BRYAN CALLS ON CARRANZA TO STOP VILLA

LATTER IS FORCING RANCHERS TO GIVE UP HORSES

Is Also Smuggling Arms and Other Munitions Across the Border from the United States

(By Associated Press.) Washington, July 28.—Secretary Bryan this morning appealed to General Carranza to stop Villa who is reported to be making wholesale demands on Chihuahua ranchers for horses. It is said he has demanded as many as a hundred horses from one rancher. Consular advice to the State department said that Villa is smuggling arms and war munitions across the border from the United States. These advices confirmed many private complaints. The situation between the constitutionalists and the Carranza government over the transfer of power in Mexico is progressing satisfactorily, said Secretary Bryan. The Saltillo conference to arrange for the transfer of the government will probably meet within ten days.

St. Petersburg, July 28.—The International Ophthalmological Congress, which is to last five days, was opened here this morning, after a great deal of correspondence between Professor Bellarmioff, president of the Congress, and a number of leading physicians. The great loss to the capital city of Russia was threatened by this movement, aroused the physicians and more liberal statesmen of Russia to action, and a short time ago all restrictions on the length of sojourn to the Jewish physicians was removed by order of the ministry of the interior.

BARBER'S NARROW ESCAPE FROM PECULIAR ACCIDENT

An unusual and peculiar incident occurred yesterday when a cartridge lying on the street was run over by a passing wagon, and exploded, the ball being discharged with great force and falling only by a very narrow margin to cause a serious injury.

The wagon was driven by Mr. A. H. Lane, of the Standard Oil Co. The cartridge, which some one had carelessly thrown in the street, exploded when the wheel struck it. The ball ricocheted upwards, passed through the door of the A. C. L. barber shop and struck the bottom of a chair, glancing thence and striking a sign in the rear of the shop. It rebounded and struck A. C. Leggett, one of the barbers, but its force was spent, and no material injury was done. Had it struck a human mark before the other objects in its course, the result would have been serious.

During the fiscal year which ended June 30, the total number of immigrants reached 1,254,548, approximately 70,000 more than in any other year in the history of the country. Italy was far ahead of all other nations in the number of emigrants; Poland came next. With the exception of China, England and Russia, there was an increase of immigrants from every recognized nation in the world, these three showing a slight falling off. New York City, as the largest seaport of the United States is the reception port of the greatest percentage of these potential citizens. On some days as many as five thousand pass inspection at the United States immigrant station at Ellis Island. The dining room at the station has a capacity of twelve hundred and detained emigrants are fed there at the expense of the steamship companies.
