Isenberg in the project.

BATTELLE TEST IS ENCOURAGING

A report on the Battelle process ex-
periments at Ewa plantation has just
been made by Charles F. Eckart, di-
rector of the planters' experiment
station, to the committee on manufac-
tures of the association. Elmer E.
Paxton, a member of the committee,
said this morning that it would be
premature to have the report publish-
ed at this stage.

"It is only a preliminary report,"
Mr. Paxton observed, "as the experi-
ments have not been exhaustive. The
experimental plant for testing the
process has only had a run of about
two months, and the director would
hardly like to have the incomplete
findings published.

"The report is very encouraging
but not conclusive," said Mr. Paxton.
Asked if it was encouraging on all
points, Mr. Paxton replied in effect
that it was too soon to say whether
or not. It will be remembered that
there are two phases of the process
—one relating to extraction and the
other to the turning out of white sug-
ar.

"Yes, the experiments will be con-
tinued with the grinding of the new
crop," Mr. Paxton responded to an-
other question.

RAW SUGAR HOLDERS ARE ASKING 4.30.

Following the cablegram printed in
yesterday's issue, Alexander & Bald-
win, Ltd., received this additional one
from New York:
"Texan arrived yesterday, basis
4.30, being last half of the Virginian's
cargo. Holders of raws are asking
4.36. Refiners are bidding 12 cents
less than holders are asking."

Anyway, a rolling stone is a smooth
proposition.
