City Council this evening.

The Star and Young Men's Loans meet this evening.

How high lemons are! And yet they grow on low trees.

Letters may be expected from the Cook excursionists, in a day or two.

Rev. W. Perry, formerly of this city, is now at McComb City, Miss., where he is engaged in evangelist labors.

Jackson's bill board, on the SaVille Building, is handsomely decorated with pictures of Duprez & Benedict's minstrels.

The city street committee advertise for proposals for grading and paving the bed of Front street, between Poplar street and the Christiana.

Congressman Lofland and Governor Ponder were in the city, yesterday. The Congressman had been on a visit to Washington with Collector Nolon, and Mr. H. F. Pickels.

A Grand Entertainment and Pic-nic" will be held in Ross Grove, at Seaford, on Thursday of next week. Addresses, music, dancing, and a game of base ball between the Delaware Club of Seaford, and the White Clouds, of Salisbury, are on the programme.

ENTERED UPON HIS DUTIES.—Mr. David H. Coyle, the newly-elected Street Commissioner, entered upon the duties on Monday. He has resigned his duties of Secretary and Treasurer of the Wilmington Rolling Mill Co.

DOWN THE BAY.—Calvary P. E. Church and Sunday School have a beautiful day for their sail down the bay to Fraland. The *Ariel* left with a large and happy band of excursionists, and a pleasant time will surely be had by all.

PAINFUL INJURY.—On Monday evening, an infant son of A. J. Schrack, residing at No. 5 West 12th street, fell off the bed while playing, fracturing the right shoulder bone in the fall. It was a painful accident for the little fellow, but he is now doing very well.

CHESTER CO. MILK CO.—The Chester County Milk Company made at the factory at Hopewell last week 5248 quarts of ice cream. The most of this large quantity was shipped to Philadelphia, Wilmington and Cape May. The largest shipment was on Thursday—2500 quarts.

PULLED DOWN.—Workmen are now engaged in pulling down the walls of the St. Mary's College building, to make way for the extension of 11th street. The building was sold some months ago, to Chas McClusky for $2,800, and he is carefully saving the bricks and whatever else is worth preservation.

NEW PAPER MILL.—The new paper mill of Messrs. D & J. C. Ecking, on Muddy Run, in Upper Oxford township, Chester county, is nearly finished, and will commence running this week. The building is erected on the site of the one destroyed by fire some time ago, and will be a large and complete mill when finished. The kind of paper manufactured by the Messrs. Ecking is tissue manilla.

INTERPRETER.—Richard Komas, one of the Indian students of Lincoln University, for the last two years, has been appointed by Commissioner Smith, of the Indian Bureau, interpreter for the United States Government in the councils being held at Fort Bridger and other parts of Utah, between Major Powell and various Indian tribes. His appointment was recommended by the faculty of Lincoln University, who have full confidence in his intelligence and knowledge of the English language to make an excellent interpreter.

FATALLY SCALDED.—Eva Jones, a little girl, about seven years old, was fatally scalded on Monday afternoon, by falling into an excavation in 13th street, between Walnut and Poplar, which had been dug by Pusey Brothers, for the purpose of placing therein a steam pipe connected with their factory. The pipe was filled with steam and hot water, and the little girl sustained fatal injuries, and died Tuesday. Coroner Winslow held an inquest. The jury, in their verdict, condemned Messrs. Pusey Brothers for not filling up the hole.

THE UNION CAMP GROUND.—The committee which viewed the woods of Miss McIntire, at Southwood station, on the W. and W. R. R., with the view to purchasing it for camp meeting purposes, have not yet made their report to the churches. Miss McIntire asking further time to consider the proposition. They have, therefore, resolved to look at the pic-nic grounds at Lockard's Bridge on the W. & R. R. R., and other available locations along that road, and will probably go thither early next week. The committee consists of Wm. Bright, Jacob Sharp, Barzilla Heisler and John A Wise.

TO ATLANTIC CITY.—The time-table of trains on the Camden & Atlantic Railroad is printed in our advertisement columns to-day. Express trains are run through, over the whole line, in 1¾ hours, leaving Philadelphia, (foot of Vine Street,) at 11 a. m., and 2, p. m. A Woodruff parlor car is attached to each express train. On Sundays, the mail train leaves Philadelphia at 8. a. m., and returning, leaves Atlantic City, at 4.35.

A great deal of enterprise has characterized the management of this road, in the last few years, and the steady growth and maintained popularity of Atlantic City, as a summer resort, it cannot fail to be profitably appreciated by the public.

SUICIDE.—On Monday afternoon of last week a young man named Albright, of weak mind, living near Odd Black Rock Furnace, Coleraine township left home saying he was going to help Wm. Phillips make hay. Nothing more was seen of him until next morning, when his father, going down through a ravine near the Octoraro, found him hanging to a small tree, entirely naked, his clothing being carefully piled up near the place. His father's attention was first attracted by the actions of a small dog which accompanied the deceased. Early in the morning the dog came to the house and continued to bark and frisk around until the father followed, and discovered the dead sight. Deceased was a young man about 24 years of age. No cause can be assigned for the rash act. The inquest was held by Deputy Coroner Galbraith.—*Oxford Press*

THE ALDINE.—One of the best publications printed in this country is the *Aldine*. No one sees it but to admire it. There is such a genuineness about its pictorial illustrations that the gazer upon them receives a very correct impression of the object in nature, while the descriptions of its illustrations are so apt and thorough that what the picture fails to convey is made up in this wise. As a literary magazine it is also a production of merit, so that it is complete in all its parts—even in typograpical excellence. The constant reader of the *Aldine* cannot give it up. We have thus spoken of the magazine to introduce Mr. J. H. Dyer the agent who is now soliciting subscriptions in Wilmington. His headquarters are at the Clayton House where he has specimens of the chromos—"The Village Belle" and "Crossing the Moor," companion pictures—which are given to subscribers,

LETTERS FROM THE PEOPLE.

EVERY EVENING AND THE CITY CELLS.

To the Editor of the Commercial:

I have read with no little amusement the pleas of *Every Evening* for the erection of a new City Hall and cells, particularly that in which it urges the sickness of one of its compositors from the stench. If E. E would keep its compositors at a *more respectable distance* from the cells o' nights, possibly the affection would not be so great. TOTAL ABSTINENCE.

A New Fountain.

VALUABLE ADDITION TO THE WILMINGTON & BRANDYWINE CEMETERY.

With a commendable degree of enterprise, the Wilmington & Brandywine Cemetery Co. are meeting a popular want very generally recognized. They have seen how the effort to open a public park has been foiled, for the present at least, and have, therefore, resolved to embellish the cemetery grounds to fill, in some measure, the deficiency of a park.

To this end they have just erected on the brow of the hill which overlooks the Brandywine, and between the two main avenues, a very handsome iron fountain which has been painted white. This fountain is 16 feet high and is erected in a basin 17 feet in diameter. It is surmounted by a female figure, holding in its right hand a ewer, from which shoots a stream of water into a goblet which is held in the left hand. A few feet below four swans stretch their necks upward, and from between their bills a stream of water leaps, and lower still a corresponding number of lions' heads also emit small streams. The intervening space between these central objects is filled with an ornamentation at once appropriate and beautiful. Sets of water are also thrown up from the basin.

This fountain was built by R. D. Wood & Co., of Philadelphia, at a cost of $1200. It is the largest and handsomest fountain in the city.

The water has not yet been turned on, but will be in a few days. The grounds around it are also yet to be fixed up.
