TRIBUNE SUPPLEMENT.

NEW-YORK, JANUARY 17, 1850.

See Regular Sheet of This Morning.

MAYOR OF PITTSBURG INAUGURATED, AND TAKES BACK TO PRISON.—It has already been announced that Joseph Barker hitherto known as the "street preacher," had actually been elected Mayor of Pittsburg while a prisoner in jail, under sentence of 6 months imprisonment, for delivering immoral and indecent harangues to crowds of people assembled in the streets. It was also stated, that a telegraph dispatch had been received from Harrisburg, announcing that Gov. Johnston had pardoned him, set up to Friday morning it had not reached Pittsburg, and some doubts are entertained whether the announcement was correct that a pardon had been granted.

Friday morning being the time appointed by the charter for the meeting of the new council and the inauguration of the Mayor, they assembled, and the sheriff brought the Mayor into the council chamber from the jail, to be inaugurated, whereupon was greeted with immense cheering by the friends assembled in the lobby.

The oath of office was administered to him by Judge Patton, who a few months ago passed sentence upon him. The Judge made the following remarks on administering the oath, and immediately withdrew:

"I hope, Sir, you will more than realize the expectations of your friends, by an honest, impartial and energetic discharge of your duties."

Mr Barker, after having been sworn in, made the following speech:

Gentlemen of the Select and Common Councils: In obedience to the express wishes of my fellow citizens, I have advanced before you and take the oath prescribed by law as the Mayor of this great city.

Being placed in this high position among my fellowcitizens, may I ask your kind indulgence for a few moments, to express my heartfelt gratitude to the freemen who sympathized with me in the hour of trial.

Such sympathy and friendship cannot and shall not be forgotten or lightly esteemed, while I have a beating heart or tongue to pulsate to the interests of Pittsburg. I return, my sincere thanks for their kindness to me and mine, and shall try and deserve a continuance, by a faithful discharge of my duty.

Gentlemen: On entering upon the new and untried duties of the Mayoralty, I am sensible that in order to be successful, I shall need your aid and advice. May I have it? I believe I shall; and under this assurance, I bend every energy of body and mind to advance the best interests of our growing city, knowing to party but such as keep the laws.

After the address he handed in a list of his appointments in the officers of the Corporation, and was conducted back to jail by the Sheriff, to await the receipt of the promised pardon of the Governor.

HANGINGS—Paper, 40,000 pieces, from 20 to 36 inches wide, different qualities and colors, for sale at manufacturing prices. GUNT & DERRICKSON, 189 South-st.

MEDICINES.

PROOF! PROOF!!—HERE IS PROOF conclusive, that Dr. S. P. Townsend's Sarsaparilla is the original.—The following is from some of the most respectable papers in this State.

"From the Albany Evening Journal."

DR. S. P. TOWNSEND'S SARSAPARILLA.

There probably never has been so popular a remedy, or patent medicine, as Dr. S. P. Townsend's Sarsaparilla, which was originally, and continues to be, manufactured in this city, at first by the Doctor himself, and afterward for several years, and to the present time, by Clapp & Townsend, the present proprietors. Since the partnership was formed, the Doctor has resided in New-York, where he keeps a store, and attends to the business that necessitates at that point.—The preparation, as it has ever been, is manufactured by the junior partner, Mr. Clapp. Here all the medicine is manufactured.

Few of our citizens have any idea of the amount of this medicine that is manufactured and sold. Beside the sales in this country, it is shipped to the Canadas, West-India Islands, South America, and even to Europe, in considerable quantities. At the Brandreth Pill factory, where the engine moves large number of men, women and girls, in the preparation of the medicine, making boxes, printing, &c. and turn out ready for shipment over 400 dozen per day, or nearly 5,000 bottles. This is an enormous quantity.

The great sale the medicine has attained, has induced a number of men to get up imitations, and there are at the present time other medicines for sale, that are called "Dr. Townsend's Sarsaparilla." One in particular, called a few days since to see "Dr. Townsend's Sarsaparilla," and on being those persons who are attempting to sell their articles as the genuine should be exposed.

MERCURIAL DISEASES.

There are thousands of cases which are supposed to be secondary syphilis, and are in fact only the terrible effects of using mercury to excess—making the constitution a mineral basement in character and numerous sufferers, as well as suffering from the effects of mercurial poisons, will be pleased to learn that Dr. Townsend's Sarsaparilla will certainly cure the worst form of mercurial disease, whatever description, and speedily remove the mercury from the system. Nor is it of less benefit in cases of

HEREDITARY TAINT.

Thousands are cursed with grievous and fatal complaints which they inherit from their progenitors. By using this sarsaparilla this can be prevented, and an immeasurable number of lives saved.

It thoroughly expels from the system the latent taint which is the seed of disease, and all cases of the curse by which the sins or tribulations of parents are so often visited upon innocent and unoffending offspring.

FEVER SORE.

The following is a letter from Dr. Hoyer, an old and respectable physician in Greenfield, Mass. The letter can be seen at this office. Dr. Townsend's Sarsaparilla cures all diseases of sores, from a pimple to a fever sore.

"Sarsaparilla works with a ready will, and gives good satisfaction so far as I have been able to learn. One gentleman in our village has been very much benefited by a use, and cheerfully gave a certificate, which I presume have already and more than one-half of the quantity I received from you, and still want more as soon as I can sell it.

Yours, respectfully, DANIEL HOYER.

GREENFIELD, Sept. 15, 1847.

DR. TOWNSEND—SIR—Having been afflicted for the last seven months with what my physicians call a "Fever sore," of the most painful and aggravating nature, I have at almost pleasure in informing you, I have experienced the greatest benefit from the use of your invaluable Sarsaparilla. I purchased one bottle of your agent, which I confess I had but little confidence, but, strange as it may appear to those, before I had used the whole of it my sore began to heal over, which had baffled the skill of our most worthy physicians for the truth of which I refer to your agent. I could respectfully say to those who are suffering under such and disease, trying them with unhealthy state of the blood, that Dr. Townsend's Sarsaparilla is a most excellent medicine. Respectfully, ELIJAH MITCHELL.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful; other remedies sometimes give temporary relief, but its radically eradicates it from the system, even when the limbs and bones are dreadfully swollen.

LUNATIC ASYLUM.

This is only one of more than four thousand cases of testimonials that Dr. Townsend's sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its powerful virtues.

James Cummings, Esq. one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

BLACKWELL'S ISLAND, Sept. 14, 1847.

DR. TOWNSEND—Dear Sir—I have suffered terribly for nine years with the rheumatism, and for the most of the time I could not walk across the room. I had the most distressing aches, and my limbs were most terribly swollen. I have used four bottles of your Sarsaparilla, and they have done more than one thousand dollars' worth of good. I am a match better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours, respectfully, JAMES CUMMINGS.

ALMOST CRAZY.

Dr. S. P. Townsend's Sarsaparilla has and is daily curing us most obstinate cases of eczema, and especially in the case of the head. The following is a case reported this week.

ERYSIPELAS.

SING SING, Sept. 17.

DR. TOWNSEND—Dear Sir: Your Sarsaparilla has cured me of the erysipelas of the worst kind. It came out all over my body, and at times I was almost crazy. I used two bottles of your Sarsaparilla, and it has cured me. I will say to all who are troubled with the complaint that they have but to use your medicine to be cured, and the necessity of building high chimneys is entirely obviated. The cost of setting boilers is thus materially reduced.

Furnaces for warming factories, and for drying in print works, having been constructed on the principle with great economy of original cost, and effecting a very satisfactory saving of fuel.

Boilers can be set at short notice, or furnaces altered without slight expense or delay.

State, county and individual rights are offered on reasonable terms, and those interested are invited to examine certificates, drawings and models at the office in New-York city.

Report of the Committee on Arts and Sciences of the American Institute, to whom was referred D. GRIFFIN & CO'S PATENT FUEL-SAVING APPARATUS.

Your Committee are of opinion that this plan, both theoretically and practically, embraces the best application of natural laws to the economical combustion of fuel, of any plan which has yet been exhibited to them.

By order of the Committee.

[Signed] JAS. RENWICK, Chairman.

Adopted by the Institute, Sept. 30, 1847.

The proprietor has been awarded by the American Institute of the City of New-York, two silver and two gold medals, and two diplomas for this improvement in the last three years.

References may be made to gentlemen who have it in use, and among whom are the following:

D. GRIFFIN & CO'S
PATENT FUEL-SAVING APPARATUS.
Office 192 Broadway, corner of Johnst.

ENGINEERS need not be informed that from 30 to 40 per cent. of the heat produced has been usually lost in the atmosphere, even by the most economical method of setting steam boilers, and the remark applies as correctly to nearly all furnaces.

The proprietors offer to the notice of manufacturers a method of retaining this heat and saving fuel, originally secured by patent Dec. 5, 1842, and since so much improved that a new patent was obtained July 31, 1847. It is applicable to steamboats on the western waters, to stationary engines, heating furnaces, burning lime and bricks, to glass, to paper-mills, to the manufacture of sugar at the South, &c.

The principle to which the above name has been given has been thoroughly tested by business men of the highest respectability, who have realized a saving of 30 to 50 per cent. differs from other methods of consuming fuel, inasmuch as it does not require a change in the furnace, and that the fuels are nearly all burned, and a given quantity of fuel, whether wood or coal, is thus made to produce its maximum amount of heat. The flues into the chimney are so arranged that the heat is retained under the pan or boiler until it can be absorbed; and when the incombustible gases pass into the chimney, they are at a temperature incapable of boiling water, and consequently a saving of fuel is effected. Again, no heated air is suffered to go off, and the necessity of building high chimneys is entirely obviated. The cost of setting boilers is thus materially reduced.

Furnaces for warming factories, and for drying in print works, having been constructed on the principle with great economy of original cost, and effecting a very satisfactory saving of fuel.

Boilers can be set at short notice, or furnaces altered without slight expense or delay.

State, county and individual rights are offered on reasonable terms, and those interested are invited to examine certificates, drawings and models at the office in New-York city.

FOR SALE—The lot and buildings 221 Wooster-st. west side—will be sold low. Inquire at 146 Fulton-st. of WILLIAM & HUGHES.

FIRST-RATE LAND AND WATER-POWER FOR SALE—500 acres of first-rate land, about one-half timber, with strong and never-failing water-power, or will be sold in lots of 40 acres and upwards. The land is situated in Jefferson County, State of Ohio, on the waters of Short Creek, four miles from the Ohio River, ten miles above Wheeling, and three from Mount Pleasant. This is a first-rate grain and stock farm. The corn crop raised on it took the premium at the Agricultural County Fair last year, with 125 bushels 2 quarts corn to the acre. It is situated in a section of country second alike for its salubrity, where schools, churches, abundance of cheap provisions, wood, &c. The road from Wheeling to connect with the Lake and Central Railroads is and out through this place, and is the shortest and least expensive of three surveyed routes for the connecting link in the railroad through the United States to St. Louis. In this place the purchaser may expect a great business, besides a fine farm, will be erected, as well as either a woolen or cotton factory, or paper mill. If not sold, a partner, acquainted with manufacturing woolen goods or paper would be received on fair terms. Terms of sale will be made easy. Apply to

JOHN B. BAYLESS,
Portland, Jefferson Co. Ohio.

FOR SALE—A very valuable farm of about 50 acres of land, and late the property of PHILIP SMITH, deceased, of Bedford, Westchester Co. On said farm are a large and commodious dwelling-house, a very good tenant-house, two large barns and sheds, a good apple orchard and a variety of other fruit trees. Said dwelling-house is situate in the most pleasant part of the village of Bedford; convenient for a public-house, boarding-house or private dwelling; about 36 miles from the H. R. Railroad and 42 from New-York. For further particulars inquire of

S. S. SMITH,
PHEBE AS LOUNSBERRY, } Executors of the last
WILLIAM WILLIS, } Will and testament of
P. SMITH, deceased.

Dated Bedford, Jan. 7, 1850. j9 1m*

A FARM FOR SALE—In the town of Rye, quarter of a mile from the Greenwich Depot, and half a mile off the depot of the N. Y. and N. H. RR. at Rye, and one mile from the depot at Portchester. Said farm contains 28 acres of good land in good fence, and the land is first quality, with a very choice variety of the best grafted fruit. On said premises is a small, comfortable dwelling-house and a good barn, with other necessary outbuildings. The farm is within 5 minutes' walk of the Sound, which affords every variety of sea-bathing. Inquire of the subscriber, or at the depot at Rye, or of John J. Lagrave, 261 Greenwich-st. New-York. j4 2aw1w*

FARMS, HOUSES, LANDS, situated in Boston and vicinity, also in Maine, to exchange for real estate in this city or vicinity; also for goods or any other property which may be available. All the property here offered is now valuable and continually improving, and the reason why it is offered is, that the party interested wishes to establish himself here in business. This offers a fine opportunity to gentlemen who may wish to settle in Boston or vicinity.

For information, inquire of A. BRACKETT, at 49 William-st. or at the office of Eldridge, Platt & Stewart. j15 2t*

CONVEYANCES.

REGULAR MAIL LINE BETWEEN BOSTON AND NEW-YORK, via Stonington and Providence.—Despatch, safety and convenience.—Baggage only to be checked through. The regular and commodious steamers MASSACHUSETTS, Capt. Joel Stone, and COMMODORE, Capt. William H. Frazee, will commence their regular trips between Providence and Boston and Providence and Stonington and Providence Railroads, leaving New-York daily, Sundays excepted, from Pier 2 North River, at 4 o'clock, P.M. and Stonington at 5 o'clock, P.M. or upon the arrival of the mail train from Boston. These steamers were built expressly for the route, and are in every respect particularly adapted to the passage of Long-Island Sound. The accommodations for passengers are commodious and comfortable—the officers civil, polite and experienced. The route being 12 miles shorter, and the connections between Boston and New-York, passengers are enabled to arrive in ample time for the morning lines of steamboats and railroads running to various points from these cities. The MASSACHUSETTS will leave N York Tuesday, Thursday and Saturday. Leave Stonington Monday, Wednesday and Friday. The COMMODORE, from pier 2 New-York North River, Wednesday and Friday, at 4 P.M. Stonington, Tuesday and Saturday, N.B.—Passengers on the arrival of the steamers at Stonington, proceed immediately in the splendid railroad cars to Providence and Boston. A baggage-master accompanies the steamboat trains to and from Boston, to take charge of the baggage. For passage, berths, state-rooms or freight, applications may be made to the agents on the wharf, and at the office, 120 Battery-place. j16

SUMMER ARRANGEMENT—U. S. MAIL LINE DAILY FOR BOSTON via New-Haven, Hartford, Springfield, and Worcester.—The New-York Line Propeller EVENING LINE TO NEW-HAVEN, Capt. Isaac Bishop, and splendid steamer CONNECTICUT, Capt. R. Peck, will leave every afternoon at 5 o'clock—except Saturdays at 3 o'clock. Passengers arrive at New-Haven same night, and take the early train of cars for Hartford, Springfield, Worcester, and Boston. Returning, leave New-Haven every evening on the arrival of the Boston train at 11 o'clock. Freight taken. FOR HARTFORD and Springfield—The steamer HERO, Capt. King, and HAMPTON, Capt. Thos. Spencer, will leave New-York, foot of Courtlandt-st. at 4 o'clock, (Sundays excepted.) Freight only taken. For further information apply to GEO. W. CORLISS, 203 Pearl-st. or JOHN SAXTON, Freight Agent, 112 Stanton-st. m9 tf
