## MEMORIAL TO MRS. CASTLE TAKING SHAPE

For some time there has been talk of bettering the conditions in the tenements, but until recently nothing definite had been done. Now there is one group of cottages which are being put up as a memorial to Mrs. S. N. Castle.

They are to be called Exeter Cottages, for it was at Exeter, New York, that Mrs. Castle spent the early years of her life. The grounds back of the Y. W. C. A. Homestead on Hotel street have been donated by Mr. William R. Castle and the expenditure for the houses is being made from the Mary Castle Trust. The idea of putting up these cottages is to provide a good, healthy home for respectable Hawaiians of the working class.

The buildings, three of which have already been completed, are two stories high and are large enough to accommodate two families who will be entirely independent of one another. The rental will not be very high, but the family occupying the lower story will be under slightly heavier expenses than will the family occupying the upper section. As soon as possible the other eight cottages that have been planned will be built and offered for rent.

The grounds on which these houses are being built are spacious and at present the idea is to have a large court yard at the back which will be used for a playground for the children of the families occupying them. Landscape gardening is also to be encouraged among the residents and it is hoped that those who are promoting this work will receive the cooperation of the tenants.

These cottages will be conducted in connection with Palama Settlement and will be under the supervision of the Y. W. C. A.

## "REFORM" FOR WOMAN'S CLUB ON MAINLAND

A movement for the reformation of the club woman is said by those who keep somewhat ahead of current events to be the latest thing in sociology, though as yet the matter is hardly more than a rumor, and the details have not been given out.

While it is not perfectly clear from whom such details will proceed when they do become part of the history of the social scheme as it is found here, it is understood that the plan originated with those who have heretofore been the beneficiaries of the club women, and who therefore have been so much influenced for good that they themselves have become animated with a desire to uplift, and in seeking material upon which to operate have selected the club woman herself, and

**SLEEP-WALKERS.**  
The reason many persons walk in their sleep, says the Kansas City Times, is because one part of the mind is wide awake when the other is asleep. But the curious thing about sleep-walking is just because the walker is asleep and not conscious he can walk over dangerous spots which would probably cause him to fall through nervousness, if he were wide awake. But as he is not awake, and not conscious, he generally walks safely and remembers nothing about it.
