

Cruiser With Strongest Wireless Going to Mexico

FORSEE BLOCKADE OF MEXICAN PORTS

Cruiser Chester, Equipped For Action, Starts For Vera Cruz From Philadelphia.

PHILADELPHIA, Nov. 7.—Equipped with sufficient stores and ammunition for six months' active service, the armored scout-cruiser Chester sailed from League Island today for Vera Cruz. Upon arrival there Captain Moffett will report to Rear Admiral Fletcher, commanding the second division of the Atlantic fleet.

The Chester will be used for patrol and scout duty. In the event of intervention, the Chester will nose along the coast on the lookout for trouble and land bluejackets wherever necessary to protect foreigners. The Chester will also assist in maintaining a blockade of Mexican ports, if such action is decided upon.

Naval officers say the Chester, in addition to possessing the longest range wireless apparatus in the navy, will be especially valuable because her displacement is much less than other ships her size in the navy. They explain that the harbors of the Mexican coastline are so shallow that battleships of the United States navy would be virtually useless for blockade work.

Dispatch of the Chester to Mexican waters, naval officers said, furnishes a good indication that it is the intention of the government to blockade Mexican ports. The Chester is one of the fastest vessels in the navy.

In all 2,000 tons of coal are stored in her bunkers and her magazines are filled with 2,000 shells for her three-inch guns and 500 for her five-inch guns. There is also plenty of ammunition for her field and machine guns, and a full supply of torpedoes.

JOHN LIND, President Wilson's Envoy, Who Has Gone Back To Mexico City.

M'COMBS MARRIED TO MISS WILLIAMS

Ceremony Is Performed At Noon At Catholic Church in London.

LONDON, Nov. 7.—William F. McCombs, of New York, Democratic national chairman, and Miss Dorothy Williams, of Washington, were married at 12:30 o'clock today in St. Peter and Edward Catholic Church. The ceremony was simple and quiet, and only thirty guests saw the wedding. They included Ambassador and Mrs. Walter H. Paige, Ambassador and Mrs. Myron T. Herrick, of Paris, the Earl and Countess of Craven, the Earl and Countess of Suffolk, and Lord Curzon. Charles W. Halsey, of New York, was best man, Miss Williams, who wore a plain traveling frock, was unattended. Father Bernard Vaughan officiated.

There was a simple wedding breakfast and Mr. McCombs said they would remain in London for a few days before sailing for America on their honeymoon.

Friends of the chairman professed to believe that Mr. McCombs will now accept the Paris embassy which President Wilson offered him after his inauguration, and has several times urged him to take it. The post has been kept open Ambassador Herrick holding over. McCombs refused today to discuss the ambassadorship.

BOARD UNABLE TO APPROVE EXPENSES

District Commissioners Will Not Consider Requisitions For Joint Disbursements.

Hereafter the District Commissioners will not be called upon to give their approval to requisitions for funds appropriated for work on public buildings and grounds in Washington, even though the bills are paid jointly by the United States and the District.

Secretary of War Garrison recently submitted to the Commissioners requisitions for money for the care of public grounds in the District, for lighting public grounds, for salaries of employees of public buildings and grounds, and for the maintenance of the highway bridge across the Potomac.

The Commissioners demurred on the ground that they had no control over the expenditure of the funds, and had no way of accounting for them. The question was referred to Judge Dwyer, Comptroller of the Treasury, and he held that the statutes clearly put these works under the jurisdiction of the Secretary of War, and that the Commissioners' position was well taken.

He suggested remedial legislation, and decided that the funds might be drawn upon the requisition of the

Quarters Sought For the Home Club

A. A. Jones, Assistant Secretary of the Department of the Interior, and temporary president of the Home Club, appointed a committee today to find new quarters for the club. Temporarily the organization is out of a home, as it has been learned that the building where the last meeting was held will not be available next week. Mr. Jones expects to be able to decide upon a place and a day within a short time.

The committee considering the application of colored employees for admission to the club will probably report at the next meeting. While no formal vote has been taken it is known that the sentiment among some of the committee is unfavorable.
