

SCHOCK AND MARKS QUIT

Two Riders Drop Out of the Great Bicycle Race.

OTHERS IN FINE FETTER

Waller and Maddox Hold the Lead by a Small Margin—Hall Dropped to Last Place but Is Riding Gamely—Records Broken Last Night. Scores at Close of Today's Race.

Table with columns: Name, Miles, Laps. Rows include Waller, Maddox, Ashinger, Lawson, Hunter, Chapple, Forster, Bull.

The second eight-hour sprint of the international six-day race was started under the most auspicious circumstances yesterday afternoon.

The men professed to be in splendid condition for the work, and none of them seemed to feel the effects of the first day's riding.

The men professed to be in splendid condition for the work, and none of them seemed to feel the effects of the first day's riding.

Popular interest in the showing of George Hall, the local rider, remains unabated, in spite of the fact that he is gradually losing his first-day form.

These two riders seem like perfect human machines as they circle swiftly and silently around the track.

The Start was Delayed. Because of some delay in getting the wheels of the riders in trim for the beginning of the afternoon race, the start was not made until several minutes past schedule time, which is 2 o'clock.

Waller immediately set a scorching pace, closely followed by Maddox, and Hunter, Marks and Schock falling behind and losing a lap inside of three minutes.

Waller and Maddox held the lead by a small margin, Hall dropping to last place but riding gamely.

BRADLEY GOING TO RESIGN.

The Kentucky Governorship, He Says, Is Killing Him.

Louisville, Dec. 29.—A dispatch from Frankfort, the Courier-Journal says that Gov. Bradley intends to resign the office of governor at an early date. He told a friend in his office Monday afternoon that he was going to do so no matter what the outcome of the political issues now at stake in this place was killing him, and that he could not afford to stay in it until what little health he had was lost.

SHOCKED BY THEIR ACTIONS

Princess Chimay and Her Gypsy Lover Among Budapest Citizens.

Appear to Enjoy Their Notoriety and Seek Public Places—Crowds Follow Them Around.

Budapest, Dec. 29.—James Kigo, the Hungarian gypsy and his wife, the Princess Chimay, formerly Miss Clara Ward, of Detroit, who recently eloped from Paris, have arrived here from St. Petersburg, where they had been visiting Kigo's parents.

The princess and her paramour have visited the city since their arrival, and appear to enjoy their notoriety.

LECTIONS OF CADETS COMING

West Point and Annapolis Men at Parade and Ball.

OFFICIAL ORDERS ISSUED

Secretary Ransom Grants Chairman Bell's Request—Plans for State Arches Submitted by Chairman Weller—Suggestions as to Commonwealth Mottos.

The most interesting news at inaugural headquarters last night was that the West Point Corps of Cadets, and, in all probability, the corps of cadets from Annapolis, will take part in the inaugural parade.

The Secretary of War settled the doubt yesterday by ordering the West Pointers to be here when they are wanted, and there is reason to believe that Secretary Herbert will not be outdone by the Secretary of War.

It is a matter of course that these military marshals should be in the push on these occasions, and that they should have sufficient leave of absence to get in on the ground floor of the Pension Building on the evening of the ball.

The Secretary of War settled the doubt yesterday by ordering the West Pointers to be here when they are wanted, and there is reason to believe that Secretary Herbert will not be outdone by the Secretary of War.

There was very little doing at inaugural headquarters yesterday, and largely from the circumstance that so much has already been done. President Weller, of the street illumination and fireworks committee, was at the Glover building in the afternoon, having with him plans of some of the proposed arches.

The arch idea was too good a one to be abandoned by making all the structures alike. For instance, he said, Pennsylvania furnishes the idea of the keystone, South Carolina of the palmetto, Maine of the pine tree, New Hampshire of the granite, Florida of the beautiful suggestion of flowers.

FELL FOUR STORIES.

Capt. Mullins Killed but Did Not Have a Bone Broken.

Norfolk, Va., Dec. 29.—James G. Mullins, captain of the Jackson Light Infantry, Company E, Fourth Virginia Regiment, was found dead beneath the window of his room in the back yard of the Gladstone Hotel, in this city at 6:30 o'clock this morning.

A coroner's jury was summoned and a verdict was returned that deceased caused his death by a fall. Though he fell four stories there were no bones broken, but one hip was dislocated and one temple bruised.

The dead man came to his room at 2 o'clock yesterday afternoon, intoxicated and received attention from hotel employees until 9 o'clock. It is thought he fell out the window for some purpose and undoubtedly had struck a high fence, only few feet from the building.

Capt. Mullin was about thirty-three years old, and unmarried. He was quite prominent in military and business circles in the city and State and was extremely popular. He will be buried with military honors tomorrow.

IN FOR A FOUR YEARS' WAR

National Republican Headquarters Equipped for the Fight.

IS A MILLIONAIRE'S CLUB

Many Prominent Members of G. O. P. Call to Pay Their Respects, Short Talk with Secretary Perkins—Washington to be the Storm Center of Politics.

"We are in for the war for four years," is the way Secretary Perkins put it yesterday afternoon at Republican headquarters.

The Republican institution has been in more or less of a chrysalis state for the past ten days, but it emerged yesterday into a full fledged, broad winged establishment, as Mr. Perkins has it, is to soar all over this Union for the next quadrennial.

He was frank enough, at least, to serve an apple notice on the enemy on the other side of the Mississippi. The appointments at this millionaire's club are elegant. There are evidently piles of money behind it, just as there were piles of money behind it.

Mr. Perkins is very close to Hon. Mark Hanna, and as Mr. Hanna will probably take a hand in the game for 1900, he is probably the inspiration of the work now going on. The machine is already in motion, and in rapid motion, too.

Mr. Perkins, regardless of politics, is an ideal secretary, and has already commended himself to the newspaper guild. To some extent, however, he will be sure to run the machine in such a way as to entitle it to the name which made the New York headquarters famous as the "bureau for the suppression of news."

He is also the present activity of the Republican management is due to the fact that it was now necessary to undo what had been done by the Democracy silently and openly for the past four years on the money question.

Mr. Perkins did not say without saying that this early entrance of the Republicans in the field denotes the extent and solidity of the structure built by the Democrats for the last contest at the polls.

Mr. Perkins, regardless of politics, is an ideal secretary, and has already commended himself to the newspaper guild. To some extent, however, he will be sure to run the machine in such a way as to entitle it to the name which made the New York headquarters famous as the "bureau for the suppression of news."

CITY PLUNGED IN DARKNESS

Newark's Electric Light Plant Completely Destroyed by Fire.

Newark, N. J., Dec. 29.—The regular and reserve sections of the People's Electric Light and Power Company's plant at City Dock, River street, and the Passaic River, were destroyed by fire early this evening, plunging the city into darkness, which may not be relieved for several days.

The entire plant is wrecked. Thirty-seven dynamo, ranging in value from \$2,500 to \$7,500 each, were consumed. Leo Gamp, foreman of the regular dynamo room, was at the switchboard when a sheet of flame came through from the outside. This passed over Gamp's hands, burning him severely.

Two alarms were sent in. Hard work by the fire department, confined the flames to the four walls of the electric light plant. The plant cost \$200,000 two years ago. The loss is placed at \$175,000, with an insurance of \$75,000.

DROGGED INTO THE STREET

Contractor W. S. Watts Assaulted on His Doorstep.

FORMER EMPLOYEES' ATTACK

J. D. Carroll and H. W. Grey Cursed and Then Threw Him Upon the Pavement—Victim Pounded on the Head with a Stone—Neighbors Prevented a Murder.

Mr. William S. Watts, a well-known contractor and builder, who resides at 221 Elm street northwest, was assaulted and seriously injured about 6 o'clock last night by Joseph D. Carroll and H. W. Grey, young men who were discharged by Mr. Watts six weeks ago on account of negligence and general incompetency.

From the story of the attack and the methods of the men, as told last night by Mr. Watts, it is the evident that the assault was carefully planned as a means of revenge, and only the cowardly assailants came prepared to carry out his part.

Mr. Watts was seated in his home surrounded by the members of his family reading after his day's work, when, about 6 o'clock, the door bell rang, and the servant announced two gentlemen who wished to talk with him a moment.

At the door a minute later Mr. Watts found the men, whom he recognized as ones with his recent employees. He was immediately met by a chorus of abuse from Carroll, who was the first aggressor.

Attacked by Both Men. After their violent language Mr. Watts ordered the men from the premises. No attention was paid to his command, and finally becoming enraged by the language of the semi-intoxicated men, Mr. Watts pushed Carroll from the porch.

This was the signal for attack, and both men set upon him at once. He was dragged down the steps to the sidewalk, where Carroll, who is a powerful fellow, plucked him to the ground, while Grey dealt blow after blow upon the prostrate man's head and face.

Mr. Watts cries for help attracted the attention of neighbors, who rushed to his assistance in time to save him from more serious injury and perhaps from a violent death, as Grey had drawn a large eight-loading revolver as the first of the rescuers came rushing to the scene.

Both men managed to make their escape from the half dozen pursuers, who lost track of them in the alleysway in the neighborhood of Spruce street.

Mr. Watts, in a semi-conscious condition, was assisted into the house and Dr. Perry of No. 613 G street northwest was immediately summoned and rendered medical assistance.

Mr. Watts is injured. The most serious injury received by Mr. Watts was a deep irregular gash on the left side of the forehead, at the corner of the eye.

Among the first on the scene of the assault was Policeman Thomas Murphy of the Eighth precinct. He obtained the names and a description of the assailants from Mr. Watts and began a thorough search for them.

Both are well known to the police as occasional tipplers with a long string of charges for disorderly conduct against them, and Mr. Watts has often paid fine and deposited certificates with Carroll when, as an employee, he would get into trouble.

Carroll lives on Seventh street, near Florida avenue, and Grey on Seventh, between 8 and T. Both houses were under police surveillance last night, but nothing was seen of either of them.

Physicians Fall Out. J. D. Eggleston, a physician, was yesterday arrested by Policeman Curtis on a charge of drunkenness.

Dr. Eggleston was arrested by Policeman Curtis on a charge of drunkenness. He was taken to the police station and held in the cell.
