

Hello! Berberich's !!

Tell the Good People of Washington

that instead of Friday, December 18th

I Will Arrive by Airship
Saturday, December 19th
At 10 A. M.

A good place to see me in full flight will be at the Monument Grounds
in Potomac Park where—

I Will Distribute to Those Who Greet Me

Mechanical Train, Twenty Inches Long with Track.

This train runs on a circular track that will just about fit on top of a dining-room table. Locomotive blows whistle while in motion. Train consists of locomotive, tender, and two first-class passenger coaches. Track is equipped with brake for stopping train.

Minnehaha Acrobat Shoes

For Boys and Girls

Twenty years' experience in the manufacture of children's shoes is back of every MINNEHAHA ACROBAT.

They are made on lasts of the manufacturer's own special design that insure absolute comfort and the use of all muscles of the foot, proper growth, and even tread.

There is no metal to hurt the floor and furniture—more important still, no metal to injure the tender feet of the growing child.

But there is comfort and style and wear. They are noiseless and altogether the most natural covering for the hurrying feet of childhood that the ingenuity of man, working with the most modern machinery, has ever devised.

The guarantee of the manufacturers to BERBERICH and BERBERICH'S guarantee in turn to YOU insures the full hundred cents' value for every dollar invested in a pair of MINNEHAHA ACROBATS.
