BEEVES—There was rather a feeling on the part of sellers to make some concessions to the buyers, and evidently there has been a decline in prices, especially when we take into consideration that the cattle are coming in of an improved quality, with slight exceptions. The natives mostly sold at 11½@12½c., a few reaching 13@13¼c. The Texans sold at 10½@11½c. The buyers were plentiful, and the stock was readily taken. All things considered, we call the market fair.

The fresh offerings of sheep to-day were 5,296, making for the week 20,209 against 20,303 same time last week. There is a depression in prices, and the markets not as active as last week.

Mutton is selling slow and prices weakening.

J. N. Pidcock sold at Communipaw during the week, 3,431 Western clipped sheep at 5@7½c., averaging $6 09 per head; and to-day, 27 Ohio sheep, 96 lb, at 6½c.; 30 do., 94 lb, at 6½c.; 18 do., 98 lb, at 6¾c.; 20 Pennsylvania, 104 lb, at 6¾c., all clipped.

The transactions will hardly establish prices, being limited and at private terms, yet the market is firm with slight advance in city dressed. We quote live at 6½@6¾c., dressed, 8@8½c.

FOR

INVESTMENT.

It is universally conceded that carefully selected FIRST MORTGAGE RAILROAD BONDS are not only SAFE, but are the MOST DESIRABLE SECURITIES for investment purposes. It is also an established fact that there are fewer instances of default in the Railroad than in any other of the great interests of the country.

These facts have been accepted as applying to the securities of Railroads generally, but they apply with greatly increased force in cases where the Roads have superior advantages in location, management, and connections.

The Indianapolis, Bloomington and Western Railway

possesses all the advantages here named, and has, in addition, a very large business already created and assured to it. The BONDS of this road now offered are GOLD, SEVEN PER CENT. CONVERTIBLE, are FULLY SECURED by a FIRST MORTGAGE on an extension of 217 miles, and are a liability of the entire line of 420 miles, of which four-fifths are completed.

The geographical position of the road is remarkably favorable. Commencing at Indianapolis, its direction is west, and diverging at Champaign, it has terminal points at Peoria, on the Illinois River, and on the Mississippi opposite Keokuk.

Net earnings of the division from Indianapolis to Pekin and Peoria are large, and have been for a considerable period greater than the amount required for interest on all bonds issued by the Company. Regular trains are running on more than 100 miles of the extension, and total receipts of the road for this year must be very satisfactory to all holders of its securities.

The Earnings of 1872 were $1,359,690 55, an increase of $395,000 over 1871. It is expected they will reach $2,000,000 during the present year.

These Bonds have an INTRINSIC VALUE exceeding the present low price of 90 and INTEREST, and holders will find a POSITIVE ADVANTAGE in an early increase in the value of their investment. Coupons January and July 1.
