

CALOMEL IS MERCURY, IT SICKENS! CLEAN LIVER AND BOWELS GENTLY

DON'T LOSE A DAY'S WORK! IF YOUR LIVER IS SLUGGISH OR BOWELS CONSTIPATED TAKE "DODSON'S LIVER TONE."

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all the things that come from a clogged-out liver. Your head is dull, your eyes are coated; breath bad; stomach and bowels constipated. But don't salivate over calomel. It makes you sick. You may lose a day's work. Calomel is mercury or quicksilver. It causes necrosis of the bones. It crumbles into sour bile like lime, breaking it up. That's why you feel that awful nausea and cramp-

back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you'll wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition. Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel. Your druggist will tell you that the sale of calomel is almost stopped entirely here. (Adv.)

ender ever known. If you have tried other things by the score and will now try "GETS-IT" you will realize this glorious fact. You probably are tired sticking on tape that won't stay stuck, plasters that shift themselves right onto your corn, contraptions that make a bundle of your toe and press right down on the corn. Put two drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Remember, We Are Still Selling Ice

In fact, we sell it the year round. In many lines of business and in not a few homes, ice has become indispensable in the cool and cold seasons as well as the warmer periods of the year.

At this time some of our customers in the homes are discontinuing the use of ice, but many others are going right along with their takings. They have found by experience that it pays to keep the refrigerator in commission all the time. And they are practicing true economy.

There is a way to get OUR ICE every day in the year. Don't forget that.
