Fatigue AND Weakness

Yield to the Persuasive Powers of

Royal Malt Extract

Strength comes with the first bottle. You can sleep soundly after taking it. It lifts the system into a robust condition that defies the enervating heat of summer. If your appetite is poor this is the tonic you require. It tones the digestive apparatus.

Royal Malt Extract is mated from the finest barley and new hops and stands at the top of the list of malt extracts. One bottle will convince anyone of the claims we make. Try it.

COURT NOTES.
Judge Robinson will hear the Brash guardianship matter this afternoon.
Judge Estee will hold court at 2 o'clock this afternoon to consider applications for citizenship from persons who are not able to attend under ordinary circumstances during working hours.

CURED BY USE OF SOAP AND WATER

CHINESE PATIENT RELIEVED OF DREAD DISEASE BY QUALITY THAT IS AKIN TO GODDLINESS.

ST. LOUIS, September 26.—Cleanliness, in connection with mild medical treatment, seems to have succeeded in curing a well-defined case of leprosy. The patient is Dong Gong, a Chinese, who has been at quarantine under the care of Dr. M. C. Woodruff since November 1, 1901. The man has so much improved that the physician has recommended his discharge as cured, and that he be sent back to his home in China, as he desires. It is probable that this will be done after a little further observation to make sure that there is no danger of a recurrence of unfavorable symptoms.

Dong Gong kept a laundry on Easton avenue until last fall, when he appeared at the office of Dr. Engleman and said he was ill. After a brief examination the doctor decided his visitor was afflicted with leprosy, and notified the city authorities. Dong Gong was detained for a few days in a temporary isolation ward in the old City Hall while his case was under observation.

Then the question of caring properly for Dong Gong arose. After much trouble the Health Department employed a volunteer physician, Dr. Louis Knapp, who wished to observe the case to take care of the patient.

Dong Gong's condition began to improve noticeably soon after he first became a charge of the city. From the beginning absolute cleanliness was instituted on by the doctors. As Chinese go, Dong Gong was already a neat person, but he became immaculate under strenuous exertions by the doctors. He had enough to eat, and meat was on his bill of fare every day. At first his appetite, unaccustomed to abundant food, was not large, according to American standards, but he learned rapidly to make away with three square meals a day and sometimes call for more. He was not stuffed, but his food was abundant, well cooked and of the best quality.

Meantime Dr. Woodruff was witnessing the progress of the case with the greatest care. "Keep clean," was the doctor's daily admonition to Dong Gong. The Celestial would thereupon "wash" as he had never done before. Besides this treatment, Dr. Woodruff administered such remedies as are ordinarily given in cases of grave skin diseases, a gentle tonic among other things.

Last spring Dr. Woodruff announced that his patient was already much improved, and the summer, with its favorable weather, has practically completed the cure which a year ago seemed utterly impossible.

Dr. Woodruff reported to the Board of Health this week that Dong Gong could safely be called cured and advised that he be discharged. Health Commissioner Starkloff requested Chief Dispensary Physician G. A. Jordan and Dr. Engleman, who first diagnosed the case, to make an examination and report.

Dr. Jordan said today: "All the lesions made by the disease had disappeared a month ago, except on one of the patient's hands and a pimple or two on his cheek. The patient's recovery seems speedy, it is true, but when the hygienic conditions under which the treatment has been administered are considered it is not impossible. The environment has undoubtedly contributed to the favorable turn in the case as much as anything. We shall make another examination of the patient in a few days, and if his condition is as reported by Dr. Woodruff, Dong Gong will be released. I understand he will return to China at once."

WHARF WASHED DOWN.
What might have proved a fatal accident occurred at Paipaikou last Monday when a temporary wharf was smashed down by the heavy sea and about 15 natives and Japanese were precipitated into the water. News of the accident was brought this morning by Captain Nicholson of the steamer Helene which arrived from Paipaikou and other Hawaii ports.

The Helene was engaged in taking some very heavy machinery from the Paipaikou mill to bring the steamer to Honolulu to be repaired. A temporary wharf about 50 feet in length, had been built out along the creek in order to get the heavy rollers and shafts out to where the boats of the Helene lay. Several heavy shafts were transferred from the wharf to one of the boats and been taken out to the Helene and landed without mishap. The rollers weighed about 19½ tons each and the shafts about 3 tons each.

On the small wharf were 2 shafts and one roller that were still to be taken out to the steamer. The sea was running very heavily at the time and the work was quite risky at best. Suddenly a couple of heavy seas swept in, followed by a much larger wave and the wharf was washed away. There were about fifteen sailors and stevedores at work on the wharf at the time and for an instant, it looked as if some of them could not escape being crushed under the shafts and roller which were started in motion. One of the Japanese was caught by a shaft and badly pinched but he was extricated in time to avoid being carried into the water and pinned down by the roller.

The roller and shafts were subsequently gotten out of the water by Captain Nicholson however and brought to Honolulu.

CALL RETURNED.
A. G. Hawes, Jr., the governor's private secretary, this morning returned, on behalf of the governor, the official call of Captain von Burski of the German cruiser Cormoran.

HELENE BRINGS BIG CARGO.
The steamer Helene, Captain Nicholson, arrived this morning from Hilo and Hawaii ports. She brought a big cargo. From Kawaihae was brought 247 bales of wool, and about 50 head of cattle. From Hilo 75 casks of coffee were brought and from Laupahoehoe came 300 bags of coffee. The sugar brought by the Helene consisted of 2,232 bags from Paipaikou. Four 10½ ton rollers and 5 3-ton shafts were brought from Paipaikou mill to be repaired. The sugar is being discharged into the barkentine Planter which will sail next week for San Francisco.

SUGAR ON HAWAII.
Admiral Beekley, purser of the steamer Claudine which arrived today from her Hilo and way port run, furnished the following report of the sugar on hand at the various Hawaii plantations:

Olaa, 1200; Waiakoa, 3900; Hawaii Mill, none; Wainaku, 10,200; Onoonea, none; Peapekeo, none; Honomu, none; Hakaluu, none; Laupahoehoe, none; Ookala, none; Kukaiuu, 300; Hanakua, none; Paauhau, none; Honokaa, 50; Kukuihaele, 100; Punaluu, none; Honuaipo, 4,600.

ENGAGEMENT ANNOUNCED.
Mr. and Mrs. Frank E. Nichols, of Pacific Heights, announce the engagement of their daughter Evelyn to Mr. N. John Simonds, of Kansas City, Mo. In speaking of the engagement the Kansas City World says: "The forth-coming marriage of N. Simonds, son of Colonel N. P. Simonds of the board of trade, was announced today. Mr. Simonds will be married in November to Miss Evelyn B. Nichols of Honolulu, daughter of Mr. and Mrs. Frank Nichols formerly of San Francisco. Miss Nichols has been visiting in Kansas City for some time. The wedding will take place at the home of Mr. and Mrs. C. W. Jenkins, 2117 Brooklyn avenue. The bride's father is engaged in the music business in Honolulu."

AVERY HAS RESIGNED.
Assistant Secretary Withdraws and Closes Incident.

J. D. Avery has resigned from the position of assistant secretary to the Republican central committee. The letter of resignation was sent in yesterday evening and will be accepted. Mr. Avery gives as his reason his acceptance of a position in the Federal court which renders it impossible for him to hold down both jobs. The vexed question of Avery's being forced from his position is definitely settled by his resignation.

The fourth district, while there are many claimants who have not registered, is apparently trying to make up for lost time. Seventy six registered yesterday and efforts are being made to bring the missing sheets to the electoral fold. Prince Kuhio was expected back this morning on the Claudine at headquarters.

W. L. Howard administrator with will annexed the estate of August Kraft has petitioned the Circuit court for leave to make partial distribution and for a commission to issue to J. H. Judge of New York city to take the testimony of legatees. The administrator says that as required by the will he advertised the property at the north corner of Lunalilo and Kewalo streets, and put it up for sale at auction at three separate times at an upset price of \$16,000; but that no adequate bids were received. He says he believes "that the times in Honolulu have been so hard * * * that an adequate price can not be obtained for the said lot if now put at auction." He thinks it would be better to wait "till more prosperous times in Honolulu. The claimants under the will are all non-residents of Hawaii. P. L. Weaver is attorney for the administrator.

HAD NARROW ESCAPE.
Metal-Roofed From Honolulu Falls From Roof.

John Clark, a sheet-metal worker, recently employed on the Young building in this city, had a narrow escape at San Francisco on Sept. 21st. He was working on the roof of the Mutual Savings Bank building, lost his balance and slipped off the roof. His fellow workmen were horrified for the moment, as it appeared inevitable that Clark should fall the distance of twelve stories and be dashed to pieces on the pavement below.

Clark, however, struck on the projecting ledge of a dormer window, at the tenth story and lay there stunned by the fall of twenty feet. From this position he was speedily taken by his comrades, who then lowered him to the sidewalk by means of a rope. Clark was removed to the Keeling Hospital, where it was found that he had sustained a slight concussion of the brain, a badly lacerated scalp and a number of contusions of the body. Clark is an employee of the firm of Conlan & Roberts, metal roofers.

WHARF WASHED DOWN.
What might have proved a fatal accident occurred at Paipaikou last Monday when a temporary wharf was smashed down by the heavy sea and about 15 natives and Japanese were precipitated into the water. News of the accident was brought this morning by Captain Nicholson of the steamer Helene which arrived from Paipaikou and other Hawaii ports.

The Helene was engaged in taking some very heavy machinery from the Paipaikou mill to bring the steamer to Honolulu to be repaired. A temporary wharf about 50 feet in length, had been built out along the creek in order to get the heavy rollers and shafts out to where the boats of the Helene lay. Several heavy shafts were transferred from the wharf to one of the boats and been taken out to the Helene and landed without mishap. The rollers weighed about 19½ tons each and the shafts about 3 tons each.

On the small wharf were 2 shafts and one roller that were still to be taken out to the steamer. The sea was running very heavily at the time and the work was quite risky at best. Suddenly a couple of heavy seas swept in, followed by a much larger wave and the wharf was washed away. There were about fifteen sailors and stevedores at work on the wharf at the time and for an instant, it looked as if some of them could not escape being crushed under the shafts and roller which were started in motion. One of the Japanese was caught by a shaft and badly pinched but he was extricated in time to avoid being carried into the water and pinned down by the roller.

The roller and shafts were subsequently gotten out of the water by Captain Nicholson however and brought to Honolulu.

THE LAST DAY.
This is the last day for filing nominations for the legislature from the other islands.

WHOSE FAULT IS IT?
The world is full of disease and pain. Whose fault is it? Everybody's; therefore often the fault of the sufferers themselves. But the pressing question is,—what to do, how to relieve, how to cure. What would become of us if means were not found to destroy disease? Why, then, of course, disease would destroy us and the world would be depopulated. Until we learn how to prevent disease, we must be thankful for the means of abating and curing it after it has seized upon us, and stand, like a savage with uplifted axe, ready to take our lives. Especially do we need some sure and speedy form of treatment for those complaints which are universal,—which arise in every country and climate. We allude to such ailments as Nervous and General Debility, Hysteria, Scrofula, Chronic Diarrhea, Asthma, Throat and Lung Complaints, Blood Impurities, and the ills of women and children. For these

WAMPOLE'S PREPARATION comes as near to being an actual specific as any medicine yet discovered. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. You may almost say that it is life itself embodied in a single article made by human hands. Dr. J. L. Carrick says: "I have had remarkable success with it in the treatment of Consumption, Chronic Bronchitis, Catarrh and Scrofulous Affections. It is of special value in nervous prostration and depraved nutrition. It stimulates the appetite and the digestion, promotes assimilation, and enters directly into the circulation with the food. I consider it a marvelous success in medicine." Every dose effective. "It cannot disappoint." Sold by all chemists.

COLBURN FORGOT ALL ABOUT IT

REASON HE GIVES IN AN AFFIDAVIT FOR ASKING A DEFAULT TO BE SET ASIDE.

The Kapiolani Estate has filed a motion to set aside the default and vacate the judgment entered against it at the suit of M. S. Grinbaum & Company, the judgment being for \$1002.35. The motion is based on the records of the case and an affidavit of John F. Colburn in which he says he is the treasurer and one of the directors of the Kapiolani Estate, "that immediately upon the service upon him, as such treasurer, of said defendant, to wit, on or about the 12th day of September, A. D. 1902, this deponent placed the copy of summons and complaint which had been served upon him, in a certain box within his office where it was then and has since his habit and custom to place papers relating to suits in court wherein said defendant is a party in interest. That in so placing said papers this deponent expected and intended to hand the same without delay to the attorney for said estate whom he had determined upon to represent defendant in this action, to wit: C. W. Ashford, Esquire, a practitioner of this court; but that deponent entirely and absolutely forgot the subject of said papers and of said action, until the 3rd day of October, A. D. 1902; and that deponent's attention was, on said 3rd day of October, first called to said papers and the subject of said suit, (after said 12th day of September, A. D. 1902), and that said subject was first, after said last mentioned date, recalled to the memory of this deponent, by one of the clerks in the office of said defendant, who then and there, to wit, on said 24th day of October, reported to this deponent that defendant's default had been entered in said action, * * * and that deponent's entire forgetfulness of the fact of the bringing of said action is the sole reason for the failure of said defendant to appear and answer the same prior to the return day of the summons herein."

ARRIVE WITH SUGAR.
SAN FRANCISCO, Sept. 26.—The oil-burning steamer Nevada arrived from Honolulu today with 22,200 sacks of sugar and 444 bunches of bananas. The low pressure burners used by the vessel worked satisfactorily.

With 14,000 sacks of sugar, the bark Roderick Dhu arrived from Hilo, and reports having encountered a heavy northwest gale off port last night.
