## SEEK WATSON FOR FREAR'S JOB NOT AFTER IT, SAYS ATTORNEY

Would Consider It Greatest Honor That Could Come to Him  
HAS NOT SOUGHT AND WILL NOT SEEK ENDORSEMENTS  
Says 'His Health Is Growing Better Fast—Will Be Out January First'

Should the Democratic administration, when it takes hold in Washington, decide upon my name for the governorship, I should consider it the greatest honor that could be conferred upon any man in the territory.

Steadily growing in size in the shadow which E. M. Watson is casting upon the gubernatorial aspirations of followers of Link McCandless and G. J. Walker, who hope to see their man selected by the incoming administration in Washington, for the vacancy that may be caused by the departure of Walter F. Frear from his room in the palace. Friends of the attorney have been working hard in his behalf and it is pointed out that Mr. Watson commends the respect and support of the best element in both parties in the territory.

Mr. Watson himself declines to make any definite statement regarding his attitude toward the office, wishes, or his plans. All that he will say is that he has not and will not make any effort to secure "endorsements" locally for the place.

When asked for a statement regarding the gubernatorial race at first refused, but finally authorized the following:

Demographic gossip is busy with alleged element of support for Gilbert J. Walker that apparently has been generally overlooked. That of the powerful Parker ranch and Walker's personal business, as well as the personal support the Parker ranch management is said to lend him in giving it is reported that Walker will get strong backing from A. W. Cannon and others. Some of the Democrats also claim that Walker is favored by S. W. Damon.

Backers of McCandless were elated Saturday night when J. M. Poole came out in support of McCandless. Poole has been figured as a Walker man, and was believed to speak for a considerable element among the Hawaiians, but at the rally and inquest at Ala park he declared himself in favor of Link.

## LOCAL CHINESE HEAR TALK ON 'YOUNG CHINA'

Chai Yen Lok, a young Chinese student, who for the past four months has been traveling in Europe and the United States gathering data for the establishment of various Christian institutions in China, gave an address before the United Chinese Society last night and spoke upon the subject of "Young China."

Lok was sent to the United States by the Canton Christian Association for the purpose of gathering information concerning the work and the establishing of Christian institutions, such as the Young Men's Christian Association and other organizations for the welfare of young men. In his talk, he laid special stress on the necessity of the young Chinese taking up Christianity, and he made it clear that in the new Republic of China that this form of religion would be the leading one. He leaves for the Orient on the next steamer to make his report.

## ARMY OFFICER IS INJURED BY FALLING HORSE

Captain Duncan Elliott, Fifth Cavalry, lies in a critical condition at the new hospital at Schofield Barracks, suffering from serious injuries incurred by a fall from his horse. One shoulder blade is broken, the officer's head is laid open from a kick, and internal injuries are feared.

Captain Elliott was schooling his horse at a 5-foot jump when the accident occurred. Just what the circumstances of the fall were is somewhat indefinite, as he was alone at the time, but it is surmised that the animal caught the top bar and went down, rolling on Captain Elliott and kicking him in his struggles to regain his feet.

As soon as the accident was discovered the post auto ambulance was dispatched to the scene, and Captain Elliott hurried to medical assistance. It will be some days before his chances for complete recovery will be known.

## TO DISCUSS PLAN FOR PRISON TODAY

A conference on the plans for the new prison will be held this afternoon at the office of the Governor, at which will be present, besides the Chief Executive, High Sheriff Henry, Architect Ripley, Superintendent H. K. Bishop, of the Department of Public Works, and Attorney General Landis.

W. F. Babutt, who is well acquainted with the plan on which the famous Billid prison, at Manila, P. I., were constructed, also will be present in an advisory capacity. The proposed territorial prison will be modeled largely after the Billid structure.

## WILSON MAKES STATEMENT ON SUGAR TARIFF

(By Federal Wireless)  
SAN FRANCISCO, Cal., Nov. 16.—To Henry Waterhouse, Trust Co., Honolulu: Better feeling here on account of conservative statement of Wilson on the tariff.

## SYMPHONY CONCERT TO BEGIN AT 8.15

Announcement was made this morning by President W. A. Love of the Honolulu Symphony Orchestra Society that the opening concert of the season tomorrow night at the Hawaiian Opera House will begin promptly at 8:15 o'clock. Mrs. Charles L. Hall is the soloist and the orchestra has prepared an unusually attractive list of numbers for its own rendition.

The social workers of the city held a meeting last Thursday night at the Palama Settlement at which a new set of by-laws was adopted and arrangements and plans for improving the social condition of Honolulu.

## MAY NOW FLASH WORD TO COAST BY DAY WIRELESS

Last Saturday afternoon was history making in wireless communication between Hawaii and the mainland. Following close on the establishment of subrods and regular wireless communication by the Federal Wireless Telegraph company, the same company accomplished the second of its splendid feats on Saturday afternoon when for the first time continuous wireless messages were interchanged with the Coast during daylight hours.

The first day messages from Honolulu to the mainland were sent to the Star-Bulletin. Regular communication was assured shortly after the Star-Bulletin went to press in the afternoon.

Earlier in the day it was practically certain that the Federal Wireless company, using the Pribben equipment from its big station at Hecla, would establish communication with the Coast. John G. McCloskey, who has been local manager of the Federal company since it began business here, promised the Star-Bulletin that he would have the day wireless going on Saturday and he made good, the actual communication of the test coming just too late in the afternoon for this paper to announce it.

As soon as it was certain that communication was established, the messages began to sing across the twenty-one hundred miles of space, carried on the mysterious waves, whose exact nature no scientist has yet been able to fathom. Newspapers exchanged hearty greetings, public officials shook hands, and it figuratively speaking, in congratulation over the feat, and business men began to make arrangements to send their messages by day wireless.

The Star-Bulletin sent its first day message from Hawaii to the Coast, telegraphing messages to the San Francisco Call and the Seattle Post-Intelligencer. The first day message sent to Mr. W. Chapin, who recently took the reins of management of the San Francisco Call and whose advent in California journalism has been the event of the fall. To him the Star-Bulletin said:

Honolulu, T. H., Nov. 16, 1913.  
W. W. Chapin, publisher, Call, San Francisco.  
The Honolulu Star-Bulletin sends greetings from the people of Hawaii to the people of California by Federal Wireless telegraph. In the first day message flashed across the Pacific. An epoch in aerial communication is marked; superhuman difficulties have been overcome, and we congratulate you upon holding one end of the chain that links us together.

(Signed) RILEY H. ALLEN, Editor Honolulu Star-Bulletin.

In reply came the following from Mr. Chapin:  
Riley H. Allen, editor Star-Bulletin, Honolulu.  
The San Francisco Call returns greetings from the people of California to their fellow-citizens of the Hawaiian Islands by Federal Wireless and makes of the Star-Bulletin our next-door neighbor. It is difficult to conceive of a greater achievement. We thank you for your first day message to us by wireless.

(Signed) W. W. CHAPIN, Greeting Northwest.

## Sec. Fisher To Boost Hawaii Separate Report On Territory

One Result of Trip Will Be Long Document on Desirability for Residence  
By C. S. ALBERT  
(Special Star-Bulletin Correspondence)

WASHINGTON, D. C., Nov. 6.—The territory of Hawaii is to be given a comprehensive endorsement by Secretary Fisher, of the interior department. He will strongly recommend the islands as a desirable place of residence for the farmer and the businessman. He will comment with much detail on the delights of climate and products found in the territory.

Secretary Fisher is formulating an elaborate report, based on his recent visit to Hawaii. It is separate and aside from his formal communication to the president, approving the reappointment of Governor Frear, and exculpating him from all charges filed against him by Delegate Kahanalanaole and others. This report will go fully into conditions prevailing in the islands, their availability for agricultural

## FREAR'S PLAN WOULDN'T PUT BOURBONS OUT

Governor Explains Idea on Commission Government for Honolulu

LEGISLATURE WOULD DECIDE EXACT DATE  
Present City Officials Could Hold Office Either to July, 1914, or '15

In endorsing the commission form of government for Honolulu and recommending legislative action on the subject at the approaching session of the Legislature, Governor Frear has no intention of deliberately interfering with or cutting short the term of the new municipal Democratic administration.

Such was his expression today. It is expected to clear up a doubt that has arisen in the minds of local Democrats and to result in the endorsement of the Governor's idea by a large number of the leaders of the Democratic party.

There is one feature of the idea, however, that he desires more clear. He will also recommend, in his message to the Legislature, a change in the fiscal year of the municipal government, so that it will correspond with the Territory's fiscal year, which begins July 1. If this change is made, it would take effect in the middle of the present fiscal year of the city, and for that reason the incoming administration would be required to hold office only one year and six months, or six months less than the period for which it has been elected, or to serve two years and six months, or six months longer than the ordinary term of office.

Now Change Would Work.  
For instance, the new administration will take office January 9, 1913, and ordinarily would serve until January, 1915. If the Governor's suggestion for altering the city's fiscal year is adopted, the next administration would be chosen at a separate election, held some time in the spring, and the officials thus chosen would take effect July 1, following the election. Therefore, it would be up to the Legislature to decide, in making this change in the city charter, to determine whether the next set of municipal officials should take office July 1, 1914, or on July 1, 1915.

Governor Frear asserts that he has no preference at present, as to whether the incoming set of city officials should serve for the short or the long term, and says that remains to be decided only after many conferences have been held by those interested in framing and passing the proposed measure, particularly the legislators themselves.

Bill Not Drafted.  
This is a detail to which he has not given much attention to date most of his study being given to the broader aspect of the commission system. He is devoting much time to the review of the documents on the subject, which have been placed at his disposal, and has not yet attempted to draft a tentative bill on any of the governmental aspects that he intends recommending in his message.

He did declare today, however, that he believes such bills should be drafted as soon as possible, that they may be given wide circulation and publicity, making the people thoroughly acquainted with the changes they propose and enable wide discussion before the legislature is asked to take action upon them.

Correcting the misconception and (Continued from Page 4)

## TURKS REPULSE THE BULGARIANS HOLD FAST LAST LINE OF DEFENSE

## ARMY TEAMSTERS HAD BETTER ENLIST

Quartermaster Corps to Become Non-Civilian Through-out and Employees Who Hold Out Are Likely To Be Jobless

Since the organization of the new quartermaster corps of the army, civilian employees in the Department of Hawaii have been wondering when and where the ax would fall, and whether their places were to be taken by enlisted men. The consolidation of the staff corps took effect November 1, but the order regulating the personnel has just been received by Major B. Frank Cheatham, chief quartermaster. A study of the order indicates that there will be no change in the status of the classified employees, including clerks, messengers, etc., but that the teamsters, blacksmiths, ferrisiers and laborers who come under the unclassified list will have to regularly enlist, or take chances of losing their jobs. About 100 are affected in Hawaii.

Employees chiefly affected by this change are the teamsters. Those over forty-five years of age may not enlist, but will be retained in service. Those under forty-five years of age must either enlist or run the risk of having their places filled with enlisted men. Means Lower Wage.  
Most of these teamsters now receive \$40 a month. They will be replaced with private, first class, who receive \$18 a month, with ration fuel, light, and clothing allowances. Medical attention, insurance against disability, and retired pay after thirty years service are other advantages held out to men to cause them to enlist.

The allowances, outside of medical attention, amount to about \$15 a month. This, with the first class private pay, makes a total of \$33 as against the \$40 teamsters are now receiving.

At first blush this does not look like a good proposition for the unclassified employe, but army officers assert that it is one of the paradoxes of the army that a teamster on \$40 a month will be "broke" at the end of the month while if he receives \$18 and (Continued on page Two.)

## Beat Back Assault Upon Tehatalja, Capture Eight Thousand Prisoners, and Eight Cannon—Greeks Victors In Hard Fight At Monastir—Thousand Daily Victims Of Cholera And Typhoid In The Ottoman Capital

(Associated Press Cable)

CONSTANTINOPLE, November 13.—Three columns of Bulgarian made a desperate assault on the fortified town of Tehatalja early this morning, and after hours of fighting were repulsed, and a much heavier loss in killed and wounded.

Greeks again the Turkish artillery, for a time the job of the broke up the attack, which at the instant promised success to the anti. The Bulgarian guns were well served, but were unable to get the range of the Turkish troops, or to do any damage of exception. The Turkish artillery, however, had all the range of and fired from concealed positions at a known range, and that when the flight of the Bulgarian soldiers came the position was fought.

Hardly had the word of the victory at Tehatalja reached the headquarters when the news of the fall of Monastir passed on to the excitement that had been felt over the reports from the front of defense, of which Tehatalja was the key.

According to the reports from Monastir, the Greeks and the Bulgarians captured the garrison of fifty thousand men, their guns and an immense quantity of munitions of war, after desperate fighting. The garrison was disorganized, more than half starved and weakened by the loss of the allies is said to have been heavy.

The cholera situation here is growing more daily. The cause is to the government's failure that at least five hundred cases are reported each day, and that the hospital is nearly full, and that during a week of the patients who are not cured, and the bodies being dragged to great distances, and buried in all directions.

## Turk Appeals for

(Associated Press Cable)

LONDON, November 13.—With the Turkish ambassador in Constantinople, for an armistice, it is believed, will not interfere.

## Undermines Bahadur Trust

(Associated Press Cable)

WASHINGTON, D. C., November 13.—The United States Supreme Court this morning handed down a decision, which would seem to undermine the Bahadur trust, which was organized under which the Bahadur trust was organized and has been operating. It is believed that this will result in the dissolution of the trust.

## RIVAL WINGS OF THE G. O. P. TO GET TOGETHER IN LEGISLATURE

Statements from the two wings of the Republican party organization in the Territory this morning indicate that in the beginning at least, harmony and a certain amount of good will is to prevail in the party's work in the legislature.

The Republican party's steering committee has announced it will work for the things it intend to recommend, and that it will co-operate with the Democratic party. "And I am going to co-operate amicably with the committee. We both want virtually the same legislation."

"We are going to work with the Governor," stated Robert W. Breckons, who holds the proxy of Stephen Desha as a member of the steering committee. "Despite the apparent Democratic tendency of the latter, here on the mainland, it must not be forgotten that we still have the influence of power in the Territorial legislature. We can get along nicely with the Governor and will have the party's co-operation in every way."

Just what the committee's line of action is to be, or what measures will take up first in the next session, is not yet determined. A meeting is to be held the latter part of the present week, to begin with general plans. H. L. Hooper is expected to come to Honolulu early in the week, to attend this meeting, and it probably will remain here indefinitely, adding in preparing the committee work.

presentative from the Fifth district, gives just one item in his account. That is \$125, which has been contributed to the Republican campaign fund on Maui. Other accounts from this morning are:

Henry Puni, for Representative from the Fifth District, \$41; James K. Latta, for Representative from the Sixth, \$25; Samuel K. Kekoa, for Representative from the Third, \$35; John N. Halemano, for Representative from the Third, \$35; Cassar H. Judd, for Representative from the Sixth, \$23; S. Kaliafa, for Representative from the Sixth, \$48.50; Edwin K. Fernandez, for Representative from the Fifth, \$152.50.

## CONFERENCE ON EUGENICS TONIGHT

What is said to be the first conference of its kind ever held in the territory is to take place in Cooke Hall, Y. M. C. A. building tonight. It is a conference on eugenics, the science of race improvement, and Judge Sanford B. Dole is to preside. The conference has been arranged by Ulrich Thompson of the Kapehameha school, and several short papers are to be read by prominent citizens.

## SOCIALIST CANDIDATE SPENDS LITTLE MONEY

Nine more candidates for Territorial office filed their campaign expense accounts in the office of the Territorial Secretary this morning. One of these is Byron O. Clark, the Socialist candidate for Delegate, whose expense was probably the smallest of any recorded following the last election. He explains that the Socialist party does not permit its candidates to spend their own money in a campaign, and therefore his sole expenditure was \$5, for announcing his candidacy in the newspapers. His nomination fee was paid by the party. George P. Coke, candidate for re-

The executors of the estate of the late Hugh E. McFadyen, having announced the terms in favor of Samuel A. Walker, the latter has filed a bond in the sum of \$40,000 with the National Surety Co. as surety. The bond was issued by the Hawaiian Trust Co., Ltd., by William F. Gaynor and L. Abrams, attorneys-in-fact.

The following bids for the construction of the Lahaina school were opened by the superintendent of public works last Saturday: Henry DeFries, \$22,580 for the entire job; Freitas & Fernandes, \$23,785 for the entire job; DeFries, \$15,885 for the dormitory and \$7,211 for the kitchen and dining building; Freitas & Fernandes, \$15,415 for the dormitory and \$7,200 for the kitchen and dining hall.
