JERAULD ASKS TO RENT WHARF

Offers to Improve City's Property and Furnish Fidelity Bond Against Accidents.

In regular session yesterday the city commissioners passed the ordinance providing for the purchase of Maxent park. James Jerauld applied for a lease on the city wharf at Magnolia street and a report on the plumbing at the city jail was received from Inspector Jolly. City Engineer Garrett submitted estimates to the board for the proposed paving of many city streets and a petition asking for a compromise of taxes on a certain parcel of property was received from William Fisher.

Ordinance 24 which provides for the purchase of Maxent park passed the board of commissioners yesterday after it was amended upon the recommendation of City Attorney John B. Jones, to read "when the deed and title to said property are approved by the city attorney". This property will be bought by the city at a cost of \$6,000. The application of James Jerauld to lease the city wharf at Magnolia street was referred to Commissioner Hinrichs for investigation and report. Jerauld offers to cover the wharf with a shed and agrees to give a fidelity bond to the city against accidents. His application is signed by several prominent business men of the city.

This Skin Peeler In Great Demand

Since the discovery that mercerized wax possesses remarkable absorbent powers when applied to the skin, the demand for it as a complexion renewer has been tremendous. Dermatologists in every section report sales far exceeding those of anything similar they have ever had on their shelves. Ordinary mercerized wax gently peels off the dehydrated cuticle, in minute particles so that the user gradually loses the old worn-out complexion, the more youthful under-skin taking its place. Cutaneous eruptions, blotches, moth patches, liver spots and freckles are of course removed at the same time. As the wax is entirely harmless, and easy to use, women all over the country are purchasing it in original packages and using it to quickly rejuvenate their complexions. The wax is applied the same as cold cream, allowed to remain on overnight, then washed off with warm water.
