and furnished than when the campaign opened. Several thousand reinforcements have also been forwarded to other armies in the field, and ample supplies to all.

During the same time over 30,000 volunteers for 100 days have been mustered into the service, clothed, armed, equipped, and transported to their respective positions. This statement is due to the chiefs of the army staff and bureaus, and their respective corps to whom the credit belongs.

EDWIN M. STANTON, Sec'y of War.

THE ARMY OF THE POTOMAC.
The Bridge Over the Mattapony Occupied.

WASHINGTON, May 24.—A dispatch, dated from the Headquarters Army of the Potomac, at Guinney's Station, May 22d, says the advance of the army, under General Hancock, arrived at Milford yesterday, and met a force of the enemy there, said to be 13,000 strong, and drove them through the town and pursued them some distance. Our loss is unknown.

An attack was made on the headquarters train near Guinney's station yesterday afternoon. The 114th Pennsylvania Zouaves, with the 68th Pennsylvania, formed in line and drove the rebels, the 9th Virginia cavalry across the bridge. One of the 68th Pennsylvania was killed and two or three wounded. Several prisoners were captured.

May 22, 10 P. M.—Gen. Hancock is seven miles south of Bowling Green, and occupies the bridge over the Mattapony river. Our cavalry had a good deal of fighting, but drove the enemy all the time. Our position is now deemed important, and Richmond is in greater danger than ever.

General Hancock, in storming the rifle pits this side of the river, this evening, also took between 100 and 200 prisoners, and drove many rebels into the river, where they were drowned.

DEPARTMENT OF THE GULF,
Admiral Porter's Fleet Unbound.
ALEXANDRIA EVACUATED AND IN FLAMES.
Advices from New Orleans, Matamoros and Brownsville.

Cairo, May 22.—Admiral Porter's flag-ship has arrived at Mound City, and reports the entire fleet out of Red River, the dam having reached a height on the 13th inst. sufficient to enable them to move.

An extensive conflagration recently occurred at Natchez, consuming several blocks of most princely buildings. The fire was believed to be the work of incendiaries.

The steamer Mollie Able, No. 17, arrived this evening, with the 17th and 23th Illinois Infantry on board, bound for Springfield.—The 28th has re-enlisted and the 17th is to be mustered out.

Our forces evacuated Alexandria last week, and moved toward Sellsport. The officers of the steamer Laurel Hill, which had arrived at New Orleans, state that they distinctly heard heavy cannonading from the direction our forces had taken.

The fleet was much annoyed in passing out by guerillas, who lined the banks between Alexandria and Fort De Russey.

A portion of Alexandria was burning when the Laurel Hill left. This steamer had two hundred sick on board, and while flying hospital flags was fired into ten miles below Alexandria, but no injury resulted. General McClernand, who was seriously ill, was on board.

SLAUGHTER OF UNION TROOPS ON THE STEAMER CITY BELLE.

Colonel Mott, of the 149th Ohio, and many other officers of rank were killed, and the greater part of our troops, of which there were 500, were slaughtered on board the steamer City Belle at the time she was captured and burned by the rebels, thirty miles below Alexandria, in the early part of the month.

THE PRESIDENTIAL STATE CONVENTION.

Cairo, May 22.—By the steamer we have New Orleans advices to represent Louisiana in the Baltimore Convention were elected by the State Convention. The *Delta* of the 16th says: "The action of the Convention was harmonious, every member endorsing the general policy, civil and military, of the Administration, and also heartily approving the civil and military course of General Banks, and the policy inaugurated by Gov. Hahn, as tending to put down the rebellion and restore the Union."

The steamer Cassandra, from Boston, had arrived with 318 men of the 30th Massachusetts, and 94 recruits for other commands.

MATAMOROS—FRACAS BETWEEN MEXICANS AND FRENCHMEN.

Late intelligence from Matamoras represents things as very unsettled, and the bad feeling existing between the native and French residents had ripened into an actual outbreak.

General Cortinas and staff, while riding through the streets, were insulted by Frenchmen and a general quarrel ensued. Weapons were drawn and freely used by both parties. Cortinas' adjutant general, during the melee, shot one Frenchman dead, and another was arrested and executed the next day by Cortinas. Much excitement prevailed, and many of the French residents were leaving the city.

REFUGEES AT BROWNSVILLE.

All is quiet in the vicinity of Brazos.—Judge Hancock, one of the most prominent Union men of Texas, had escaped from rebeldom and arrived at Brownsville, accompanied by about twenty others.

An Appeal to the Agriculturists of Delaware.
IN AID OF THE GREAT CENTRAL FAIR,
FOR THE SANITARY COMMISSION,

To be held in Philadelphia, June, 1864.

We address you as a member of that large and honorable class of men engaged in cultivating the soil.

That calling of which you may well feel honored as being a member has been proudly yet justly called the "Nursing Mother of the Arts." It is the great fountain head from which the enriching streams of our National greatness, freedom and prosperity flow. You are appealed to in a cause of no ordinary importance, but one which must enlist at once the deepest sympathies of all who love liberty and their country.

A little more than three years ago the President first called upon the people to furnish men to enforce the laws of the United States amongst those who had violated them by rebellion. Since that time, numerous calls have been made, much greater than the first, yet each and all have been nobly met by a people who desire to cherish free institutions, and who are willing to sacrifice all that remains, rather than abandon the Constitution and the Government established and reared for them by the valor, wisdom and patriotism of their noble forefathers.

From every battle field where Union arms have triumphed; from every couch where the wounded and dying now lie in pain and anguish; from every hearthstone in our broad land where mother, sister, widow and orphan weeps the loss of loved ones, comes the appeal to you and to us for sympathy and aid. Let us not think that the Government can meet all the wants and sufferings of so large an army. It has done much in the past, and is still nobly doing all in its power to alleviate the sufferings of our brave soldiers; but there yet remains much to be done to add to their comfort, and it becomes us to do this, at least, for those who have left home and friends to encounter the dangers of the battle field, in order that the imperiled liberty of our country may be saved, and the honor and unity of our great and good Government maintained.

You, as a class, have not suffered more than other great branches of business. True, much of the army is made up of those who were formerly employed by you as laborers; but still, no material disadvantage has resulted to you. The demand for articles that you produce has been so great as to raise their price to that point where ample remuneration for skill and labor has been received. Then, again, you have been amply protected in your property, and in the pleasures of your home and family, as well as in the peaceful avocation to which you belong. For all this you should feel grateful, and should be willing to give liberally of your abundance. After doing all, and giving all we can, we shall still owe a debt to our country's defenders that nothing but the gratitude of unborn generations can repay.

The leading interest of our State is Agriculture, and it is expected that the aggregate of the donations received from this class shall be large; such, indeed, as to make a sum sufficient to reflect honor on the interest which you represent, so that when the faithful historian shall come to make up the record of this noble enterprise, Delaware Farmers may feel proud of the liberality of which it may be his pleasure to speak.

The agents of this humane commission have already been at work. They have sought the field of battle while the smoke of the dreadful fray was yet surging in thick clouds above it, to minister to the wounded and dying. It is to make this organization more effective that your aid is asked, so that as much of the suffering of our soldiers may be prevented as is possible.

All contributions of money may be made to the President or any member of the Committee.

Articles of produce or agricultural implements may be forwarded, free of charge, over the Delaware Railroad, and should be carefully addressed to SAMUEL M. HARRINGTON, Jr., Esq., Wilmington, Delaware.

The name and Post Office address of the contributor should be stated, in order that all articles may be duly credited,

U. S. 10-40 BONDS.

These bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state of municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period *not less than ten nor more than forty years* from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, or Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasuaer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit, As these Bonds are

Exempt from Municipal or State Taxation,

their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay

Over Eight Per Cent Interest.

in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the vacious descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was $708,965,000. The interest on this debt for the coming fiscal year will be $45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over $100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to $150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the

First National Bank of Philadelphia, Pa.
Second National Bank of Philadelphia, Pa.
Third National Bank of Philadelphia, Pa.
First National Bank of Baltimore, Md.
First National Bank of Washington, D. C.

AND BY ALL NATIONAL BANKS

which are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depositary Banks,) will furnish further information on application and afford

NATIONAL MERCHANT.

It contains a choice selection of Literary matter, Tales, Poetry and a large amount of commercial information.

The Reviews of the Markets are themselves worth more than the price of subscription.

The knowledge imparted by our advertising columns, of true and honest men, selected for their integrity, and who will sell at the lowest possible price; is worth more than the price of subscription.

This paper has very plain print for the aged and those of weak eyes.

It does not contain anything improper for family reading. Money cannot buy space in our columns, for the obscene advertisements, which are so greedily displayed by almost every other paper in the land. All the Patent Nostrums for respectable families, where such nostrums are not wanted.

Do not say that you cannot afford it, for you spend more in cigars or tobacco, or some other foible, in one month than would supply the Merchant with its cheerful happy influence, to your family or some fair friend for a whole year. The Merchant is a very good school master to have in a family, it teaches your children a great deal, speaks kindly to them and never whips.

It has more reading matter for One Dollar a year, than any other paper in the world.

To procure the Merchant, put one dollar in a letter and direct to S. ASHTON,
National Merchant Office,
126 South Second St., Philadelphia.

The Merchant will be sent up to the time only that it is paid for.

for Weakness, arising from Habits of Dissipation attended with the following symptoms: Indisposition to Exertion, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Dimness of Vision, Wakefulness, Pain in the Back, Universal Lassitude of the Muscular System, Hot Hands, Flushing of the Body, Dryness of Skin, Eruptions on the Face, Pallid Countenance.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follows Fatuity, Epileptic Fits, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases" "Insanity and Consumption?" Many are aware of the cause of their suffering. The records of the insane Asylums, and the Melancholy Deaths by Consumption, bear ample witness to the truth of the assertion. The Constitution once affected with organic weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU INVARIABLY DOES.

HELMBOLD'S EXTRACT BUCHU is safe, pleasant in its taste and color, and more strengthening than any of the preparations of IRON OR BARK.

For those suffering FROM BROKEN-DOWN AND DELICATE CONSTITUTIONS, from whatever cause, either in MALE OR FEMALE.

IT WILL GIVE YOU A GOOD APPETITE.
WILL GIVE YOU STRONG, HEALTHY NERVES.
WILL GIVE YOU BRISK AND ENERGETIC FEELINGS, and will enable you to SLEEP WELL.

A trial will convince the most SKEPTICAL.

HIGHLY CONCENTRATED
COMPOUND
FLUID EXTRACT SARSAPARILLA,
For purifying the blood, removing all chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas and all Scaly Eruptions of the skin, and BEAUTIFYING THE COMPLEXION.

NOT A FEW

of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the discoveries that have been made to purge it out, none can equal in effect HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA. It cleanses and renovates the blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect; but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two table spoonsfuls of the Extract of Sarsaparilla added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The Extracts have been admitted to use in the United States Army, and are also in very general use in all the State Hospitals and public sanitary institutions throughout the land, as well as in private practice, and are considered as invaluable remedies.

Mexican Mustang Liniment.

The parties in St. Louis and Cincinnati, who have been counterfeiting the Mustang Liniment, under pretence of proprietorship, have been thoroughly estopped by the courts. To guard against further imposition, I have procured from the United States Treasury a private steel plate revenue stamp, which is placed over the top of each bottle. Each stamp bears the fac simile of my signature, and without which the article is a counterfeit, dangerous and worthless imitation. Examine every bottle. This Liniment has been in use and growing in favor for many years. There hardly exists a hamlet on the habitable globe that does not contain evidence of its wonderful effects. It is the best emollient in the world. With its present improved ingredients, its effects upon man and beast are perfectly remarkable. Sores are healed, pains relieved, lives saved, valuable animals made useful, and untold ills assuaged. For bruises, sprains, rheumatism, swellings, bites, cuts, caked breasts, strained horses, &c., it is a sovereign remedy that should never be dispensed with. It should be in every family.
