SATURDAY, SEPTEMBER 27, 1879.

WITH SUPPLEMENT.

THE NEWS THIS MORNING.

FOURTEEN—Colony has left Port Burford for Cape Town.
THEATRE—The Board of Education has been organized.
THEATRE—The Board of Education has been organized.

Colonel Mosby has been applying to consular correspondence some of the methods of bushwhacking.

The revival of the iron trade, after so many years of great depression, is one of the most cheering signs of better times.

An occasional correspondent of THE TRIBUNE, writing from the wine-growing region of France.

A letter from our correspondent in Montana, printed on another page, presents the peculiar difficulties attending the mining of silver in the Colorado and Boulder districts.

Neither the reformers nor the politicians can find any fault with the Postmaster-General's order concerning political assessments.

Ex-Congressman Thomas C. Platt is the chairman of the Republican Executive Com-

mittee, and has his hand firmly on the pulse of the campaign. What he says elsewhere is the feeling throughout the State is based therefore upon the best of knowledge.

Mr. Cyrus Field gives the public some further remarks on the behavior of Mr. Tilden, in a letter which will be found in our columns this morning.

The Minnesota Democrats, after a struggle of two days, have finally determined, by a majority vote, that they are in favor of the views held by the hard-money wing.

One of those destructive conflagrations to which the mushroom cities of the Far West are especially liable, has swept the business portion of Deadwood out of existence.

No one who has read the story of Mrs. Chisolina's wrongs, as she has told it, will fail to respect the determination on which one of her friends announced elsewhere.

The possibility that the voters of this city may have no voice in the next State election moves our neighbor THE HERALD to sharp comment.

The weather—Tribune local observations indicate fine, warm weather, with cloudiness in the afternoon.

An occasional correspondent of THE TRIBUNE, writing from the wine-growing region of France.

A letter from our correspondent in Montana, printed on another page, presents the peculiar difficulties attending the mining of silver in the Colorado and Boulder districts.

Neither the reformers nor the politicians can find any fault with the Postmaster-General's order concerning political assessments.

Ex-Congressman Thomas C. Platt is the chairman of the Republican Executive Com-

and indignantly denied. Very well; let them stand upon the record they have made. If the Democratic party, under control of Mr. Kelly and Tammany, has given fair elections to this city, what do these conspirators want?

No national mind can resist the obvious conclusion. The conspirators mean to rob the city of New-York of its power to vote for the ticket of its choice.

The Republican members of the Police Board have named, as they are entitled to do by law, the Inspectors for that party.

THE MASSACHUSETTS CANVASS.

The campaign in Massachusetts, although opening under much the same conditions as that of last year, does not promise to be as entertaining a spectacle to the country at large.

DISFRANCHISING NEW-YORK.

The possibility that the voters of this city may have no voice in the next State election moves our neighbor THE HERALD to sharp comment.

The weather—Tribune local observations indicate fine, warm weather, with cloudiness in the afternoon.

The revival of the iron trade, after so many years of great depression, is one of the most cheering signs of better times.

A letter from our correspondent in Montana, printed on another page, presents the peculiar difficulties attending the mining of silver in the Colorado and Boulder districts.

lives the golden egg, if it holds prizes so high as to check materially consumption of wheat in Europe.

A STRIKING CONTRAST.

Six years ago the week ending September 29 witnessed the failure of Jay Cooke & Co., Fish & Hatch, the Union Trust Company, and many other firms.

The Assay Office paid out to banks last week, for specie previously deposited, \$7,883,000, and the currency balance in the Treasury was reduced from the 13th to the 20th \$6,734,633.

The resolution of the German Government to have an Exhibition is not, by any means, suddenly arrived at.

There will doubtless be some revival of the negro exodus this Fall after the cotton crop is picked, and another movement on a large scale is hardly to be expected before next Spring.

Tammany's opening gun made the barrel quake. The latest bulletin on the private political opinions of Mr. Tilden is a great deal more plausible than its predecessors.

The Tilden organs are hinting at a possible compromise. Are they going to Yano Robinson?

If the average Tammany patriot doesn't know what the Democratic idea of free elections is, nobody does.

The Democrats are carrying Ohio by wind every day now. The Republicans will carry it once by votes.

There is much danger that the advance in prices of breadstuffs, iron, and some other articles, has been so rapid and large as to cause a disastrous reaction.

lives the golden egg, if it holds prizes so high as to check materially consumption of wheat in Europe.

THE EXHIBITION PROJECT.

The project for a New-York World's Fair in 1883 seems to be languishing. Of one of the two committees formed last Spring to put the enterprise on its feet, we hear nothing.

The Assay Office paid out to banks last week, for specie previously deposited, \$7,883,000, and the currency balance in the Treasury was reduced from the 13th to the 20th \$6,734,633.

The resolution of the German Government to have an Exhibition is not, by any means, suddenly arrived at.

There will doubtless be some revival of the negro exodus this Fall after the cotton crop is picked, and another movement on a large scale is hardly to be expected before next Spring.

Tammany's opening gun made the barrel quake. The latest bulletin on the private political opinions of Mr. Tilden is a great deal more plausible than its predecessors.

The Tilden organs are hinting at a possible compromise. Are they going to Yano Robinson?

If the average Tammany patriot doesn't know what the Democratic idea of free elections is, nobody does.

The Democrats are carrying Ohio by wind every day now. The Republicans will carry it once by votes.

There is much danger that the advance in prices of breadstuffs, iron, and some other articles, has been so rapid and large as to cause a disastrous reaction.

Confederate to Union soldiers without inviting the latter. They will find out presently that they are themselves no exception.

There is a distinct prejudice growing in the North against emigrating to the South to build up its waste places with the emigrant's money and enriching its soil with his blood.

The Old Democratic plan of carrying Ohio by "claiming everything" is in full operation. Every leader in the party is talking in the fondest manner about his perfect confidence in the election of Ewing.

What is the use of the Solid South and its sympathizers saying that the Dixon and Chisolina marriage, and the chronic shooting of negroes, are only outbreaks of the unruly classes, and as exceptional as similar outbreaks in the North?

The Concord (N. H.) Monitor gives large credit for the late Republican victory in Maine to the efforts of A. B. Dow, Editor of The Bangor Wig.

It looks as if Governor Robinson had written his last will.

Mr. Kelly has announced that he will "stick" and not be moved for his seat in the Assembly.

The resolution of the German Government to have an Exhibition is not, by any means, suddenly arrived at.

There will doubtless be some revival of the negro exodus this Fall after the cotton crop is picked, and another movement on a large scale is hardly to be expected before next Spring.

Tammany's opening gun made the barrel quake. The latest bulletin on the private political opinions of Mr. Tilden is a great deal more plausible than its predecessors.

The Tilden organs are hinting at a possible compromise. Are they going to Yano Robinson?

If the average Tammany patriot doesn't know what the Democratic idea of free elections is, nobody does.

PERSONAL.

Mr. Gladstone has taken his wife, his son and his daughter to Italy for a two-months' visit.

The Russian Minister, Mr. Salskikh, is staying with his family at the Popoff House in New-York.

Mr. George William Curtis is to give his address on "Burgoyne's Surrender and the Battle of Saratoga" at Assinippi last Tuesday evening.
