## Those Alexandria Jokes Won't Be Appropriate In Vaudeville Any More

ALEXANDRIA, Va., June 16.—The near comedian who used to worm a laugh out of his audience with a merry jest like, "I spent a week in Alexandria one afternoon last week," or something equally as humorous, must now find some other place for a butt or write himself down as dense and ignorant of what is happening in this neck of the woods.

Several years ago Alexandria yawned and stretched and commenced to wake up. Today Alexandria is wide awake and looking to a brighter future than any of its inhabitants, past or present, ever pictured in their most optimistic moments.

That the war had something to do with putting the town on the map again cannot be denied, the war having been responsible for the establishment of the yards of the Virginia Shipbuilding Corporation, the most important enterprise in that section of Virginia. These yards, located at Alexandria through the untiring efforts of Charles C. Carlin, until recently Representative in Congress from the Eighth district of Virginia, employ approximately 3,000 men.

Pay Roll of \$100,000. The weekly pay roll is said to exceed \$100,000, which accounts in great measure for the fact that the deposits in the four banks of the city have increased 100 per cent within the year. The yards of the Virginia Shipbuilding Corporation cost more than \$2,000,000 and are permanent. Two 9,400-ton steel cargo ships, the Gunston Hall and the Betty Bell, have been completed and launched in the last few months, and a third ship of the same type, the Venedoc, will slip down the ways next Saturday. From then on, officials of the corporation figure, a ship will be turned out about every six weeks.

Within two years the population of Alexandria has jumped from about 15,000 to more than 30,000, and many predict that within five years the city will boast of 50,000 inhabitants. With the rapid increase in population the housing problem has had to be met.

This at first was a jolt to the natives, but they have now awakened to the necessities of the situation, and many old residences are being converted into apartment houses, while fairly modern houses, to meet various demands, are now in course of construction in the city and suburbs.

Realty Men Active. Real estate brokers report an active demand for business properties, and though values and rentals have enhanced, Alexandria has been singularly free from the complaint of profiteering.

That the members of the city council are alive to the situation is indicated by the fact money is being appropriated at every meeting of that body for the extension of sewers and the improvement of streets. Another public improvement financed by the city last week is a public school building for colored children which will cost in the neighborhood of \$60,000. The building will be a two-story brick structure surrounded by ample playgrounds and will be practically fire proof. Handsome school buildings, including one for the high school, have been erected for the white children in the last few years.

The Alexandria Chamber of Commerce, which will be a permanent military post, near Alexandria, has aroused interest in sanitation, and the city council last week made provision for a health department that will compare with those of the largest cities in the country. In addition to a health officer who will devote his entire time to the duties of the office, the department will maintain an assistant health officer, who will serve as sanitary inspector of the city; a bacteriologist, a public health nurse, and a chemist. Modern appliances for the health department have been purchased, and quarters are now being fitted up in the city hall.

The Alexandria Chamber of Commerce, composed of wide-awake business men, is bending every effort to advance the business interests of the city and lends encouragement to any worthy enterprise that will aid to the city's commercial advancement.

## SHERIFF CANDIDATE TAKEN IN DRY RAID

Two men are under arrest today as the result of a "clean-up" liquor crusade in Prince George's county Saturday night. They are Paul Miner, 222 Seaton place northeast, proprietor of the White House Tavern at Beltsville, and Ossie Kilinger, one of the candidates for sheriff of the county. They were charged with violating the prohibition laws.

They were arrested by Constable William Tobin, assisted by two special deputies from Washington. The warrant was issued by Justice of the Peace Moffatt.

Constable Tobin reported he seized stocks of liquor in Miner's place. The latter was held in \$1,200 bail. Kilinger was arrested at 3 o'clock yesterday morning by Constable Tobin. He was also held in bail of \$1,300.

## MAN NABBED HERE AS BOMB SUSPECT

The fourth arrest within three days in the nation-wide investigation of the recent bomb outrages was made here yesterday, when Edward Joseph Hart, twenty-eight years old, was taken into custody by Headquarters Detectives Scrivener and Kelly and held for investigation.

Hart was arrested at Eighth and E streets northwest. According to Detective Kelly, Hart has been in close touch with Angus Norwalk, Mary Bai, and Robert Henkle, all of whom were arrested Saturday night.

Following his arrest, the detectives searched his rooms and found a quantity of papers which will be closely examined today. Hart, according to the detectives, came here from Milwaukee three months ago.

With several supposedly dangerous radicals under surveillance, it was intimated today that Inspector Lawrence O'Dea, assistant to William J. Flynn, head of the Bureau of Investigation, Department of Justice, will make a clean-up of the radicals this week. Several women are also under surveillance, it was said.

## THREE STATES VOTE ON SUFFRAGE TODAY

Assurance has been received at the headquarters of the National Woman's Party that Governor Milliken, of Maine, will present the suffrage amendment to the special session of the legislature next October for immediate ratification.

With special legislative sessions called for today in Ohio, Kansas, and New York to ratify the amendment, and favorable action already taken in three States—Michigan, Wisconsin, and Illinois—the campaign is well under way. All signs point to ratification by Pennsylvania next week. Favorable action is expected in Massachusetts, Texas and Georgia will have an opportunity to act in June and Alabama in July.

## HYATTSVILLE NEWS

Mayor Asks Improvement of "Death Strip" Along B. & O. Railroad Tracks.

HYATTSVILLE, Md., June 16.—Mayor Matheson P. Halloran has written the division superintendent of the Baltimore and Ohio railroad of the strip of ground running parallel with the tracks in Hyattsville, from Meigs avenue to Anderson street. Mayor Halloran points out that he believes the condition of this strip has been responsible for loss of life.

The entertainment committee of the Hyattsville fire department is to meet tonight in headquarters in the municipal building to further plans for the big celebration to be held in Zantinger's Park the Fourth of July.

The mayor and town council of Mt. Rainier is to meet tonight in the office of the town clerk. It is expected that the municipal tax rate for the year will be fixed and other important business transacted.

Hyattsville baseball teams had a successful day yesterday. The first team defeated the nine representing the Wisconsin Athletic Club, of Washington, by 8 to 6, and the Hyattsville Juniors disposed of the Winton Athletic Club of Washington, by 7 to 5.

Mayor Halloran requests local dealers not to sell giant firecrackers and other high explosives to children under sixteen years, and warns that an ordinance may be passed to enforce this request, if not complied with.

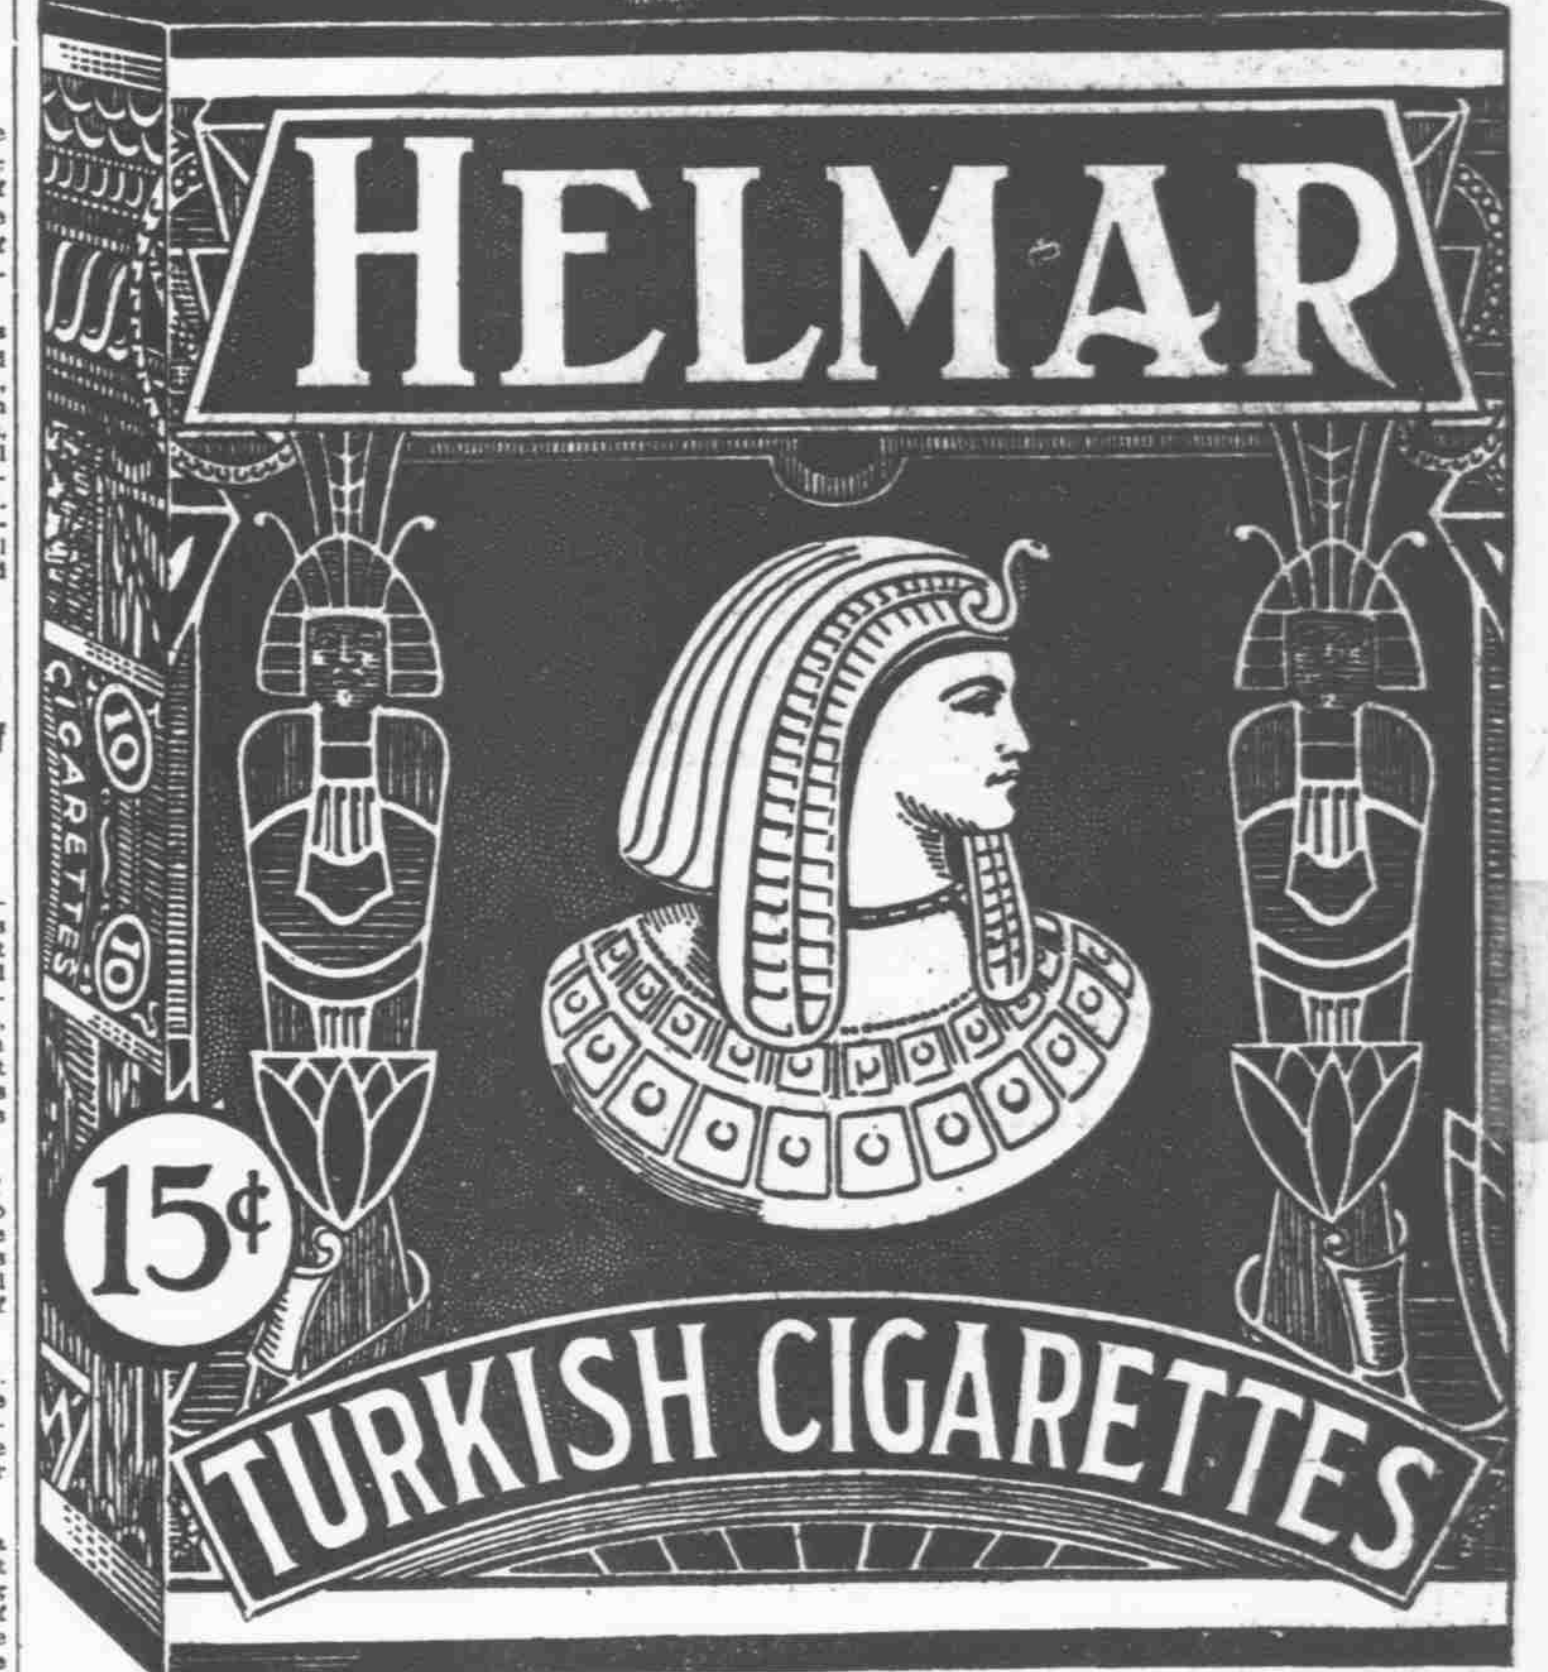

Arrangements are about complete for the commencement exercises of the Marlboro High School, which are to be held beginning Thursday and continue through Monday. Thursday evening students are to present an opera, under the direction of J. R. Irving Bowie. Friday evening a declamation contest is scheduled.

Five boys have been chosen to contest for a gold medal donated by the First National Bank of Southern Maryland, while five girls are to compete for a gold medal, given by the Ladies' Improvement Association of Marlboro. Saturday evening the annual alumni banquet is to be held. Graduation exercises will take place Monday evening, when diplomas will be awarded to the following: Edgar P. McConey, jr.; John Claggett, Charles Claggett, Ira Hopkins, and Rosa Wyvill. Prof. Schultz, of Maryland State College, is to deliver the principal address, and George P. McConey, chairman of the county board of education, will present the diplomas.

SENATOR MARTIN IMPROVED. Senator Martin of Virginia, the Democratic leader, who is ill at the hospital of the University of Virginia, is greatly improved, it was announced at the Senator's office at the Capitol today. There is reason to believe he will be able to return to Washington after a few weeks, although he will be unable to assume very active duties.

100% Pure Turkish Tobacco

**PURE** Turkish tobacco is what makes Helmar cigarettes so delightful. There is no substitute—no "nearly as good."

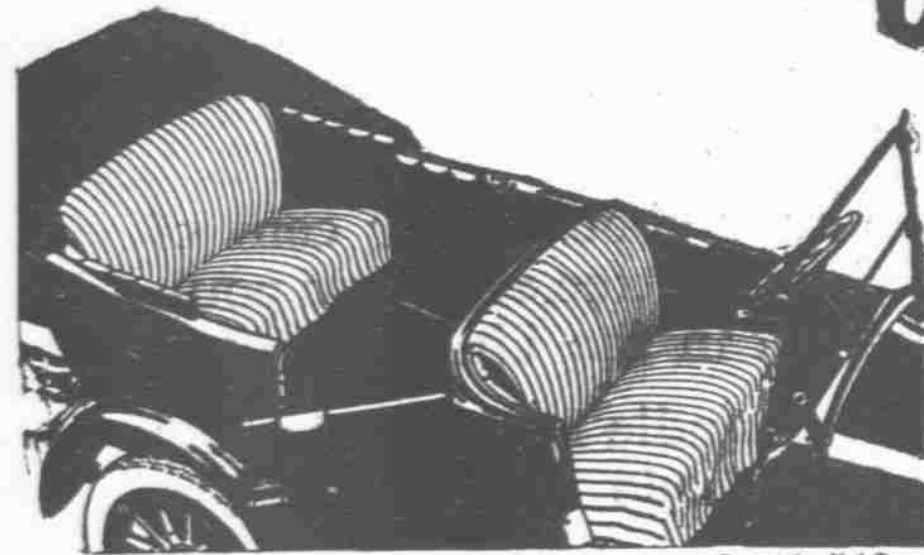

Compare 100% pure Turkish Helmar with "bundle" cigarettes—you won't need any argument—Helmar does the talking!

Like thousands of others—you will be glad to pay the slight additional cost for Helmar "Quality Superb."

## LIFT OFF CORNS!

Drop Freezeone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezeone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug! A tiny bottle of Freezeone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezeone is the sensational discovery of a Cincinnati genius. It is wonderful.
