LAND BOARD PLANS ARE UP

Several land matters will be dealt with by the members of the land board who meet at two o'clock this afternoon at the capitol. This will also be Commissioner Judd's first appearance as chairman of the board.

The first matter to be dealt with is the approval of the sale of several small lots to sugar plantations. These were sold for the purpose of laborers houses being erected on them. It is not expected that any kick will be made.

The matter of the Lahaina land remnants is also to come up. Governor Frear intimated some time ago that these would be dealt with very shortly. The lot that will be dealt with today is that belonging to the Pioneer Mill and the matter of exchanging that with a piece of government land will be discussed.

The lot held by the Pioneer Mill is, according to the government statement of the case, rather shaky as to title. It surrounds the school and is wanted to make more of a park around that building. The lot that the government propose to give in exchange is at present under cane and is used by the sugar company although they have no right to it. It is also thought that this matter will be settled.

BIG GUNS WILL DO NO DAMAGE

No report of a bill passing the Senate for an appropriation to pay any damages that may result in the firing of the heavy caliber guns of Hawaii has reached U. S. Army Headquarters in Honolulu, yet rumor was spread to the effect that the Senate had passed such a bill.

The only guns liable to do any damage at all are the big fourteen-inch ones of Fort De Russy, and what damage they may do would be very slight in nature.

The army officers expect no trouble at all, due to the firing of the mortars of Fort Ruger or the twelve-inch guns of Fort Kamehameha, Pearl Harbor.

The only big guns situated near residences or buildings are those of Fort De Russy, the others being far from residence districts.

CAPTAIN CARTER TO UMPIRE

Captain C. C. Carter has been ordered to assume the official capacity of umpire for all the Coast Artillery fall target practice, which commences the middle of September.

Fort Ruger is the only coast guard carrying on practice at present. This practice, however, contains no powder work, but merely the preliminaries of tracking and range finding, so will not have need of an umpire until actual firing is started next month.

The practice of the Coast Artillery batteries will be run off in rotation. One battery will have a certain period of time designated when it is to practice and on finishing the work will continue immediately on by the next battery in line.

GAYLER'S PLANS ACCEPTED

Lieutenant Gayler of the U. S. Naval Engineers had returned to him this morning, in accepted form, the modified plans he designed and sent to Washington which changed the layout of the Pearl Harbor naval station slightly. The plans merely rearranged some of the driveways and paths and had nothing to do with the changing of any building or proposed sites for buildings.

MAJ. WOOTEN OFF TO HILO

Major W. E. Wooten, Corps of Engineers, U. S. A., left for Hawaii yesterday on the Mauna Kea to look over the construction of the Hilo breakwater. As Major Wooten has just recently been installed as head of the United States Engineers of this division he wishes to familiarize himself with the practical end of the great work now going on.

The Major is expected to return next Saturday.

BOARD WILL DO THE BOOSTING

Road Supervisor Charles Wilson will not be given carte blanc in the fixing of salaries per diem of those assistants whom he may select for work in the Honolulu road department.

The rate of pay for employes in that branch of the service is a matter that must be passed up to the Board of Supervisors. Chairman Sam Dwight of the road committee sounded the slogan at a meeting of the city fathers last evening that resulted in bringing the matter of any possibility of boosting salaries without the scope of the newly appointed road supervisor.

Dwight thought it high time that the amount of salary for the road supervisor as well as his chief assistants be settled. Murray attempted to inform the road committeeman that former Road Supervisor Wilder drew down but $150 a month. Wilson would therefore draw the same.

Before the salary question had been thoroughly threshed out a motion was carried fixing the salaries of Wilson and others.

Dwight also advocated placing these employes under a bond for the faithful performance of their duty.

TWO EXTRAS FOR HAWAIIAN SUGAR

Hawaiian Sugar Company directors held a meeting last Monday and declared two extra dividends, one of 40 cents a share, payable on September 15, and a second extra, also of 40 cents, payable December 15 of this year.

News of the melon-cutting has been received on "the street" and in business circles generally with satisfaction, not only by those who hold shares in the company, but others as well, as the announcement of the extras means bright prospects for the future. The gloom of a tariff revision cloud is perceptibly lightened by this news.

The extras mean the division of $60,000 both in September and December among Hawaiian Sugar stockholders.

The market was fairly active again today, with several stocks in good demand. Oahu Sugar was lively at 31, and Olaa kept up its record by making another advance, and is now selling at 5.625. At this figure five shares changed hands on the exchange this morning. Ewa is steady at 31.75.

Beet sugar prices continue to climb up. A cablegram received yesterday afternoon from the mainland shows the latest figures at 14s. 11-2d.

WEATHER TODAY

Local Office, U. S. Weather Bureau, Young Building.

Temperatures—6 a. m., 75; 8 a. m., 79; 10 a. m., 79; noon, 83; morning minimum, 74.

RELEASED LEPER IS AT LARGE IN NEW YORK

BALTIMORE, Md., July 30.—Mrs. Providencio Mascari, a leper, who for more than a year had been kept in quarantine at the expense of the city, was released about two weeks ago and is now supposed to be in New York city. While Health Commissioner Bosley would not say that the woman was cured, he declared it was his belief there was no danger that she would spread the disease. It was learned that the woman, her husband and their six children went to New York July 21.

BEET SUGAR COMPANIES AGAINST TARIFF CHANGE

WASHINGTON, D. C., July 31.—Senator Perkins today presented to the Senate telegrams from the Southern California, the Spreckels, Alameda, Union and Orange county beet sugar companies, protesting against any change in the sugar schedule at this session. They asked for a postponement until the next session, on the ground that Congress has not accurate information, and that if the Bristow amendment is agreed to they will be ruined.

BAND CONCERT.

There will be a moonlight concert by the Hawaiian Band at Aala Park this evening, commencing at 7:30. Following is the program:

.....Arr. by Berger
Waltz—Pink Lady ..... Carill
March—Spirit of Liberty.....Sousa
The Star Spangled Banner.

RECREATIONS

BENEFIT FOR THESPIANS

Unless the reign of hard luck that has followed the Norton Comedy Company continues, a benefit performance will be tendered it Monday night at the Orpheum Theater, when the pick of the theatrical talent now playing in Honolulu will appear in conjunction with a specially-arranged program of short comedy sketches by the best talent of the Norton players.

With no money, but plenty of bills to pay, and no chance to work, the last resource, a benefit, was talked of and by paying the expenses necessary to running the theater for one night, Manager Magoon has consented to allow the unfortunate Norton players the use of the Orpheum for Monday night, when it is hoped that enough money will be realized to allow the players to extricate themselves from their present predicament, which was due to an inexperienced promoter attempting to run a theatrical company on a "shoe string."

Miss Matthews, who was forced to leave the company on account of an operation is improving each day, and if her physician consents she will appear at Monday's performance.

UNIVERSAL PEACE IS A LIVE TOPIC

By C. S. Albert.

(Special Bulletin Correspondence.)

WASHINGTON, D. C., July 29.—Universal peace is the dominating topic of discussion now that reciprocity with Canada has been brought to a definite conclusion. It had been predominating for some time, but President Taft's speech at Manassas, the battlefield of Bull Run, gave it additional impetus.

Optimism has grown to such an extent that the President and his advisors predict that Germany, Italy and the Netherlands will also join in similar treaties with the United States. All of these are to be framed up for ratification at the earliest possible date.

May Revise Sherman Law.

A foundation for revision of the Sherman anti-trust act during the next session of Congress has been laid. The Senate committee on interstate commerce has been instructed to make a thorough investigation and report just what additions to the law are necessary to properly curb combinations and monopolies. The most sweeping authority has been given the committee to compel the attendance of witnesses and to secure needed books and information.

Make Law More Effective.

The program for the inquiry has not yet been outlined. It will doubtless be complete. All defects in the statute as it has stood on the books for twenty years will be examined. The committee must report some measure which is intended to curb trusts and make the existing law more effective.

WOMAN EDUCATOR SELLS BRAINS TO RESEARCHERS

ATHENS, Ga., August 1.—Miss Celeste Parrish, who has for years been head of the department of pedagogy at the State Normal School, a director of the Muscogee Elementary Practice School and a writer for educational and psychological journals, has sold her brain to a northern institution of medical research for the purpose of examination and analysis after her death. Miss Parrish has been noted for her remarkable powers of mind and scientists have remarked upon the unusual size of her brain. It is said that she is being paid several thousand dollars for her brain in installments.

As stated exclusively in the Bulletin, J. E. Higgins, horticulturist at the Federal Experiment Station, is slated for the new market superintendent. He is considering taking theoffer. He was in conference with Dr. Victor S. Clark o ndetails of the position this morning.

High Sheriff William Henry said this morning that negotiations with the Bishop Estate for a penitentiary site in Kalihi valley above the Frank Harvey place may be carried through.

Do You Want

Long, Heavy Hair?
Then treat your hair well. See that it is properly fed. Growth of every kind demands proper food. Starved hair splits at the ends, turns prematurely gray, keeps short and dry. Then feed your hair. Feed it with proper food, a regular hair-food. Feed it with Ayer's Hair Vigor. Thus help nature all you possibly can toward giving you rich, heavy, luxuriant hair. Ask your doctor about your hair and about Ayer's Hair Vigor. Follow his advice.

FIGURES SHOW DANGER TO LOCAL IMMIGRATION

Raymond C. Brown, inspector in charge of immigration, has collected statistics which show that the statement of the Bulletin several days ago that the proposed naturalization law would seriously limit immigration here was not exaggerated. His figures are based on the percentage of illiterates among the Portuguese, Russians and Spanish brought here. He finds that approximately sixty per cent of the Portuguese, seventy per cent of the Spanish and something over twenty per cent of the Russians were illiterate. Under the proposed law, the literacy test must be passed by immigrants over fourteen years of ago, or they cannot be landed in the United States.

ADAMS' "SENSATION" HAS FIZZLED OUT

The would-be sensational stories published here and on the Coast about the mysterious disappearance and possible murder of A. W. Adams, formerly a resident here, have apparently fizzled out. It now appears that Adams has been located. Instead of being murdered, he is alleged to have deserted his wife and gone to Chicago. In seeking employment, he offered Collector of Customs Stackable as a reference, which led to the police locating him.

From all accounts, Adams' disappearance, like many other "sensational" case, was nothing but a brutal desertion of his wife.

Judge W. J. Robinson yesterday dismissed the complaint of John Oudekirk against Rose Davison. Plaintiff claimed that he sold defendant six cows for $300. Defendant stated that she was only renting the cows as they came in and that she had a paid $410 on two.

QUESTION OF LAW GOES BEFORE HIGHER COURT

Part of the problem in connection with the motions and demurrers in the Kaneohe land and water litigation are to be decided by the supreme court. Yesterday Judge W. J. Robinson, on the motion of Thompson, Wilder, Watson and Lymer, sent up to the higher court a reserved question of law. The question arose in connection with the proceedings in the Kaneohe Rice Mill Company, Ltd., versus Edward Malaihi Holi and eight others, and has been set forward by the equity judge as follows:

"The petition of the Kaneohe Rice Mill Company, Ltd., petitioner above named in the above entitled cause, having set out a claim in fee to five-eighths of the premises sought to be partitioned and having alleged that the respondent, D. Naowi, is the owner of the remaining three-eights of said lands, and the answer of said respondent, D. Naowi, admitting in paragraph two of said answer 'that petitioner has an interest in said lands and is the owner of a portion thereof and that this respondent has an interest in and own the other portion' of said lands, but said answer at the same time denying the jurisdiction of the court, has the presiding judge at chambers of the above entitled court jurisdiction to determine in said suit for partition of said premises the extent or quantum of the interests respectively owned by said petitioner and by said respondent D. Naowi?"

V. M. Harrison yesterday filed his bond as commissioner to sell the former Commercial hotel premises at Beretania and Nuuanu avenues. The sale is to take place on August 19 under foreclosure of mortgage in the case of Guard against Macfarlane.
