The Knocker is Dead! The Hammer is Buried!

THE AD CLUB HAVE GONE; THE SOLDIERS HAVE GONE; THEY BOTH HAVE WENT. Both say they had a splendidous time; and so they did.

But the same scenery, the same weather, the same precipices, waterfalls, tree ferns and volcanoes are still here, at your service, for little money and less effort. Railroads and autos take you anywhere. Hilo and vicinity has more varied and spectacular scenery per square foot than any equal area on God's footstool.

Ask any member of the Ad Club or of Co. D, First Infantry, for particulars.

John Lind "Plain Spoken Swede"

John Lind, President Wilson's confidential envoy to Mexico, is said to be just as plain as his name. Out in social envoy to Mexico, is said to be just as plain as his name. Out in social envoy to Mexico, is said to be just as plain as his name. Out in social envoy to Mexico, is said to be just as plain as his name.

JOHN LIND.

From 1881 to 1885 he held his first political office, receiver at the land office in Tracy, Minn. In 1887, two years after he quit the land office, he was elected to congress. By this time he had been pretty well over the state and had lived and worked in half a dozen places. Minnesotans in goodly numbers knew John Lind for a calm, self-contained, capable, good-hearted lawyer who never beat about the bush, and who usually managed to call the other fellow's bluff.

and the Odin club. And also the Congressman and ex-Governor had made himself a very cheerful home indeed at 1715 Colfax avenue, Minneapolis, a home furnished with Mrs. Lind and young Linds, and a pleasant resort after a hard day at the office in the New York Life Building. So there you have the outline of John Lind's career—plain, severe, candid, and yet inspiring in its record of reserved achievement.

John Lind himself gave out a little statement to the same effect, and then to escape being pestered went into the woods for a day or two. Within a week he had sailed for Alaska without once looking Minneapolisward. Back home they couldn't understand that is the politicians couldn't. Running around in narrow circles, they said John Lind was merely tired and out of sorts and would come back from Alaska refreshed and reinstated for a short run and a long term.

'MOVIES' USED TO SHOW THE PACKARD

To represent the industrial growth of Greater Detroit, a mass picture of 7,000 employes of the Packard Motor Car Company is included in an educational film being prepared under the direction of the Detroit board of commerce. In order to permit taking the picture on the company's time, the Packard officials advanced the regular Saturday closing hour by twenty minutes. This time cost the company \$2,000 in round figures without taking into account the value of the time lost in the course of making preparations. Approximately 300 foremen and department heads were notified of the plans and given detailed instructions. The camera was focused from a raised platform thus giving an excellent view of the mass of workers as they poured from the factory. When thrown upon the screen the picture will show the moving mass in the immediate foreground with a background formed by a building 640 feet long, one of thirty structures which make up the Packard plant.

Ayer's Hair Vigor

Stops falling hair. No mistake about this. Use it, and you will be greatly pleased with its prompt action. It also cleanses the scalp, and prevents the formation of dandruff. It improves nutrition of hair-bulbs, making them produce a luxuriant growth, and it gives a fine, soft finish to the hair. Never colors the hair. Ask your doctor and do as he says. To have beautiful hair, the general health must be good. Keep the blood pure and rich, and have the nerves strong and steady. Ayer's Sarsaparilla will certainly do all this for you.
