BASKETBALL AT Y. M. C. A. FOR SATURDAY NIGHT

Basketball fans in this city have reason to be elated over the chances of witnessing a real old-time basketball affray on the 27th of this month, when the representative team of the Mobile "Y" clashes with the local Y. M. C. A. five. For the first time in four years basketball relations between the two teams have been resumed, but, during the period of athletic inertia caused by the war, none of the old time rivalry that has existed in the past has been lost. Both teams are, anxiously awaiting the game and, as in former years, both are confident of victory.

The local team although younger in years than any of its predecessors, is a great deal faster and makes up in shogging skill what it lack in weight. Under the skillful and assiduous coaching of Ben Jones good pass work and a splendid system of play has been developed. The team has confidence and expects to take the more experienced Mobile aggregation by storm, although the local players are aware that the task will not be an easy one. The Mobile quintette is generally recognized as one of the fastest teams in the south and has games scheduled with the leading colleges below the Mason-Dixon line.

The local line-up will in all probability consist of: F. Caro, Jones, Herkovitz, Sanchez, L. Caro, Olsen and Brassell. The exact line-up has not yet been announced.

Because of the large number of returned college men interested in all kinds of athletics and especially in a match game of this calibre an unusually good crowd is expected Saturday night.

Should Be Quarantined.
Many physicians believe that anyone who has a bad cold should be completely isolated to prevent other members of the family and associates from contracting the disease, as colds are about as catching as measles. One thing sure—the sooner one rids himself of a cold the less the danger, and you will look a good while before you find a better medicine than Chamberlain's Cough Remedy to aid you in curing a cold.
