WEDNESDAY JUNE 19, 1912

When I want to speak, let me think first: Is it true? kind? Is it necessary? If not, let it be left unsaid.—Malibie D. Babcock.

## HAWAII'S FIRST VOTE.

Hawaii's vote for McGovern, the Roosevelt candidate for temporary chairman of the National Republican convention is very evidently a play in the political game.

Coming, as it did, after the election of Senator Root was assured, makes highly probable the explanation that it was a move intended to be good political strategy.

A few days ago the cables from Mr. Atkinson referred to the excitement of the California delegation in consequence of the delegates from the outlying possessions voting so solidly for Taft, and, in the heat of debate, we were told there was talk of reprisals. So it may be that after seeing that the Taft candidate for temporary chairman was safe, the Hawaii delegation swung into line with California to preserve appearances. Though when one thinks it over, such an action seems weak and not likely to fool anyone.

Also, a day or two ago, the Associated Press cables had reference to a possible bolt of Governor Frear and the Hawaii delegation from Taft to Roosevelt forces. This was promptly denied, as was to be expected. The delegates have their instructions.

It is possible that the Governorship politics enters into the matter, and the Governor and his associates are trying to throw a scare into the Taft camp by giving the appearance of jumping off the band wagon once in a while just to show their independence.

So far as Governorship politics are concerned locally, the information coming to each of the opposing camps is all the way from a "yinch" to most "joyfully satisfactory." There seems to be no doubt that both Holstein and the Governor have been assured, according to each one's way of interpreting it, that his recommendation will be carried out by the President.

Therefore long range interpretation of the convention incident is very difficult at best. What we are sure of is that Hawaii will vote for Taft on the final ballot. And Hawaii is in the limelight, as usual.

## DELEGATE KUHIO AND THE FUTURE.

Delegate Kuhio's declaration against any third party movement is what was expected by his friends, and we know of no true friends of the Delegate who would urge upon him to take part in any such political mistake.

What the people have reason to hope from the Delegate is a vigorous progressive policy that will lead the way to united action and a solid front for efficiency in government and an advancement of standards all along the line.

In the natural order of human events, the decision of President Taft on the matter of the Governorship is certain to exercise an influence. But let this decision be what it may, every true and loyal son of Hawaii must realize that "Forward" is the slogan and "Get Together for the best development of Hawaii" is the spirit of the hour.

We must not stand by the wayside, bickering and worrying over the little petty personalities of small politics. There is too much to be done; there is too much at stake for the future of Hawaii not to admit of narrow policies.

Delegate Kuhio can depend upon it that among the responsible leaders of thought and action there is not the slightest sympathy with racial divisions and factionalism. Hawaii needs each man in the place where he can do the most good for Hawaii and return the best service for setting ideal standards in government that will secure the best results for the people as a whole. The men are here to do it, and Delegate Kuhio is one of the leaders who can exercise a great power in helping to bring them together for effective work.

The Republican contest for the Fall campaign should be a united front for efficiency in government. The Delegate to Congress holding the highest office in the direct gift of the people, has a grand opportunity to lead the way, and set a standard that will more securely protect the popular rights of the people and give undying fame to his name and character in the history of Hawaii.

Let it be remembered that during the periods of contention and bitterness the man really worth while is the man who can see beyond the turmoil of an immediate battle, and, breaking through the little "affairs" and the factionalisms, come into the open with the rallying call. "Now, fellow Americans, get together—for our homes, our country and our flag."

## EVENING SMILES

"The products of petroleum are very numerous," said the professor. "Can you name one of the most important?"  
"Yes, sir," replied the pupil, "motor oil."  
"Pa, what's a playwright?"  
"A man who writes stuff to go with the scenery, my son."  
"What law is that timid, shrinking one over there by the door?"  
"The unhappy law that looks as if it wished it were dead."  
"Yes; the one with the black eye."

"That's the Sherman law."  
"And what is this bold floundering that everybody treats with so much deference?"  
"That's the unwritten law."  
"How did you get a new maid so quickly?"  
"I advertised the fact that our house cleaning is all done."  
It is useless to hope for the best if you are determined to keep thinking that the worst always happens.

## SEVERIN SAYS HE WAS THREATENED

(Continued from Page 1)  
horticultural commission that the pest had almost disappeared in the quarantined districts, and that there was no further danger of importing it to California. Severin flatly contradicts this Campaign a Farce.  
"The campaign against the Mediterranean fruit fly in Hawaii at present is a ridiculous farce and a useless and extravagant waste of money," said Severin yesterday morning. "California is being deceived. Unless a general quarantine of Hawaiian fruits is declared, this State is in imminent danger of the pest getting a strong foothold on this Coast."  
"Every effort has been made by the Hawaiian fruit growers and other kindred interests in the Islands to prevent Mr. Hartung and myself from coming to California to tell the truth about the fruit-fly pest. Threats were made, and we were warned that if we left we had better not attempt to return."  
Inspector Weinland said yesterday morning that the charges made by Severin were not new to him, but he refused to talk about them. He admitted, however, that his return was due to the activities of Professor Severin and the fact that he was coming here with the announced intention of attempting to create a sensation and a fruit-fly scare before the California Fruit Growers' convention.  
Inspector Weinland had been stationed at the Islands for six months.

## BOARD FAVORS LOCAL BIDDERS

The city and county supervisors went strongly on record last night in favoring local firms against mainland concerns in the purchase of a set of instruments for the Hawaiian band.  
The matter was brought up through the introduction of a resolution presented by Murray, calling for the rejection of all bids received several weeks ago, in which dealers in musical instruments from all over the United States and also in England entered the lists.  
By the passage of a resolution, the city clerk is authorized to ask for tenders for first-class band instruments, all bids to be in the hands of the board not later than July 2. As the time limit is close at hand, the prospect of concerns other than those in this city submitting tenders is considered very remote.  
To supply the band with a complete set of instruments the city fathers have appropriated about two thousand dollars.

By the passage of a resolution, the city clerk is authorized to ask for tenders for first-class band instruments, all bids to be in the hands of the board not later than July 2. As the time limit is close at hand, the prospect of concerns other than those in this city submitting tenders is considered very remote.  
To supply the band with a complete set of instruments the city fathers have appropriated about two thousand dollars.

President Gilman of the local bitulithis company is in the field to pave Cross Street, and submits a bid to perform the work at approximately \$2,000, guaranteeing the life of the pavement at ten years.  
City Engineer Whitehouse in presenting new estimates for bitulithis and china block pavements for Queen Street, stated that china, with the joints filled with asphaltum, resting on a five-inch concrete base, would cost about \$30,000.

J. G. Pratt, postmaster, notified the board that the Federal government accepted the proposition made by the city for the removal of rubbish from the postoffice.

A report received from City Engineer Whitehouse was to the effect that the Whitehouse municipal machine traveled 1385 miles in April and 1325 miles in May.

Treasurer Shingle submitted a statement:

"We now take pleasure in advising you that we have succeeded in making a compromise with the tax assessor by a reduction of his figures, of twenty-five per cent, so that the first 77 feet along Hotel street from the Dawson corner, is now \$7.76 per square foot, and the balance of the frontage,

23 feet, at the rate of \$5.  
"Therefore, we are now willing to accept for the 1547 square feet of land required for widening Hotel street, the sum of \$10,635, the other terms and conditions to stand as by our original offer of February 29. A

## You Want

milk that is pure; milk that is rich; milk that is wholesome; milk that is food in health and medicine in sickness; milk that comes from absolutely sanitary dairies under conditions that are open to all who care to investigate. That is the kind of milk we sell.

summary is as follows: Land, \$10,635; buildings, \$12,159; rents, \$489; reduced rents, \$585; total, \$23,559.  
That the Promotion Committee is in line for a continuance of municipal help to the extent of \$250 a month is assured by the friendly attitude now promised by the paid campaigners who are to spread the fame of Hawaii and along the length and breadth of the mainland. It is said that Editor W. G. Smith's statements regarding his attitude towards Hawaiians while away is satisfactory to the board. Among other things, Secretary Wood of the Promotion Committee, in replying to the board, says "that Mr. Smith fully appreciates the fact that the Hawaii Promotion Committee will not for a moment stand for anything tending to detract from the fair name of Hawaii and her people, and that he is in thorough accord with our well-known views on this matter is made evident by showing a cash balance on hand May 31 amounting to \$32,590.29.  
Campbell Estate Has Cheering News.  
In a communication from the Campbell Estate, the board was given some cheering information in regard to the widening of Hotel street. The letter from his letter of acceptance of the offer made him by the committee.

Favor Armory Donation.  
In a communication addressed to the board, President Gignoux of the Merchants' Association announced that the directors of that organization were unanimous in favoring the proposition that the municipality contribute \$25,000 to the armory fund.  
The city engineer has notified the Board of Supervisors that he has taken the matter up with S. M. Damon and Manager Gibb of the Honolulu plantation, and the former, he says, is willing to give the county the right-of-way for the new location of the road, in exchange for the right-of-way of the abandoned portion of the old road. Mr. Gibb, for a leasehold interest in the required right-of-way through the cane lands, figures the damages at \$1,154. The engineer recommends that this leasehold interest be purchased and the amount charged to the appropriation for the Moanalua-Puuhou road.
