

REVENGE IS SEEN MOTIVE IN BLAST

Garage Man Known as Foe
of Dancing—Explosion
Destroys Hall.

By the Associated Press.
WEST PLAINS, Mo., April 16.—
Revenge and financial troubles were
two motives advanced today by Prosecu-
ting Attorney Green as he pressed his
investigation into the cause of the ex-
plosion that destroyed a dance hall here
last week, killing 40 persons.
Green suggested that J. M. Wiser,
47, who rented a garage below the
dance hall, may have been responsible
for the blast, either because of pro-
nounced views against dancing or be-
cause financial troubles may have led
him to suicide. Wiser, a devout
churchman, was killed in the explosion.
He had not made public expression of
his hatred of dancing here, but at his
former home in Alton, Mo., he was
known as violently opposed to it.
The prosecutor pointed out also that
so far as direct evidence shows, Wiser
might have caused the explosion acci-
dentally. He is confident, however, that
it was not caused by gasoline fumes,
as at first supposed.
Wiser's body, which was exhumed
late yesterday shortly after burial, re-
vealed burns on the face believed by
physicians to have been caused by acid.
These, said Green, might have resulted
while handling acid.
Wiser, however, had witnesses ready
to testify that Wiser was at the garage
20 minutes before the blast occurred,
and that one man claims he saw a
sputtering light there—a light that
flickered for a few moments and went
out just before the building was blown
up. Wiser's body was found 20 feet
back of the garage.
Coroner Burns held to the theory that
Wiser went to the garage, opened the
door and struck a match which ignited
gasoline fumes. On the other hand
Green pointed out the 50-gallon tank
in the garage was found intact and
had not been leaking.
Wiser, however, had purchased five
gallons of gasoline to use in a "douser"
for washing automobile parts the day
of the explosion.
No physical evidence of a dynamite
explosion, such as a hole in the ground,
has been discovered.
Wiser left home at 4 p. m. the day

DEVICE TO AID TRAPPED SUBMARINES

THEODORE G. THOMAS.

An inmate of the Soldiers' Home, the originator of the "Keep Cool With Coolidge" slogan during the last campaign, has offered the Navy Department the above device to aid in locating sunken submarines. When the submarine sinks, a lever from within releases the buoy, which rises to the top and indicates the position of the ship. Another device provides slots under the keel of the submarine for the insertion of chains to raise the submarine in case of accident.

of the explosion and did not return
for the evening meal. His widow said
she supposed he had remained down-
town, although he did not usually re-
turn to the garage at night.
Wiser voluntarily canceled his con-
tract as sales agent for the Oakland
Motor Car Co. last week. He had no
indebtedness with the company, but
was indebted to the General Motors

Acceptance Corporation, the prosecu-
ting attorney said.
The dances held in the hall above
the garage were regular Friday evening
affairs and were regarded as quite a
social event by the residents of this
little city since the first was given
several months ago. Among the vic-
tims were many of the community's
prominent persons.

RADIO COMMISSIONER FAVORS 50 CHANNELS

O. H. Caldwell Explains in Letter
Reasons for Opposing
Limit of 25.

By the Associated Press.
O. H. Caldwell, Federal Radio Com-
mission member, favors 50 cleared radio
channels and is opposed to limiting the
number to 25.

In a letter to W. R. McCanne, owner
of station WHAM, Rochester, N. Y.,
made public today, the commissioner
said the limitation to 25 would work
a great hardship on local listeners and
many fine radio stations.
Answering an inquiry of Mr. McCanne
in regard to a cleared channel for
WHAM, Commissioner Caldwell said
that radio engineers and men have
unanimously approved the conclusions
of the recent conference of radio engi-
neers recommending 50 cleared chan-
nels and the proper spacing of smaller

stations on the remaining 40 channels
as affording the best arrangement for
good radio reception to the listening
public under the restriction of the re-
cent Davis-Dill equalization amend-
ment.
"The engineers' recommendations,
however," the commissioner wrote,
"have been criticized by a few laymen
who insist that 25 cleared channels would
be ample. With 25 cleared channels
in New York State two and a fraction
clear wave lengths would have to be
divided among your 5,000-watt station
and the following stations of 5,000 watts
or above: WEAF, WJZ, WLWL, WABC,
WKBW and WOY, leaving a very small
amount of time for each station."
"Listeners particularly affected would
be those in and around such States as
Ohio, Michigan, Illinois, Iowa, Minne-
sota, Missouri, Tennessee and Florida."

When Pain Comes

Two hours after eating

What many people call indigestion
very often means excess acid in the
stomach. The stomach nerves have
been over-stimulated, and food sours.
The corrective is an alkali, which
neutralizes acids instantly. And the
best alkali known to medical science
is Phillips' Milk of Magnesia. It has
remained the standard with physi-
cians in the 50 years since its inven-
tion.
One spoonful of this harmless,
tasteless alkali in water will neutral-
ize instantly many times as much
acid, and the symptoms disappear at

once. You will never use crude
methods when once you learn the
efficiency of this. Go get a small
bottle to try.

Be sure to get the genuine Phillips'
Milk of Magnesia prescribed by phy-
sicians for 50 years in correcting ex-
cess acids. 25c and 50c a bottle—any

"Milk of Magnesia" has been the
U. S. Registered Trade Mark of The
Charles H. Phillips Chemical Com-
pany and its predecessor Charles H.
Phillips since 1875.

Blindfolded...in scientific test of leading Cigarettes, Mrs. Morgan Belmont selects OLD GOLD

"In my travels here and abroad I
have often wished that I might find
a cigarette of pleasing flavor which
would not rasp my throat or bite
my tongue.

"The blindfold test has proved to
me that I need seek no further
... For one of the four cigarettes
given me to smoke had just the
qualities I've always desired.

"The pleasant, smooth cigarette
I named as my choice turned out
to be an OLD GOLD... No wonder
so many of my friends prefer this
brand. I too find OLD GOLD the most
delightful cigarette of all."

Mrs. Morgan Belmont

MRS. MORGAN BELMONT

"Because they're made from the heart-leaves
of the tobacco plant"

In case after case, where the
leading cigarettes have been com-
pared by blindfolded smokers,
OLD GOLD has been selected as
the most appealing cigarette. Be-
cause they're made from the

heart-leaves of the tobacco plant
... Nature's finest tobacco.
That's the reason for OLD GOLD'S
honey-like smoothness. That's
why you can pick them, even in
the dark.
