dwelling and a single two-story frame dwelling was sold by sheriff five or six years ago as the property of R. F. Hastings, for $2,050. Now it sells for $955. Two other tracts are yet to be sold—a farm at Felton, next Saturday, and also one at Dover, next Tuesday.

THE ARTISANS' SAVINGS BANK,

502 MARKET STREET,

Incorporated February 28, 1861.

Open to receive deposits daily from 9 a. m., until 4, p. m. and on Tuesday and Saturday evenings, from 7 to 8 o'clock.

A SEMI-ANNUAL DIVIDEND, AT THE RATE of six per cent. has been regularly paid on deposits since the organization of the Bank and it is the expectation of the Managers, that this rate of dividends will be continued.

When dividends are not withdrawn, they are accounted as deposits. Thus permanent deposits compound their interest twice in each year.
