ENFORCING NEUTRALITY.

SHANGHAI, August 22.—The foreign consuls conferred today regarding the enforcement of the neutrality of Chinese ports, growing out of the threat of the Japanese to attack the Russian cruiser Askold in the harbor. The matter was referred to their various governments for further orders. Admiral Sterling, the commander of the American Asiatic fleet, says that the movements of the United States torpedo-boat destroyer Chauncey in taking up a position near the Askold are not in connection with the arrival of the Japanese destroyer which took up a position close to the Russian vessel in this port.

MAKIKI QUARRY A FAILURE

WILL HAVE TO BE ABANDONED, AS THE STONE HAS NOT PROVED SATISFACTORY—GOVERNOR CARTER FINDS MUCH TO CRITICIZE IN THE GOVERNMENT LAUNDRY BUT MUCH TO PRAISE IN OTHER GOVERNMENT WORKS.

The Makiki quarry has turned out a failure and sooner or later will have to be abandoned. In the recent tour of inspection made by Governor Carter the quarry was one of the few matters that came in for criticism.

"The locating of the quarry was nobody's fault," said the governor. "There was every indication that there would be good stone there but as it has turned out the stone is not there. We only get about two per cent of rock out of it. The machinery will have to be moved to some other location in order for us to get value for its work."

The governor's trip was made in company with Superintendent of Public Works Holloway and Capt. Sam Johnson and was most satisfactory to him.

"I was not only surprised at the amount of work that has been done during my absence, but I was delighted," he said. "Every section of work that the department has undertaken has been characterized with a display of energy and economy that does the greatest credit to those in charge. The first

A Distinguished Japanese Visitor

Dr. Kitasato, the Japanese scientist who is on the Coptic on his way to America, will be entertained this evening at the Japanese consulate if the arrangements can be perfected in time. He will also be the guest of the Pacific Club, the Hawaiian Medical Association having asked the committee in charge of the reception to arrange for a visit there, for a short time at least. Members of the local medical profession of all nationalities are anxious to meet the distinguished visitor.

Dr. Kitasato is one of the greatest men in the world in his profession. His discoveries of the bacilli of tetanus and bubonic plague gave him the highest rank as a scientist, and his long service in the Institute for Infectious Disease, in Japan, have won the widest recognition. He is the founder

and director of the Imperial Hygienic Institute. It is said that Dr. Kitasato's institute supplies 10,000 bottles of serum every year for the Philippines.

Professor Hozumi, a noted Japanese lawyer, and former president of the University of Tokio, is also among the Coptic's passengers. He is a barrister of Great Britain. Professor Kikuchi, the third member of the party, is the present president of Tokio University. Invitations have been sent by a local committee consisting of Iga Mori, Consul Saito and Jukichi Uchida, to meet the visitors at the consulate, "five hours after the signalling of the Coptic," the program to be subject to modification according to the hour and the convenience of the visitors. The Japanese committee will arrange also for a meeting with the medical association at the Pacific Club, and will entertain the visitors at Mochisuki and in a drive about the island.

LAND FOR THE FORTS

FEDERAL GOVERNMENT, THE DO WSETT COMPANY, THROUGH THE B. F. DILLINGHAM COMPANY, AND A NUMBER OF OWNERS OF PEARL HARBOR LANDS AGREE ON TWO MILES OF SHORE LANDS.

Lieutenant Slattery, representing the War Department, has reached an understanding with the Dowsett Company and the holders of 17 lots at Pearl harbor regarding the terms on which the property will be sold to the federal government for forts. The land covered by the agreements extends for a distance of about two miles along the Ewa side of the entrance to Pearl harbor, the outer end being practically round the bend in the open sea. The negotiations were conducted by Lieutenant Slattery with the B. F. Dillingham company, which has had three other land deals with the federal government and has settled them all without condemnation suits. The figures at first named by the property owners did not meet with Slattery's views, but after discussion reductions were made and as matters now stand the government can take the property at an agreed figure, without any suit to condemn.

The new tract includes about 300 acres in all. It is farther out to sea than the lands condemned for a naval station. The owners of lots who are in the agreement, aside from the Dillingham Company are A. C. Lovokin, Mrs. E. B. Waterhouse, J. F. Morgan, A. M. Brown, C. F. Peterson, F. J. Church, Mrs. Blanche Walker, R. W. Atkinson, D. Howard Hitchcock.
