NEWSPAPER PUBLISHED WEEKLY  
MADISON, FLORIDA

COLUMBUS B. SMITH, Editor.

THURSDAY, JUNE 16, 1916

We'll just bet that there are many politicians in Florida anxiously awaiting information from the Census Bureau which they hope will give to Florida another Congressional District and another Congressman to serve it.

Vernon L. Eagle, erstwhile candidate for United States Senator, has moved with his family to Marietta, Ga., where they will spend the summer. He will be back in Florida in plenty of time to make himself and his forceful personality felt in future campaigns.

Now let's all resolve not to precipitate the prohibition campaign too suddenly. The heat of the Senatorial fight just ended is amply sufficient to last us for a few weeks at least. But, as we have before remarked, that campaign will be tame as compared with that which is yet to come when the campaign for morality against evil and the pernicious whiskey traffic properly opens up.

Tom Watson has flopped back into the democratic party to stay, so he says, and he says further that he does not want nor will he have an office. Tom is rather a peculiar fellow and we don't just exactly know why he should have made the flop, since he doesn't want office unless, indeed, he got tired of being a party all by his lonesome and wanted to mix up with the crowd some more.

Dr. Andrew Sledd who is now pastor of the First Methodist church, Jacksonville, has been elected to the presidency of the Southern University at Greensboro, Ala., and will probably resign his pastoral charge to take charge of the position to which he has been elected. Dr. Sledd is one of the best and most widely known educators of the South and was for some time president of the University of Florida.

Should the earth shake and strange rumblings be heard on next Saturday don't be alarmed and think that we are in the throes of a mighty convulsion of nature. Nothing of the kind. The cause—if such should happen—will be the landing in New York of 'Teddy, the Terrible' just back from his trip into the jungles of Africa after big wild game and his later trip into the palace of the monarchs of the old world where he received the best that could be offered. Thousands of Americans from all parts of the country will be in New York Saturday to see the big man when he steps from the ship to the shore and a shout of welcome will go up which will be almost loud enough to echo around the world. Great is Teddy.

The Jacksonville Metropolis of last Friday was slightly in error when it stated that "the indications are that Chas. E. Davis of Madison will be selected Speaker of the House," meaning the House of Representatives of the legislature of 1911. Mr. Davis is the nominee for Senator from Madison county and will be a candidate for the presidency of the Senate. And right here we might remark that the Metropolis might have stated with absolute correctness that "the indications are that Chas. E. Davis will be the next president of the Senate."

We would just like to see a true and correct statement from both of the senatorial candidates in last week's primary as to how much money each of them spent in their campaign and how much was spent in their behalfs by their friends. Its dollars to doughnuts that the sum total of both would make a mighty comfortable fortune, a fortune sufficient to enable a large family to live in luxury for the ordinary lifetime. All of which goes to prove that a poor man has no business to mix up in politics in Florida when the goal is high official position.

Samuel J. Tilden is a name frequently heard as a possible candidate of the democratic party for governor of the great State of New York. No, of course he isn't the same man who stands in history as one of the greatest of men and democrats who ever lived, but he is a nephew of the original Samuel J. Tilden and for that reason, if none other, we hope that he will go in the race and win out when the time comes.

Gainesville was without water for four hours Sunday. What would have happened had a fire started?—Gainesville Sun. Pebaw, that's a small matter. Madison was without water we don't know how many hours Friday night and all of Saturday morning until late of the same afternoon. No telling what would have happened had fire started in our town. These things will happen some time and while we don't like to see it still it can't be helped and nobody can be greatly blamed.

**Poor Milk**  
is often thought to be responsible for an infant's loss in weight of general poor health. The cause usually is that the child has worms. They get the nourishment in the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. B. Davis.

Sarford has four miles of brick paved streets putting that city fourth among all the cities in Florida

**The Big Head**  
is of two kinds—conest and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by using our liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by W. B. Davis.

Mrs. Potter Palmer, of Chicago, has purchased 27,000 acres of land fronting on Sarasota Bay, and a few miles south of Sarasota, where she will build a winter home and several cottages.

## A Fire Fighter's Astounding Story

OF THE UNPARALLELED MERITS OF "BLOODINE"

ENGINE WHICH MR. GLAZIER RUNS.

**Signs of Danger.**  
Backache, dizziness and headache, "spots before the eyes," irregular heart action and liver trouble. The severity of the early symptoms depending upon the amount of poisons which the kidneys have allowed to remain in the system.
