Stops Falling Hair, removes Dandruff and makes your hair grow long, soft, silky. Try a big box today. Sold by drug stores or sent by mail, 25 cents, stamps or coin. AGENTS WANTED EVERYWHERE Write for Particulars HEROLIN MEDICINE CO., ATLANTA, GA.

# TOWBOAT STRIKE FINALLY ENDS

### Tugs of the Aiken Company Will Put to Sea Immediately.

News of the settlement of the Towboat engineers' strike was given out officially yesterday.

It is generally understood that the engineers won out on both the increase of wages and the additional engineer for ocean going tugs.

With the ending of the strike the tugs of the Aiken Towboat company began to show signs of activity and began to get up steam.

The tug Simpson will leave today for Mobile to take in tow two barges there, and the Leroy and Sea King are expected to get away with barges for Cuba within the next day or two. Several barges, including the Anken barges, George T. Locke and the Bobby-Ho and Consul are already loaded in the harbor and are ready to go.

# No. 1—Continued From Page One

saved Augusta from floods tonight, but Monday generally were receding throughout Mississippi, Alabama and Georgia today but anxiety was felt as to the fate of hundreds of persons caught by the highwaters. Fourteen known dead have been reported to date, but this list probably will be increased by later reports. It is estimated property damage resulting from the high waters will amount to several million dollars.

The dead were listed as follows: Atlanta, Ga.—Three white persons, Montgomery, Ala.—Two white farmers; three negroes.

Hattiesburg, Miss.—Three negroes, Jackson, Miss.—Two white persons, Meridian, Miss.—One negro.

Most serious conditions reported today existed in Southern and Central Alabama. Hundreds of persons, including 115 negro convicts and fifteen white guards, are marooned along the Tallapoosa River, northeast of Montgomery, Wetumpka, Prattville, and other towns swept by flood waters from the Chattahoochee River, however, reported improved conditions today.

In Mississippi more than one thousand persons, mostly negroes were driven from their homes at Hattiesburg when the Leaf River overflowed its banks last night, causing heavy property damage in the city and surrounding country.

At Meridian, Enterprise and Laurel and Basie City, portion of the towns were inundated causing considerable damage and suffering. Railroad traffic in the eastern part of the state was almost completely suspended.

Conditions at Columbus and West Point, the principal points in Georgia affected by the floods of the Chattahoochee, were improved today. At both points the river exceeded its previous high mark made in 1888. Reports from West Point stated that supplies were reaching the east side of the town in sufficient quantities, but conditions on the west side of the river, cut off by the carrying away of the big highway bridge, were not so satisfactory. Efforts were being made to care for the residents there by means of barges and boats.

The high waters were receding at Columbus, but a score of industries forced to close by the shutting off of the hydroelectric power, still were idle today. It was estimated that more than 15,000 persons were made idle by the flood.

mills could spin and weave is now restricted by destruction of machinery in the devastated regions of Europe and restriction of the hours of labor but these conditions would not be permanent.

One thing which alarmed him was the enormous development of the use of motor cars in America with a consequent demand for 500,000 bales of staple cotton for fabrics in tires. This demand existed at a time when the whole world supply of staple cotton, he said, had been reduced to 1,500,000 bales.

## Everyone Should Drink Hot Water in the Morning

Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, cold, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify, and freshen the entire alimentary tract before eating more food. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.—Adv.

a plebiscite was to be taken, and which ever country was chosen by the voters was to pay a sum of money to the country which lost on the plebiscite. Up to the present moment, no plebiscite has taken place, owing to the intransigent attitude of Peru as to who shall have the vote. Chile wishes everybody to be given the right to vote, but Peru is not in accord with us about this. That is, shortly, the root of the question. There is no danger of war, however, between the two countries.

"We are on very good terms with the other two A B C Powers; the frontier difficulties with the Argentine have been satisfactorily settled of course. Chile is the first South American nation to submit to arbitration, in 1903, when we accepted King Edward's solution of the difficulties with the United States.

"The Monroe Doctrine, of which the whole world hears so much from time to time, means a Continental policy, for America, North and South. It originated, it is said, in the brain of the English statesman, George Canning. At the time of the Holy Alliance in Europe he instructed the British Minister at Washington to suggest it to the American government. An exchange of letters followed between Monroe, Jefferson, and Madison in 1823. The Monroe Doctrine was the outcome.

"With regard to the League of Nations, Chile approved of the scheme without discussion. We fully appreciated the noble intentions of the statesmen who conceived the measure. If it helps, even if only for a time, to make the world tranquil, it will be of enormous utility. Today we cannot judge it; we must await results. What we can do is to appreciate the spirit which animated those who brought it into being."

# No. 4—Continued from Page One

points were available. Relief for some points, however, faced because of almost unprecedented snowfall. In the plains states railroad traffic was badly interrupted by snow drifts, and in the Pacific northwest, where nearly forty hours of uninterrupted snowfall was recorded, conditions were worse.

Throughout the central area the sub-zero temperatures that yesterday in many places established season records today had given way to milder temperatures and lessened the sacrifice coal saving entailed. Denver led the upward trend of the mercury with a 62 degree range from 12 below zero to 50 above. At other places the moderation was less marked. At Minneapolis the thermometer rose from 16 below to even zero.

Omaha from 16 below to 6 above and at Chicago from minus 8 to plus 5, with relief from the unseasonable weather in all sections forecast for by tomorrow night.

Except in the Illinois fields where it was said by one union leader that the men had looked forward to a 31 per cent. increase, and in Montana, where the district president said the miners would not return to work as long as the soldiers are in the coal fields, it was expected work generally would be resumed today.

Generally the mines were in condition to be worked immediately. They had been kept in order by conservation crews left by the strikers and the regular shifts of engineers and firemen.

A number of cities and towns in the Pacific northwest were reported in urgent need of fuel. Salem, Ore., was entirely without coal and more than 2 feet of snow had fallen.

## NAVAL STORES

### PENSACOLA.

Pensacola, Dec. 11.—Trading on the open market has been discontinued. Receipts today were, spirits 52, rosin 242; shipments, spirits 159, rosin 125; stocks, spirits 4,958, rosin 52,864.

### SAVANNAH.

Savannah, Dec. 11.—The spirits market was firm as 157½ with sales of 65 casks. The rosin market was steady with sales of 741 barrels. Receipts, spirits 37, rosin 610; shipments, spirits 508, rosin 1,082; stocks, spirits 13,493 rosin 51,987.

Quotations were as follows: W.W. 21.60; W.G. 20.75; N. 19.75; M. 18.60; K. 18.10; L. 17.00; H. 16.50; G. 16.45; F. 16.40; E. 16.35; D. 16.30; B. 16.25.

### JACKSONVILLE.

Jacksonville Dec. 11.—The spirit market was firm at 168½, with sales of 71 casks. The rosin market was quiet with sales of 498 barrels. Receipts, spirits 9,425, rosin 90,111.

Quotations were as follows: W.W. 21.50; W.G. 20.75; N. 20.00; M. 18.75; K. 18.00; L. 17.00; H. 16.40; G. 16.40; F. 16.35-16.40; D. 16.30-16.35; B. 16.25.

## MARKET REPORTS

New Orleans, Dec. 11.—Cotton opened steady. December, 33.60; January, 37.69; March, 35.10; May, 32.60; July, 31.23.

New York, Dec. 11.—Cotton futures opened steady. December, 33.65; January, 37.15; March, 34.75; May, 32.60; July, 31.12.

Cotton closed easy. Closing bid, December, 37.05; January, 35.30; March, 32.95; May, 31.10; July, 30.10.

New York, Dec. 11.—The cotton market was nervous and unsettled early today. Buying on the settlement of the coal controversy was restricted by an announcement that no immediate relaxation of fuel restrictions could be expected and that coal would be refused vessels at South Atlantic and Gulf ports for coastwise and shipment to Cuba. There was also uneasiness over the continued weakness of foreign exchange and after opening 25 points lower to 8 points higher, active months sold about 20 to 40 points net lower to 38.65 for January and 32.40 for May.

# PLACE EMBARGO UPON SHIPMENTS

### Washouts, Floods and Coal Strike Hamper All Traffic, North and South Bound

Due to the general derangement of traffic lines northward occasioned by the recent floods and washouts, an embargo has been placed on all outgoing shipments from this city. How long this embargo will hold cannot be told but it is believed by traffic authorities here that it will be lifted within a short time, just as soon as the damage sustained can be repaired.

The coal strike caused an embargo to be placed recently on all cargoes leaving the ports of the South Atlantic and Gulf, but with the termination of the strike Wednesday it is believed that this also will be removed within the next few weeks.

Several vessels are loading cargo at present at Pensacola, but in nearly every instance these vessels will not be affected by the embargo as the cargoes have already been assembled and in many instances come directly from this city.

Ships which are loading cargo at this port at present are the Argenta, McDonald, W. S. M. Bentley, West Harshaw, Saurez, Furustrand, Lake Savus, Virga LeMer and City of San Antonio.

## HARVARD WILL PLAY GAME AT PASADENA

Cambridge, Mass., Dec. 11.—The Harvard University football team will play a western eleven at Pasadena, Cal., New Year's day. The committee on athletics at Harvard today voted to recall its refusal of an invitation from the Carnival of Roses committee at Pasadena, in view of the improved coal situation. The crimson eleven began practice yesterday.

Unofficial information indicated the University of Oregon team would be Harvard's opponent.

# HOPE ABANDONED PASSAGE OF BILL

### Railroad Legislation Held Up By Opposition to Cummins Bill.

Washington, Dec. 11.—Hope of enacting railroad legislation by January 1, the date on which President Wilson has announced the roads will be turned back to private control, was virtually abandoned today by senate leaders, because of strong and unexpected opposition to the Cummins bill.

## ARMOUR PLANS REORGANIZATION

Chicago, Dec. 11.—Vice-president Dunham of Armour and company announced tonight that plans are under consideration for the reorganization of the various Armour interests into a large number of separate corporations.

A man's best pal is his smoke

"Close harmony—that's us"

—Ches. Field

THIS Chesterfield blend is so close that it's secret. It's our private, exclusive blend, the formula for which is closely guarded. It cannot be copied.

Experts take the unusually fine Turkish tobaccos—real Turkish, mind you, not so-called "Turkish"—and blend them with Domestic leaf of especially choice selection—fine, silky Blue Grass Burley and the sun-ripened leaf of old Virginia.

This blend brings out a new flavor—one that makes Chesterfields different and impossible to imitate. Every puff tells you that Chesterfields "Satisfy"!

And the moisture-proof package keeps 'em firm and fresh, whatever the weather.

Liggett & Myers Tobacco Co.
