COMMISSIONERS TO SEEK NEW CONTRACT MOVING GARBAGE

BIDS WILL BE OPENED AT THE CITY HALL TODAY FOR THE PURPOSE OF CLOSING FOR ANOTHER TWELVE MONTHS.

Bids for the removal of garbage are to be opened at the city hall today, with a view of securing a satisfactory offer to do the necessary work at a price within the reach of the board of commissioners. The bids have been asked through publications, but up to yesterday afternoon at 5 o'clock there had not been a bid filed.

The meeting will probably take place at noon. Yesterday Commissioner Johnson and Mayor Greenhut were yet laid up with an attack of fever and Commissioner Poy was the only one of the three commissioners in the city building all day. Should this condition prevail today, it is possible all bids will be opened at a later date or re-advertisements inserted.

CHICAGO AMERICANS DRAFT NEW TWIRLER

Chicago, Sept. 28.—David Danforth, star pitcher of the Louisville American Association club, has been drafted by the Chicago Americans.

Building Master Men

Potash, sodium, lime and iron are some of the vital mineral salts necessary to proper nourishment of muscle brain and nerves, but are not found in proper abundance in white bread and many other foods.

Grape-Nuts

—made from whole wheat and malted barley—richly supplies these needed mineral elements and is a delicious dish served with cream or rich milk.

Grape-Nuts food is splendid for brain workers, and ideal for school children. Being partially pre-digested, it is quickly absorbed by the system—going directly to the up-building of sinew, brain and nerves without overloading the stomach.

EX-AMERICAN WARSHIPS MAY SEE ACTION GREECE'S "PETTICOAT" SOLDIERS CALLED OUT

GREECE'S "PETTICOATED" SOLDIERS—The LEMNOS (FORMERLY U.S.S. MISSISSIPPI)

Greece, deciding on general mobilization as a reply to Bulgaria's action, can put at least 500,000 men under arms. The country is divided into six army corps districts, which produce eleven divisions of 22,000 men each, making 242,000 men in all. By using the veterans of 1911-12 these could be raised to 500,000. Some of

the infantrymen dress in the famous and distinctive Greek national dress, including the "petticoat" or kilt. The Greeks take great pride in their artillery, which, like the Bulgarian, is the French pattern. The Greek infantry is armed with the Mannlicher-Schoenauer rifle, model 1903. The field artillery is the rapid fire 75 mm. Schnei-

der-Canet. The Greek navy, with the exception of one armored cruiser, the Georgio Averof, built in 1910, and the battleships Idaho and Mississippi (now the Kilikis and Lemnos, respectively), purchased recently from the United States, consists principally of obsolete craft.

SAW MILL BURNS AT SUMATRA, FLA.

PLANT OF THE THOMAS LUMBER CO., LARGE QUANTITY OF LUMBER AND A BARGE DESTROYED.

SPECIAL TO THE JOURNAL. Apalachicola, Sept. 28.—The saw mill plant of the Thomas Lumber Co. at Sumatra, was totally destroyed by fire on Friday night, Sept. 24. Besides the loss of the mill about one and a half million feet of lumber and the barge, owned by the Coombs company of Apalachicola, were burned. The loss will amount to about \$8000, with practically no insurance. The origin of the fire is unknown, but it is presumed that it started from the slab pit as a very high wind was blowing during the night and sparks were probably carried to the mill.

A party from the Chamber of Commerce visited Columbus, Ga., last Monday, where they attended a meeting of the different interested parties on the Chattahoochee river, who are working for the improvement of this system of rivers. Major J. P. Coombs, Capt. A. S. Mohr and Messrs. H. L. Grady, J. H. Cook and Frank Comforth composed the party.

Capture "Blind Tiger."
The first blind tiger that has ever been caught in this county was captured by Policeman Bendles on Thursday night and is now lodged in the city jail. Under a new city ordinance, Mayor Teague attached a fine of \$50 to the victim and at last accounts she was resting in jail, being unable to raise this amount of money, although from the amount of business that is presumably done by this class of business, it is usually very profitable.

Mr. S. A. Hoffman has been a very interesting visitor to his parents for the past week. Sam has been engaged in the hotel business at Tampa, but for the past several months has been on a visit to the north. He will return to Tampa Monday to resume his duties.

TERRIFYING EXPERIENCE OF SPEEDING AUTOIST

New York, Sept. 28.—Harry F. Grant, who was enveloped in flames while driving his machine at a 100-mile-an-hour clip on the Sheephead Bay speedway, was in a critical condition today. Surgeons stated he had only a slight chance to recover.

ACTION FOR HEAVY DAMAGES BROUGHT

CASE OF ESSEX BLANCHARD AGAINST DR. MOZART LISCHKOFF WILL BE CALLED IN THE COURT OF RECORD TODAY.

One of the principal cases for trial in the court of record today is the action for heavy damages for personal injuries brought by Essex Blanchard, a minor, against Dr. Mozart Lischkoff. Dr. Lischkoff, it will be remembered, while driving his automobile on Palafox street some weeks ago, ran into and seriously injured the plaintiff. It was feared that the lad would suffer permanently from his experience, and for some time it was reported that his life was in danger, but he eventually lived through his injuries and has about recovered.

Because of the interesting questions which have been brought out in the preliminaries in this case, it is possible that the matter will be heard from start to finish by a large number of interesting spectators, once the trial is started today.

Are Other Cases.
There are several other cases docketed for trial today, but if the Lischkoff matter is taken up first, it would seem that the other matters on today's docket will be passed for the present, as it is expected the case referred to will occupy the entire day.

There was but one case on the docket for trial yesterday and it was postponed. Other matters which were to have been brought up were deferred for the present.

Dumba can't get a boat. Why should we care when we know he is sprouting wings?

His Sixteen Years' Suffering Now Ended

"I can say with the greatest of pleasure that Foley Kidney Pills were the only thing that gave me relief in sixteen years."
Mr. G. W. Henderson of Dingle, Miss., says more than that too. He suffered with cystitis (inflammation of the bladder). It went on until he reached the point where he had dizzy weak spells, and sometimes he would almost faint with pain. Of course, he doctored, went off to the mineral springs and drank waters of different kinds, which altogether cost him a large sum of money. Still no permanent relief. Now comes a friend who recommends Foley Kidney Pills, and after using half a dozen bottles, his pains are all gone, he sleeps soundly all night.
When kidney and bladder trouble comes on you and you suffer the pains and aches it causes, have irregular, painful secretions and a burning sensation, take Foley's Kidney Pills at once and you will echo Mr. Henderson's sentiments.

MARITIME.

Arrived.
Nor bk Abyssinia, 1036, Olsen, Bristol, to Eitzen-Touart Company.

Sailed.
Br. ss Meltonian, for Liverpool. Span ss. Minnie de Larrinaga, for Galveston.

Shipping Notes.
The Norwegian bark Abyssinia, which reached Pensacola in sand ballast yesterday, is consigned to the Eitzen-Touart Company, and will be loaded with timber and lumber for African ports. Captain Melsom, soon after arrival, had his ship berthed for cargo at Perdido wharf, but after the hurricane signals were displayed some apprehension was felt for the safety of the vessel at that dock, and it was decided to move her. There was but one big tug in port at the time, and it was after dark before the big sailing vessel was given any attention.

After working for several days on the east side of Tarragona wharf, the large American steamship Southerner shifted to the west side of Commandancia wharf, where tobacco and hardwoods were worked during the day. It is thought cotton will be worked today, if the weather is good. Quite a number of people along the water front were interested in the large colors of the United States flag which had been painted prominently on either side of the vessel, this precaution having been taken to offset any German submarines which might menace the big vessel when approaching the war zone.

Three interned steamers and the Norwegian bark Mafalda, loaded and ready for sea, were the only vessels anchored in the stream last evening. The sailing vessel before dark thought it expedient to let down an extra anchor, and did so while the wind howled out from the southeast at the rate of about fifty miles. The interned vessels have had their anchors in the mud for over a year, and it was thought they would hold without an extra one being dropped.

Several large tug boats could have been kept busy in the harbor late yesterday afternoon, shifting barges, smacks, sailing vessels and one steamship. As the only tug capable of handling the larger vessels was the E. E. Simpson, she was kept going from early until late. The Sea King is well on the way to Cuba, possibly 250 miles away, but no apprehension is felt for her safety.

The steamship Birchwood, which was expected yesterday did not show up, although telegraphic orders have been received for the captain. Whether the steamer will fill out here or not remains to be later seen, it being reported the steamer would go to another port.

COLLINS AGAIN IS MAYOR OF MILTON

CITY ELECTION IS HELD AND OFFICERS NAMED—W. J. WILLIAMS, JR., IS CLERK AND TREASURER.

Milton's city election occurred yesterday resulting in the re-election of John Collins, who had no opposition for that office. Other officers elected were as follows:
Clerk and treasurer—W. J. Williams, Jr.
Collector—Fred Allen.
Assessor—Arthur Stewart.
Alderman—J. H. Harvell, Dr. Brunner, Dave Smith and J. W. C. Mann.

Come hear a business man explain what prohibition has done for his city and state.

SIXTY DAYS FOR NOT LEAVING TOWN

WHITE MAN, WHO PLEADED TO VAGRANCY, DID NOT TAKE ADVANTAGE OF CHANCE TO GET OUT OF THE CITY.

Caught in an intoxicated condition early yesterday, a white man named B. K. Root was presented before Judge Zellus, in the recorder's court at 9 a. m. yesterday, and was given the full limit of the law in such cases, his sentence having been sixty days on the streets. This was because he did not take advantage of the offered opportunity to leave when it was given him the day before.

Root and another white stranger named Willis were found near the San Carlos hotel, begging for money, and when they would accumulate a few dimes, it was said, they spent it in saloons, not in restaurants as they had been given the money for. Both were sent in and were given the alternative of leaving or a sentence of 60 days on the streets. Both were apparently ready and anxious to get out of the city as fast as possible and Willis evidently did go, but the other man at an early hour yesterday was sent in for drunkenness and the 60-day sentence imposed.

UNIDENTIFIED SHIP ANCHORED OFF BAR

CAPTAIN OF FISHING SMACK WHO CAME INTO PORT YESTERDAY, REPORTED PRESENCE OF BIG SQUARE-RIGGER.

Captain Joe Rosario, of the smack Cavalier, which arrived up at 6 o'clock yesterday afternoon, reported that a large square-rigger was left at anchor near the sea buoy, and that the skipper had asked that a tugboat be sent out to tow his vessel to port. The message was duly delivered to

at \$12.50, \$15, \$16.50, \$18

"Exceptional" is putting it mildly. The materials are Broadcloth, Gaberdine and Poplins—black, navy, green and brown, silk lined, fur, velvet and braid trimmed.

The newest ideas in Sport Sweater Coats, \$5 to \$15—blue, pink, green, canary and rose. The values are unusual.

owners of steam tugs, but the steamers had too much to do in port yesterday afternoon in preparation for the expected hard weather during the night, and there was no response to the captain of the square-rigger. It is thought that the ship thus reported either dropped anchor and remained for the night near the sea buoy, or else, getting the information that a hurricane had been forecasted he had hoisted anchor and had went out further to sea, to get into deep water in anticipation of the hurricane expected.

Beach fishermen also reported the anchored vessel upon coming to the city after 6 o'clock. Their report was made to the weather bureau, and thence was reported to owners of steam tugs.

SECOND GOOD TRIP MADE BY A SMACK

THE CAVALIER, OUT LESS THAN TEN DAYS, RETURNED TO PORT LAST EVENING WITH A CATCH OF 19,000 POUNDS.

Out less than ten days, the fishing smack Cavalier, of the Saunders Company fleet, returned to port yesterday afternoon at 6 o'clock, reporting upon arrival a catch of 19,000 snappers. This was the second fine trip this vessel has made within the recent past, the former trip having been made in four days and returning with a catch of nearly 10,000 pounds.

The Cavalier is one of the neatest smacks owned and operated by the Saunders fleet, and upon showing up down the bay yesterday, experienced eyes at once began talking of the probable good trip of the vessel, which was under command of Capt. Joe Rosario. Bets were even made on the catch, and persons lost good cigars on the proposition that he came inside with a "broken trip." It was believed that, when he first showed up, he had returned in fear of the hurricane weather of which he had learned in some way.

The smack was assigned a berth at once, and her cargo will be taken out the first thing this morning if the weather is favorable for the work.
