

MAP SHOWING BULGARIAN ADVANCE ON CONSTANTINOPLE. The crosses show approximate positions of the invaders; crescents the Turkish positions behind the fortifications of Tchataldja, the last defences of the Turkish capital.

SEBES IN SEVERE FIGHT

Wrest Town from Turks, but Lose More than the Enemy. Belgrade, Nov. 7.—Official reports describe the two days' heavy fighting which preceded the surrender of Perlepe, twenty miles to the northeast of Monastir. The Serbians outnumbered the Turks, but owing to the nature of the ground were unable to use their artillery. They could bring only one mountain battery into action against the vigorous fire of the Turkish artillery.

FIGHTING AT TCHATALDJA

Turkish Troops Under Nazim Show Great Tenacity.

Vienna, Nov. 8.—Describing the attack of the Bulgarian army on the Tchataldja lines, the correspondent of the "Reichspost" at the front says: "The Turks had taken up a strong entrenched position on both sides of the Tcherkeskueul in order to check the retirement behind the Tchataldja fortifications. The series of fights for these positions lasted all through Sunday, Monday and Tuesday. "The Turks fought under the supreme command of Nazim Pacha with far greater tenacity than had been expected of them after their precipitate retreat in the last battle. When the pressure of the flanking movement by a column of the first Bulgarian army coming from the south began to make itself felt the Turks made a desperate forward movement with a strong force from Kavakli and Bunar against Uzun Haji in order to break through the Bulgarian centre. This attack, however, completely collapsed under the fire of the Bulgarian infantry and artillery.

NAZIM, OPTIMISTIC, WOULD CONTINUE WAR

Constantinople, Nov. 7.—Public opinion in Constantinople is strongly opposed to the idea of seeking mediation or peace. Nazim Pacha, the Turkish commander in chief, has reported to the government that the army is determined to fight until victorious or absolutely defeated. He regards the reverse sustained as unfortunate, but says that the brave Ottoman army is confident of ultimate success, and that all his officers are unanimous in favor of continuing the war.

GREEKS ADMIT SALONICA IS NOT YET CAPTURED

Athens Dispatch Discredits Evacuation Rumor, but Reports Other Successes. Athens, Nov. 7.—After a fierce engagement, in which the Turks had more than one hundred killed, the Greeks have occupied Pentepogonia, which commands the road to Yanina. The reports that the Turks have evacuated Salonica are said to be unfounded.

BULGARS LIST SUCCESSES

Drama, Visa and Rodosto Latest Turkish Towns to Fall. Sofia, Nov. 7.—The Bulgarians occupied the town of Drama on November 5. The Turkish troops in that region have been scattered in all directions. Most of them have surrendered their arms and are returning to their homes. Other remnants are so demoralized that even the peasants are able to terrorize them and compel them to disarm and flee. Throughout the district the inhabitants have warmly welcomed the Bulgarians, and the Bulgarian administration has been established.

SERVIAN PREMIER TALKS

Says Balkan Allies Have No Designs on Constantinople. Paris, Nov. 7.—The Balkan allies will ask for the partition of European Turkey, leaving the fate of Constantinople to the decision of the European powers, according to Premier Pachich of Serbia in an interview to-day with the correspondent of "Le Temps" in Belgrade. The Serbian Premier continued: "Serbia wants the ports of St. Giovanni di Medua, Alessio and Durazzo on the Adriatic Sea, which the Serbian Empire possessed in the Middle Ages, and by which she was territorially related to the rest of Europe."

LABOR COERCION CHARGE FALLS

Boston, Nov. 7.—An indictment charging the Boston Elevated Railway Company with coercing its employees from joining a labor organization was quashed by Judge John F. Brown in the Superior Court to-day. Judge Brown held that the indictment, which resulted from the elevated road car strike last July, was unconstitutional.

RUSSO-CHINESE CONFLICT

Troops Marching Against Each Other in Mongolia. London, Nov. 8.—Russia and China appear to be on the eve of a conflict. The Russian government publishes the text of a treaty concluded on November 3 with Mongolia. The treaty recognizes and guarantees the independence of Mongolia, and Chinese and Russian troops are marching against each other. A new independent ruler of Mongolia is to be proclaimed. This is the third new throne which is now proposed to establish. Austria and Italy intend to set up the Kingdom of Albania, and King Ferdinand of Bulgaria is credited with the intention of proclaiming himself Emperor of the Balkans in Constantinople.

REFUGEES SEEK CAPITAL

Turkish Authorities Decide to Send Them to Asia Minor. Constantinople, Nov. 7.—Muslim refugees continue to arrive on the outskirts of the capital from practically the whole country south of the Bulgarian advance. The scene outside the city walls, at the Adrianople gate, is one of direful distress. Men, women and children, carts and cattle, are huddled together. The authorities are trying to supply the immediate wants of the refugees and have decided to send them to Asia Minor. Thousands have tramped the country the last ten days and have undergone intense suffering. They say that they feared the invaders would burn the villages.

WILL U. S. TAKE A HAND IN EUROPEAN CONGRESS?

New Map of States South of Danube To Be Drawn by the Powers. Washington, Nov. 7.—Realizing the probability and almost certainty that an international congress will be called in the immediate future to deal with the Balkan situation, officials here are speculating whether the United States is likely to be drawn into such a congress, as in the case of the Algeiras Conference, which undertook to settle the future of Morocco. In that case, however, the United States was a participant somewhat reluctantly by virtue of the fact that it had been a party to the original treaty of 1880 which dealt with Moroccan affairs. There exists no such conventional obligation in the case of Turkey and the Balkan States.

WENDELL PIER TO STAY

A. B. Moran and Cazenovia Neighbors Lose Decision. Syracuse, Nov. 7.—Ten Eyck Wendell, of the summer colony of Cazenovia, had a legal right to build a 210-foot steel pier into Cazenovia Lake, back of his beautiful home there, in spite of the objections of his neighbor, A. B. Moran, a New York broker. This is the opinion of Attorney General Carmody, made public here to-night by Mr. Wendell's lawyer. The opinion was asked by the State Superintendent of Public Works, who had been requested by Mr. Moran and others to order the pier torn down.

CUBAN LIBERAL PROTEST

Legality of Menocal's Election Disputed by Zayas. Havana, Nov. 7.—The leading Zayistas at a conference to-day decided to convene a national liberal assembly for November 23, at which steps will be taken to dispute the legality of the recent election, in which General Mario Menocal was elected President of the republic. The advisability of the resignation of all Liberals now holding elective offices or recently elected will also be considered. It is thought doubtful whether Alfredo Zayas now has much influence in the assembly, but it is reported that the Zayistas contemplate blocking legislation by refusing to attend the sessions of the house, thus preventing a quorum.

MALCONTENT'S JUBILANT

Latin-American Ex-Presidents, Exiles and Refugees Congratulate Wilson. New Orleans, Nov. 7.—Latin-Americans in New Orleans are jubilant over the election of Woodrow Wilson. At a meeting of the Central American colony to-day a telegram of congratulation was sent to the President-elect, in which the belief was expressed that the Wilson administration would mean "the death of dollar diplomacy, which has brought untold suffering and loss of life and property to our people," and the re-establishment of pleasant social and commercial relations between the United States and the republic.

KILLED BY FALL FROM WINDOW

Marseilles, France, Nov. 7.—Miss Kate Sayer, an English woman who had come to this city from New York, was killed last night by falling from the fourth floor window of a hotel here. It is believed the occurrence was accidental. She was not dead when picked up from the sidewalk, but expired shortly afterward. She was twenty-four years old.

FEAR OF A HOLY WAR

Religious Nature of Conflict Emphasized by Bulgaria. INCITEMENT TO MASSACRE

Moslem Fanaticism Unloosed by Ferdinand's Talk of "Sacred" Nature of Struggle.

(From The Tribune's Correspondent.) Constantinople, Oct. 26, 1912.—The fear of arousing Moslem fanaticism has always been one of the most horrible aspects of a possible Balkan war. To preserve the status quo has been the care of Austrian, Russian, German and Italian diplomats, but to the British and French the dread of a Balkan war has been its effect upon their millions of Moslem subjects. In 1854 and 1878 this was demonstrated. It is true again to-day. The Italian war has severely tried the British authorities in India and Egypt, and the French authorities in North Africa, for it resulted in pan-Islamic agitation in many parts of the Eastern world. But it did not have the repercussion which is bound to follow the present disastrous war.

MANY DEAD IN BATTLE

Federals and Rebels in Combat Near Mexico City. Mexico City, Nov. 7.—Fighting between the federals under command of General Blanquet and a force of Zapatistas led by General Cuernavaca De La O was renewed at 5 o'clock last night to the south of Cuernavaca, after the rebels had been signally routed in the La Trinchera hills, to the north of the city, earlier in the day. When darkness stopped the combat balls from the rebel guns were falling almost in the outskirts of Cuernavaca.

CROSS VERSUS CRESCENT

The Bulgarian royal proclamation naturally was read with alarm and consternation here. It will be printed in all the Moslem papers throughout the world, and the words "In this struggle of the Cross against the Crescent" will be emphasized by the press, which is continually trying to stir up fanaticism. This is only too true of to-day's press in Constantinople. It seemed incredible that the astute King Ferdinand of Bulgaria, who has been a lifelong conservative politician, should have used such a phrase. It is bound to embitter the struggle on both sides. The Moslem soldier, when his religious fanaticism is aroused, is a fiend incarnate. He will kill, and as gladly.

FREE ENTRY FOR WIRELESS

MacVeagh Defines "Vessel" and Apparatus. Washington, Nov. 7.—Secretary MacVeagh of the Treasury Department to-day completed the regulations which will govern the importation of shipbuilding material, equipment and machinery into the United States free of duty, in accordance with the act passed at the last session of Congress. The regulations, which will be made public in a day or two, provide, it is understood, for the free entry of wireless apparatus, sails and rigging as part of the equipment of a ship. These have been disputed points. It was necessary for the department to define what is equipment and what is a vessel. The law applies only to "vessels." According to reliable authority it is held that a vessel is a craft of five tons or more—that is, documented or registered ships.

STRANDED LINER STILL HAS 500 SOULS ABOARD

Gale Blowing Fifty Miles an Hour Interrupts Work of Transferring Passengers.

NOT IN IMMINENT DANGER

Royal George May Be Refloated To-morrow, After Being Lightened—Several Tugs Stand By. Quebec, Nov. 7.—With 500 steerage passengers and her crew still on board, the Canadian Northern steamer Royal George remained fast to-night where she went aground, one mile east of Point St. Laurent, last night. A northeasterly gale, with wind blowing fifty miles an hour, and a high sea and heavy rain interrupted the work of transferring the passengers to ships sent to the stranded steamer's assistance. More than 400 passengers were taken off early to-day. Steamship officials hope the rescue work can be resumed to-morrow. Meanwhile they have given assurance that the Royal George is in no danger of breaking up or sliding off in a disabled condition into the storm-swept waters.

TRANSATLANTIC WIRELESS

Paris To Be Connected with North and South America. Paris, Nov. 7.—The French government has decided to establish a series of wireless stations, connecting Paris with the various French colonies and with North America and South America. The project is laid before the Chamber contemplates the expenditure of \$1,000,000, about a third of that sum to be expended in 1913. The point of connection in North America has not yet been specified, but the South American-Pacific gridle includes stations in Morocco, the Island of Saint Louis, Martinique, the Marquesas Islands, Tahiti, Noumea, the capital of New Caledonia, and thence to Saigon, Indo-China.

TECLA

NEW YORK 398 Fifth Avenue LONDON 7 Old Broad Street PARIS 10 Rue de la Paix BERLIN 15 Unter den Linden. For the convenience of patrons, the Tecla Company have installed a private show-room with a separate entrance through the main hall of the building, 398 Fifth Avenue. Upon request, they send home selections of their jewels. This affords an opportunity to examine, at leisure, the marvelous "Tecla" creations.

Globe-Wernicke Office Equipment

Globe Cabinet Safe Security to a very high degree—adapts itself ready to any interior arrangement of filing device or storage—gives a capacity far in excess of the old style safe—furnished in three desirable sizes with finish of olive, oak or mahogany. Irreplaceable records are being entrusted to their care. Cost no more than the ordinary kind. New York Store at 380 Broadway Phone, Franklin 3870

Andrew Alexander HELPFUL SHOES FOR TODDLERS

"Balancing Heel" Shoe Wide toe and extra wide flat heel to give confidence and minimize falls. \$1.50 Infant's sizes, 2 to 5.....\$1.50 Child's sizes, 4 to 8..... 1.85

FASTEST ROAD TO Philadelphias

should not run at more than four and a half miles an hour. The Royal George, it is estimated by some navigators, was running at a speed of at least eighteen knots in an effort to get into Quebec before the immigration offices closed. Montreal, Nov. 7.—A wireless message to-day from the Canadian Northern Royal Mail steamer Royal George confirmed earlier news that 490 of the vessel's 901 passengers had been taken off. The transfer, according to this message, was made at 1:15 a. m. by the first tender that reached the steamer. Four other tugs were standing by at that time.

PARIS TO BE CONNECTED WITH NORTH AND SOUTH AMERICA

Paris, Nov. 7.—The French government has decided to establish a series of wireless stations, connecting Paris with the various French colonies and with North America and South America. The project is laid before the Chamber contemplates the expenditure of \$1,000,000, about a third of that sum to be expended in 1913. The point of connection in North America has not yet been specified, but the South American-Pacific gridle includes stations in Morocco, the Island of Saint Louis, Martinique, the Marquesas Islands, Tahiti, Noumea, the capital of New Caledonia, and thence to Saigon, Indo-China.
