VILLA'S FORCES RE OUT 5 MILES OUT FROM CU PRIETA; BATTLES BEGUN

DOUGLAS, ARIZ. ORDERS ISSUED TO CITIZENS TO KEEP OFF STREETS

THROUS OF REFUGEES ARE WAITING PERMISSION TO CROSS TO THE DETENTION CAMP

(By Associated Press.) Douglas, Ariz., Nov. 1.—The battle of Cu Prieta began at ten o'clock morning. Villa's advance guard is in contact with Carranza's outposts, which opened fire then retreated to the trenches.

(By Associated Press.) Douglas, Ariz., Nov. 1.—The Carranza garrison at Agua Prieta, numbering about 6,000 awaits the attack of Villa's forces. It has ten machine guns and thirty or forty machine guns. Villa is estimated to have about 10,000 men, but he has some 18,000. Seventy-seven per cent have been removed from hospitals to this side. Thousands of refugees are awaiting permission to cross the detention camp. Villa's force is about five miles out. Orders have been issued here that everybody keep off the streets when the fighting begins.

C. V.'s MET IN REGULAR SESSION

Lakeland Camp, No. 1543, U. C. V., met in the city hall at 10 o'clock Monday night. J. A. Chapman, first vice-commander, in the chair. The meeting was called to order and opened with prayer by Comrade E. J. Mullen. The roll-call showed the following present: J. D. Allen, A. C. Wells, J. A. Chapman, H. A. Mullen, T. J. McMullen, C. L. Wilbrey. Minutes of last meeting read and adopted.

Comrade Allen having just returned from the reunion at Ocala, gave an interesting account of the hospitality of the citizens of the Brick City, who were given them free entertainment in the sense of the word, in fact, he stated that they really had the time of their life in this fair and prosperous city of this land ever blooming.

W. Stevenson, commander of local camp of the S. of V., was a visitor with this camp and gave a vivid description of the hospitality of the citizens at the reunion. From all reports the Brick City was a little above its everyday life in its welcome to the aged veterans of a nearly past generation.

WARDENS IN FLORIDA

Jacksonville, Nov. 1.—Frank P. Williams, game warden for Duval county, announces that the strictest law will be kept on violations of state game laws. He states that he is a general misunderstanding to the fact that there are a number of squirrel hunting licenses effect. The regular hunting season begins November 20, but any one except squirrel shooting will be allowed up to that date. One of the features of the new law in Florida is the fact that informants against offenders will be paid one-half of the fine which is imposed. Warden Williams stated yesterday that he will pay ten dollars to those who are instrumental in getting a conviction in the courts. "I believe all the time in being general minded but I mean to carry laws out to the letter. I have appointed deputies in every district in the county and they will make reports to me each week."

Warden Williams explained that licenses to shoot squirrels would be sold over for the regular hunting season but that quail and other game are not to be killed before November

CHINESE REFUSE POSTPONE MATTER OF CHANGE OF GOVERNMENT

(By Associated Press.) Peking, Nov. 1.—The Chinese government has rejected the proposals of Japan, Great Britain and Russia for a postponement of the decision whether a monarchical form of government will be re-established in China. Teac Yulin informed the ministers of these powers that provincial officials declared they would be able to maintain order in the event the monarchy was re-established.

SUFFRAGISTS MAKING FINAL APPEALS IN PENNSYLVANIA

(By Associated Press.) Philadelphia, Nov. 1.—Women suffragists are making a final appeal to voters today. Over two hundred meetings are being held here and many throughout the state.

ANOTHER GERMAN ARRESTED ON CONSPIRACY CHARGE

(By Associated Press.) New York, Nov. 1.—Englebert Bronkhorst has been arrested in connection with charges of conspiracy against Robert Fay and several others to blow up munition ships. He alleged that he furnished Fay some explosives. He failed to give \$25,000 bail.

One of the surprises is the tax on hats which will affect principally ladies' millinery imported from Paris, men's hats being made up almost wholly from materials imported.

The tax on petrol is likely to decrease the earning capacity of taxicabs whose fares are regulated by the Home Office, and may cause a revision in fares of the various motor-bus companies.

As far as the Stock Exchange is concerned gratitude was expressed that the increase was not greater, but it is at the same time recognized that investment business which is at a low ebb at present will probably decrease, especially in those commercial undertakings which were bought in anticipation of increased dividends but which will not be subject to special war tax on profits.

The new method proposed by the Chancellor of the Exchequer for deterring income tax from the interest paid by bankers on current and deposit accounts is a minor matter when compared with the larger interests involved in the budget, but according to a banker writing in the financial papers, it creates difficulties. Broadly speaking, current accounts do not carry interest in London while they do in many provincial districts; but even in London there are exceptions to this rule notably in the case of accounts of foreign banks on which interest is usually followed, they, in their turn, reciprocating on amounts left with them. The withdrawal of balances maintained in London might (and it is possible that they amount to many millions) probably would adversely affect the exchanges. It will therefore be a matter for serious regret if the new regulations should detrimentally affect the conditions under which the balances in question are held in this country. Such a result would be another blow at the supremacy of London in finance.

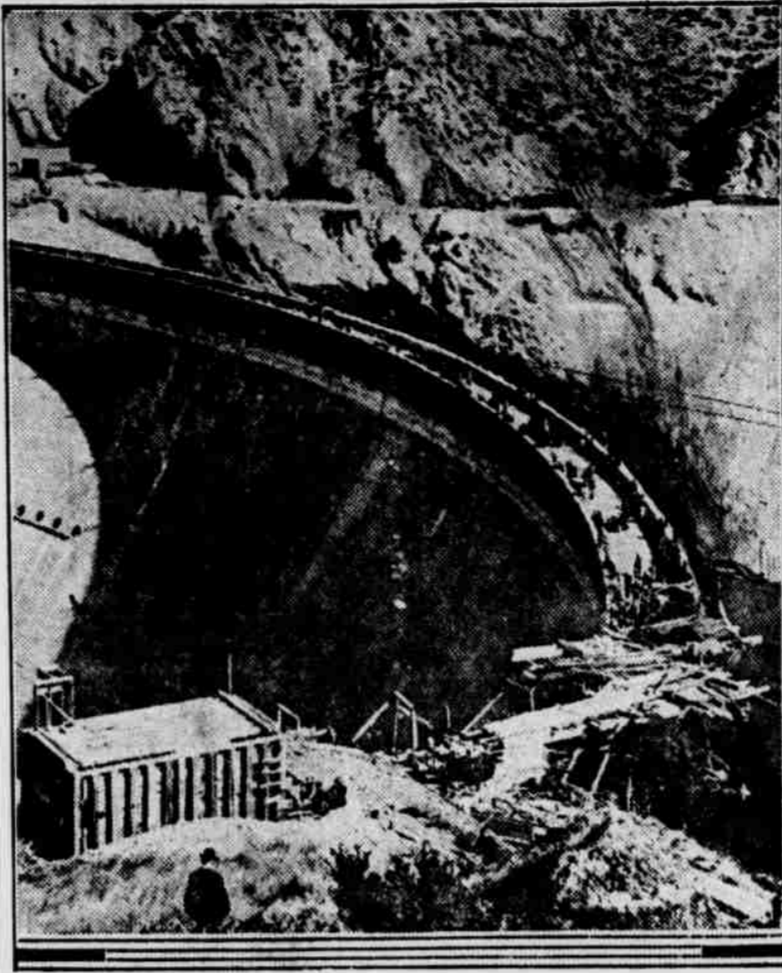

The same banker sees in the new tax or the collection thereof a serious increase in work for both Inland Revenue authorities and the already depleted staff of the banks.

AUSTRALIAN PAYS TRIBUTE TO THE TURK

(By Associated Press.) London, Nov. 1.—An enthusiastic tribute to the Turk as an honorable fighter comes in a letter from an Australian officer to relative in London.

"The Australians will hear nothing said against the Turk," he writes. "I want to warn you against the tales of Turkish atrocities in Gallipoli or elsewhere. We know all about the Turk. Haven't we fought against him for months? He may

HIGHEST DAM IN WORLD DEDICATED

The Arrowrock dam, the highest in the world, was formally dedicated recently at Boise, Idaho, and one of the largest irrigation projects in the country was added to agricultural America. The total area of the land to be reclaimed is 243,000 acres. The dam is of solid concrete, 351 feet high, 1,100 feet long and 240 feet thick at the base.

PRESIDENT TO WED LATTER PART OF DEC.

(By Associated Press.) Washington, Nov. 1.—It is formally announced from the White House that the Wilson-Galt marriage will occur "near the end of December." It will be private and at the home of Mrs. Galt.

WIRELESS OPENS UP NEW SEA ROUTE

(By Associated Press.) London, Nov. 1.—Wireless telegraphy has opened a polar sea route from central Russia to Great Britain. Wireless stations established by the Russian government in the arctic keep the vessels advised as to the channels free from ice. Acting on their information, two large vessels chartered by a Siberian trading company have just arrived at Grimsby with cargoes from the Yenesei and Obi districts of Central Siberia, valued at \$1,750,000.

The Obi and Yenesei are huge rivers with a great depth of water, taking steamers of any size. But it was not until lately that their navigation was put in practice.

Owing to the use of the trans-Siberian railway by the Russian government for war supplies, there are 2,000,000 tons of wheat held up in Siberia, besides enormous quantities of other produce. If this can be got out it will improve Russian exchange, which is now a serious problem among the allies.

Next year the company proposes to take about thirty steamers over the new White Sea route, laden with Siberian products. Even if the war ends before this time, it is pointed out that the Siberian railway will be more or less tied up with back business and the returning of troops.

be a colored infidel, but he fights like a Christian gentleman. One of our fellows went out to get a Turk sniper. Something went wrong and the Turk got him. But he put up a good fight against numbers, and the Turks were so pleased with him that they dressed his wounds and gave him a bottle of wine and water and sent him back to us."

The same officer remarks that at first the English Indian troops regarded the Australian troops with contempt and considered it almost undignified to be asked to fight alongside them. "The Gurkhas backed when they were first put beside us," he says. "They said that we were not trained soldiers and that it was not fair to have to fight with us. Then we got into a charge together, and now they admirably call us the White Gurkhas."

GROWERS GET \$3 AND MORE PER BOX FOR GRAPEFRUIT

Miami, Nov. 1.—With a much wider market, extended last year when the fruit was so cheap, and a higher price than has before been paid so early in the season, owners of grapefruit groves are this year reaping a harvest, even though the

REAR ADMIRAL LITTLE ON TRIAL BY COURT MARTIAL

(By Associated Press.) Boston, Nov. 1.—Rear admiral William Nelson Little, retired, is on trial by court martial at the Georgetown navy yard, charged with neglect of duty while inspector of machinery of government boats building at the Fore river ship building plant at Quincy. It is alleged that he overlooked defects in the machinery of submarine K-2.

WEATHER AND A BACKWARD SEASON ARE CONSPIRING TO RETARD SHIPMENTS FROM THE MIAMI DISTRICT

For two weeks grapefruit has been moving out slowly. The season for maturing is almost a month backward. The conditions, however, are overcome by the prices being paid for the fruit, and indications are that everything considered, it will be one of the best seasons for grapefruit which the Miami district has ever known.

A year ago this time the markets were flooded with grapefruit, and prices were so low that many consignments did not pay the cost of picking, packing and shipping. The apparent calamity was a benefit, however, in one way—the over supply was used for advertising purposes, and all over the country the people, who had never known the delights of devouring this luscious fruit were introduced to it. A season's campaign of this character has apparently brought its reward this season, for prices now are as high as they ever attain in general, and the gradual moving of the crop will, it is believed, maintain these figures all of the season.

\$3 to \$3.25 Per Box
At the present time growers are realizing from \$3 to \$3.25 for the fruit, per box, f. o. b. groves and are being sold at \$2.50 per box on the trees.

Two of the groves already sold, fruit on trees, are those of J. T. Norwood, whose grove is near Silver Palm, the crop being estimated and \$3,500 cash being paid him; and the grove of Preston Lee, west of Gould's for \$4,000 cash on trees. It is understood that in these cases the estimate was made at a base value of \$2.50 a box. Many small groves have been sold intact in this way, the purchasers looking after details of gathering and shipping the crops.

GOOD COLOR AND FLAVOR

The most gratifying conditions of this season are the coloring and excellent flavor of the fruit. In these respects it is a strong bidder for favor in all of the markets.

FISHERMEN TO FIGHT SECTIONS OF PRESENT LAW

The Bronson Times-Democrat of Thursday tells of the organization of the fishermen for the purpose of fighting certain sections of the present fish laws in this State. The account given is of a local organization at Cedar Key, but in one of the "Articles" adopted by the meeting

BULGARIANS ARE ATTACKING OUTER FORTS OF NISH; MAKE PROGRESS ON ALL LINES

INHABITANTS OF LOOS NOW IN THE PYRENEES

(By Associated Press.) Paris, Nov. 1.—The inhabitants of Loos, who have lived a year under German rule in spite of the British lines before the town was recaptured September 26th. have been transported to the Pyrenees to be sheltered there until their town, now under the continual fire of German batteries, become inhabitable again.

They brought with them copies of papers published by the German authorities in the French language in Belgium and circulated in Northern France in which there appear numerous advertisements that are occupying the attention of the French authorities on the supposition that they refer to war booty taken in France and Belgium and put on sale by the Germans.

One advertisement runs: "A thousand second-hand electric motors and dynamos for sale."

Among the others are the following: "Sensational offering of 3,500 machines, new or nearly new, at half their value, including crushers, rolling mills, mixers and hydraulic presses, pumps, steam boilers and locomotives."

"Selling out at factory prices 500 Jianos, first makes."

"One hundred and fifty thousand bottles of Champagne for sale at prices that defy competition."

The houses inserting these advertisements are said to be German firms that have established themselves in Brussels since the occupation.

GERMANS HAVE RECAPTURED TAPURE HILL

BRITISH HAVE JOINED THE ALLIES AND ARE FIGHTING THE BULGARIANS ACROSS FROM STRUMITZA

(By Associated Press.) Berlin, Nov. 1.—(Wireless)—Bulgarian artillery has advanced from Kniazevac and Pirov and began the bombardment of the outer forts of Nish, according to a Sofia dispatch given out by the Overseas Agency.

(By Associated Press.) London, Nov. 1.—The British in the Balkans, whose movements have been kept secret since they entered Saloniki, have now joined the allies and are fighting the Bulgarians just across from Strumitza. Though reports that the allies have taken the town are apparently untrue, it is along this lower stretch of the front that the Bulgarians are likely to feel the first hard blow. From Uskup north to Danube the Bulgarian offensive has made such progress that it seems a question if the Serbians will do much more than fight rearward actions for the present. In northeastern Serbia the Bulgarians are well across the Timok river and are pressing forward vigorously in order to widen the communication line with Hungary up the Danube.

The Russian expedition reported on its way to the Bulgarian coast is now estimated at 200,000 men, but it has not been heard from. There are recurrent reports of the bombardment of Bulgarian ports.

The British are showing increased activity at the Dardanelles.

The recapture of Tapure Hill by the Germans sums up the known result of the fighting in Champagne.

(By Associated Press.) Berlin, Nov. 1.—(Wireless) The French submarine Turquoise has been sunk by Turkish artillery according to a Turkish official Overseas Agency, which says that the crew was captured.

(By Associated Press.) Berlin, Nov. 1.—The Serbian town of Kragujevac has been taken by the Germans. A great Serbian arsenal is located there.

SUFFRAGE LEADERS PREDICT BIG MAJORITY IN NEW YORK

(By Associated Press.) New York, Nov. 1.—The Suffragists closed their campaign today. The leaders predict a big majority. The anti claim New York city will give 100,000 majority against woman suffrage.

ARIZ. ANTI-ALIEN LABOR LAW IS UNCONSTITUTIONAL

(By Associated Press.) Washington, Nov. 1.—The Arizona anti-alien labor law has been declared unconstitutional, by the supreme court.

is an endorsement of The St. Andrews News as the official organ of the fishermen, which indicates that the movement is not confined to any one section.

The Times-Democrat among many other things says of the organization meeting:

"Thomas Powell, president of the Fishermen's Union and Liberty League of Florida, has been placed under arrest for violating the fish law of the State and his will be made a test case to try the constitutionality of that law.

"The law as to certain parts is not objectionable, say the officers of the union, and they only wish the objectionable features tested.

"Attorney T. B. Ellis, Jr., of Gainesville, has charge of the case for the defendant.

"It was at first thought that the habeas corpus proceedings would be instituted and a hearing held before Judge Willis at Palatka, but now it seems the case will be carried direct to the Supreme Court at Tallahassee and will be heard on the 10th of November. The case will be watched with interest throughout the State.

"The Fishermen's Union and Liberty League of Florida was organized a few weeks ago at Cedar Key, which place will be headquarters for the organization for the present. The officers elected were: Thomas Powell, president, Cedar Key; F. E. Wadley, vice-president, Cedar Key; W. J. Walker, secretary-treasurer, Cedar Key.

IN NEW SUFFRAGE HAT

Miss Alberta Hill, a prominent suffrage worker of New York, wearing the new hat designed for the "votes for women" advocates. It is of felt, trimmed with a band of suffrage colors.
