ahead at 9c, an advance of 1 ₰ ctsk. The engage of the week, we learn, is about 45,000 tons. Per Ocean Steamer, it was offered for any part of 250 shares. No purchases, we believe, is being made in the negotiation for a change in the transfer rates. The Board of Brokers will not recede, and the Company must, or the stock will gradually disappear from the market. Harlem was a ½ better. We understand that the Company had an offer of 75 for the whole of their 6d Mortgage Bonds, and another of about 75, neither of which has been accepted. Meantime a few bonds are being sold at about 80. Losing Mr. Dean from this road was a serious misfortune. In Western shares there was a moderate business done at about previous prices. Michigan Southern sold at 103; Illinois Central, 83; Chicago and Rock Island was 103 bid; Galena and Chicago, 118. The September receipts of this road, we hear, are about $10,000 per day, and the equipage of the road is tested to its full capacity. Cleveland and Toledo was 85. Nicaragua was heavy at 18. The freight and passenger list of the steamer of yesterday amounted, we hear, to $100,000. In Railroad Bonds the business was moderate, without important change in prices. Only $4,000 State Stocks were sold; holders are firm. A small sale of Government is was made at 118.

The Exchange market is very quiet. In Sterling there has been little or nothing done. The range of quotations for first-class bills is 9¼@9¾ ₰ cent. Francs are steady at 5.15@5.12½.

Freights are firm and active. The engagements to Liverpool are 1,000 bbls. Flour 2s. 9d., 41,000 bushels Grain, 9@9½d. in bulk and ship's bags, and 600 bales Cotton, 5-16d. To London, 2,500 bbls. Flour 4s., 1,000 bbls. Oil Cake 4s., and 12,000 bushels Wheat 12d. To Glasgow, 300 tcs. and 200 bbls. Lard at 35s. 37s. 6d., 500 boxes Cheese 40s. and 150 bales Cotton 5-16d. The ship Joseph Holmes was chartered from New Orleans to Trieste or Genoa with Cotton 1½c., and the bark Chevalier to London with Oil Cake at £1,500.

Mr. Albert H. Nicolay will sell on Monday next, the 24th inst., at 12½ o'clock, at the Merchants' Exchange, $98,000 Sacramento City, 8, 10 and 12 ₰ cent Bonds.

The business at the Sub-Treasury was: paid, $181,626; received, $247,822, including $50,000 from Dubuque; balance, $6,645,548. Paid from Assay Office, $21,872; paid on Disbursing Checks, $92,161. Upon opening the boxes from Dubuque it was discovered that they were filled with sheet lead and bullets instead of gold. No trace leading to the discovery of the perpetrators of this fraud has yet been found.

The Imports of Dry Goods for the week show some increase upon the same week of last year. The large demand and increased prices for goods have led to the sending out of second orders. The aggregate is $1,421,104, against $1,107,698. The detail is:

The Coupons due 1st October on the Davidson Co. (Tenn.) Bonds, issued to the Tennessee and Alabama Railroad Co., will be paid at the Manhattan Bank.

Land Warrants are in fair demand, and the supply rather better. *Thompson's Reporter* quotes:

	Buying.	Selling.
120 acres	$1 05 ₰ acre	$1 08 ₰ acre
80s and 160s	1 09 ₰ acre	1 11 ₰ acre

There was an active demand for money to day in the stock circles, but it was freely met at 7 ₰ cent. A considerable amount of loans was called in by Belmont's agent, preparatory to his gold shipment of to-morrow, which caused some changing of loans. On Monday the market will probably be easier again. From the commercial circles the demand is not large.

Cotton is rather more active at the decline before noticed. Breadstuffs are active and improving. Wheat is again 2c. higher, with sales of some 90,000 bushels. Corn has advanced 1c. ₰ bushel, and Flour is held higher. Mess Pork is again advancing. In Groceries the business is moderate, and prices without further change. The foreign letters bring large orders for Breadstuffs, and indicate that Europe will require all or a large portion of our surplus, at good prices. These exports, added to our Cotton crop, must sooner or later have a marked influence upon the Exchange market.

The run upon the Atalanta Bank, Georgia, continues, and further supplies of gold have been sent to that point to meet it. This gold will eventually come back here, but meantime our bank reserves show a loss of three-quarters of a million of dollars from this cause.

A letter received by the last steamer, from a high monetary authority in London, mentions some curious facts, showing a change in the tendency of capital, which proves either that London is losing her great monetary supremacy, heretofore unquestioned, or that France is becoming very rich. The letter states that a French company with a large capital has undertaken to consolidate all the omnibus lines of London, as has already been done in Paris, and that a French bank of discount and deposit is to be established in London, with an immense capital, to compete with the Bank of England. The capital of both these companies has been subscribed, and twice as much could have been had if wanted. Formerly, French enterprises were carried on to considerable extent with English capital, but the current appears now to be changed.

FLOUR AND MEAL—A brisk demand for the low grades of State and Western Flour, and the market is quite firm for common to medium brands; prices are obtained, the advance in freights countering the bearish feature of the close. American and British Iron Market.

PHILADELPHIA, Sept. 21, 1855.

The present activity of the IRON trade has given British ironmasters ability to command firmer rates, but the reiterated reports of considerable advances must be regarded as emanating from parties having sufficient orders for their abilities to produce. Bars are quoted at £8 5s. to £8 10s., and Rails at £8 10s. to £8 15s., in Wales. This would indicate a tendency to advance, but not that there had been a confirmed advance of 20s., as reported, save it may be on special first-class brands. The Glasgow Pig market, since previous reports, had fluctuated, and closing quotations were 63s. to 64s. for No. 1 in the Clyde, notwithstanding shipments had been less than usual. Pig Iron in Wales is quoted at 60s. to 65s. American Iron is advancing firmly, though more slowly than circumstances warrant. Bars of various grades are commanding the highest quotations. American Foundery Pig is in good demand, indicating a healthy market.

Transactions during the past week have fully equaled the usual amount for the season. The demands for No. 1 Foundery Pig have been considerably greater than the ability to supply; sales have mostly been made at $38. Of No. 2, several large sales were closed at $37; first class No. 2 is commanding $36. No. 3 sold at $34, though heavy producers are asking $35. Sales for the week were 4,655 tons. American Merchant Bars are in demand at improving prices; considerable sales have been made at $72½; quotations for average as heretofore, $70 to $75; sales 520 tons. A sale of 100 tons of Blooms was made at $60; and 500 tons Nugget Iron at $119 for the former, and 4c. and 5c. for the latter, as per quality.

Receipts of Produce.....SEPT. 21.

By North River Boats—11,949 bbls. Flour, 57 do. Ashes, 117 do. Lard, 208 do. Whisky, 400 do. Pork, 2,878 bush. Rye, 4,966 do. Wheat, 11,600 do. Oats, 78,361 do. Corn.

Markets—*Reported by Telegraph.*

NEW ORLEANS, Sept. 20.—The Bulletin's advices were received to-day, but too late to develop the effect upon our markets. COTTON—Sales to-day 6,500 bales at 9@9½c. for middling fair. RICE is quiet at 6@6½.

At the time she was abandoned she had 7 feet water in the hold, and pumps chocked.

CAPT. RAY of the ship Wilson Kennedy, that cleared from Quebec 22d ult. for Liverpool, returned to port 18th inst., having left his ship off Murray Bay, leaking. He dispatched the steamer John Bull, from Quebec 14th, to tow the ship up to port; she would have to discharge.

MISSING VESSEL.—The beautiful clipper-ship Guiding Star, Capt. McClelland (of about 2,000 tons), built at St. John, N.B., by Mr. Wright, and owned at Liverpool, England, has not been heard from since February last, and there is great reason to fear that she is totally lost. She sailed from Liverpool for Melbourne, Australia, on the 9th of January, 1855, with over 400 Australian emigrants on board, and made a capital run during the first 30 days, as she was spoken on the 12th of February by the Boston bark Kate Hastings, in lat. 16 6 S., lon 33 47 W. This is the last seen or heard from her. How much insurance is effected on the vessel and cargo in Europe is not known; about $40,000 is insured here and in Philadelphia, distributed through various offices in small sums. Within a week or two the agents of the owners here have freely offered 33½ per cent premium for insurance, and yesterday 50 per cent was offered without being accepted. The vessel was valued at $130,000; the cargo, consisting of coal and iron sufficient to bring her into fine ballast trim, and general merchandise, was worth about $60,000.

To Mariners.

FENWICK'S ISLAND SHOALS.—An iron bell boat has been anchored off the middle of this Shoal in 10 fathoms water—Fenwick's Island bearing by compass W. ¼ S., distant 6¾ miles. The boat lays close to the outer edge of the Shoal, which is very steep and runs N.E. and S.W. Vessels finding themselves unexpectedly in with the boat, should make Easting before shaping a course for the Delaware or any Northern port. The hull is painted black, the mast red. The bell rings by the action of the sea. By order of the Light-House Board.

J. S. BIDDLE, L. H. Inspector.
