

HOTEL STEWART

SAN FRANCISCO
Geary Street, above Union Square
Just opposite Hotel St. Francis
European Plan \$1.50 a day up
American Plan \$3.00 a day up
Steel and brick structure, furnishings cost \$200,000. High class hotel at moderate rates. Omnibus meets all trains and steamers. Hotel Stewart now recognized as Hawaiian Island headquarters. Cable address, "Trawets" A. B. C. Code. Reservations made through Trent Trust Co., Fort Street, Honolulu.

Hotel St. Francis

Union Square, San Francisco
Under the Management of
JAMES WOODS

FACING the beautiful park in the heart of the city, which is the theatre of the famous festivals of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravanserai in the world. WHILE THE SERVICE IS UNUSUAL, THE PRICES ARE NOT.

European Plan from \$2.00 Up

BEET PLANT IS SMALL THIS YEAR

And This Is Causing Sensational Advance In Price of European Sugar.

Willett & Gray's sugar trade journal for July 27 gives a statement of the European beet sugar situation that is of great interest at present:

The week under review has been one of the most important because of the excitement and advances attending it, that has occurred in several years. A great disaster to the European beet crop is evidently firmly believed by operators on the sugar exchanges, and our own correspondent and beet expert, F. O. Licht, continues to cable us each week for some time past that the weather is unfavorable, but in reply to a special question he replies that the extent of the damage can not be estimated just now.

We are able, from his mail advice, to give some indications in this direction, which we print herewith, and from which it appears, by the tests given, that the leaf surface is especially small, which is a very unfavorable condition at this stage of the growth, as from now on the sugar in the beet is gathered by the leaves and the larger the leaf area or surface the larger the sugar produced as a rule. This point was shown last year very clearly. The roots, however, show richer in sugar than at this time in several years, which may indicate an advanced growth condition seeming to forecast a premature ripening, preventing their ever reaching full sweetness or full volume of saccharine contents.

Our weekly Cuba cable gives island receipts 8000 tons against 7000 tons in 1909. Four centrals are working against two last year and five in 1909. Rain is wanted for the growing crop. Mail advices quote moderate rains in all sections but Oriente districts. 60,000 tons more receipts to end of crop will bring the total crop up to our minimum estimate of 1,500,000 tons. 60,000 tons is less than amount received in two previous years.

A paragraph herewith calls attention to the increasing production of Java white sugars in that country, of much consequence in connection with the abolition of the No. 16 D. S. from our tariff.

Java produces this year 1,265,000 tons sugar by early estimate, which may be increased later.

Very few cargoes of Javans have been bought for the U. S. thus far. The rumor that business has been done this week is practically confirmed at the close, and to amount to four cargoes for July-August shipment, at 12s. 10-1-2d. c. & f. (4.54c.) for August shipment.

The course of prices for the week has been excitedly upward, both abroad and here.

Beet sugar advanced on Monday to 12s. 11-1-4d. for July, reacted to 12s.

FAT TREASURY FOR TERRITORY

Governor Frear Gives Out Statement of Finances For Fiscal Year.

According to figures given out yesterday afternoon by the Governor, the Territory's treasury at the end of the fiscal year ending June 30 had a surplus of \$1,081,051.72 as compared with \$813,602.42 last year. This represents the cash from all revenues after paying out all outstanding obligations. The loan fund does not enter into this as it has nothing to do with the status of current revenues and expenditures.

The total receipts for the year were \$3,482,560.84 while the disbursements amounted to \$2,401,509.12. This gives a credit balance of \$1,081,051.72 while during the preceding year the receipts exceeded the disbursements by \$416,582.87.

Speaking of the matter the Governor said that this looked as though the territory had been going backward but in reality it had not for the treasury is better off this year by \$287,499.60. The explanation is that the above figures of receipts and expenditures are those in the general revenue account, which are the figures generally looked to, though they often lead, as in this case, to incorrect inferences. There are many revenues as distinct from loan fund accounts, and disbursements stated in the general account include large transfers to the special accounts, some of which are only of a temporary nature.

If all the revenue accounts, both general and special, are taken together and the loan fund accounts excluded it will be found that the aggregate cash balance for the fiscal year was \$1,260,120.06 as compared with \$976,386.53 for the preceding year or an increase this year of \$283,733.53.

Notwithstanding this good showing the receipts were less during the last year than the preceding one. This was largely due to a great reduction in the inheritance tax and to reductions in revenues from land sales, rentals and documentary stamps. The increase in disbursements was largely due to transfers to special accounts. One of such was the putting aside of \$125,000 for filling in insanitary lands.

The summarized statement of receipts and disbursements for the fiscal year ended June 30, 1911, is as follows:

Taxes, including real, personal and other taxes amounted to \$2,657,175.90. General including land revenues, \$238,407.41; water and sewer returns, \$174,619.69 amounted to a total of \$3,482,560.84. Added to this was the cash balance on July 1, 1910, which amounted to \$845,218.51, making a total in all of \$4,327,779.35. The total disbursements in out-

DAPHNE POLLARD TAKES HUBBY

All theatergoers remember little Daphne Pollard, the leading child with the Pollard Lilliputian Opera company. Well, Daphne did some real acting lately, in as much as she eloped with the choice of her heart from Seattle along in the latter part of July and they went to San Francisco.

The steamer President, bearing the happy couple had been at sea for twenty-four hours before the elder Pollards got wise to certain matrimonial facts.

The happy man's name is Ellington Strother Bunch.

There will be a meeting of the trustees of the Chamber of Commerce at three o'clock this afternoon, the appointment of a nominating committee to prepare for the annual election being the business on hand. It is understood that James F. Morgan, who is now serving his fourth term, will consent to succeed himself.

WAIANAE TEAM LOST SUNDAY

Last Sunday there was a baseball game at Waianae between the home team and the crack Waihua nine, and it was a dandy.

The visitors were victorious by the score of 4-1 after a very exciting game. The Waihua bunch was anxious to whitewash its opponents, but was unable to do so, and the Waiuanas are smiling over saving themselves from the whitewash brush.

"Sunny Dick," who handed out the deliveries for the winning team, had the Waiuanas guessing all the time and they had an awful time trying to locate the ball. It was a case of one, two, three strikes, you're out, with Dick. Heine Piemer was behind the bat and gathered in the curves in fine style. He has a good arm for throwing to second, and it is quite an undertaking to steal second on him.

The Waianae team put Rainier "Beer" in the box first and he was hit hard and often. After the Waiuanas had accumulated two runs, Rainier was transferred to the bench and the old standby Meyer had to fill the bill. He did better work for the home team, but the visitors scored another two runs off him.

It was in the last spasm that the Waiuanas saved the whitewash application. It happened this way: A man was on third cushion and two were out when the batter landed a liner along third sack which looked like a foul, but the umpire called it fair and they were credited with their only run of the game.

Now, since the Waihua team has defeated the Waiuanas, it is very anxious to meet the champion Alea nine of the Plantation League in a game to be played at Alea next Sunday, August 13. The Waiuanas mean what they say and are willing to pay their fare up to Alea to play the game. This is going some. It's now up to Alea to make good the challenge and make some noise like real champions. Arrangements for the match can be made by sending word to Henry Piemer, Waihua.

The lineup of the Waihua bunch on Sunday was as follows:

Henry Piemer, c.; Dick, p.; J. Teves, 1b.; Hans, 2b.; Fig Red, 3b.; J. Alameda, ss.; F. Figuera, rf.; M. Figuera, rf.; Keonana, lf. Subs, Geo. Boyd, Manuel Alameda; umpire, Jack Moniz

WAILUKU TEAM LOST TO THE ILIMAS SUNDAY

In a game at Lahaina, the Wailuku went down in defeat at the hands of the Ilima recruits. The game created much excitement throughout the nine innings. The Wailuku managed to score one run in the eighth on a dead ball. This happened when one hand was down and a man on third. The next batter came up and bunted; the ball struck him, and the man on third scored.

George Dunn pitched a great game for the Ilimas, striking out fourteen men, while his opponent accounted for five. Both teams played well, and the fielding was much appreciated by the spectators.

The lineups of the teams were as follows:

Wailuku—Hookano, c.; Katal, cf.; Wai, Enos, lf.; Wai, Bal, p.; Kama, ss.; Ate, Hose, 2b.; Harry Motto, rf.; T. Cockett, 3b.; Volter, 1b.

Ilimas—I. Non, c.; Ah Chan, ss.; Sol, Kua, 2b.; P. Espinda, lf.; Kanamu, 1b.; Haramoto, rf.; D. Espinda, 3b.; T. Hassey, cf.; G. Dunn, p.

Score by innings:
Wailuku 0 0 0 0 0 1 0 1—1
Ilimas 0 1 2 0 0 0 0 0—9

DR. JORDAN IS ON A MISSION OF PEACE

STANFORD UNIVERSITY, July 31.—David Starr Jordan, accompanied by Mrs. Jordan, will sail for Japan on August 9th, where he goes in the interests of the International Peace Foundation, of which he is one of the chief directors. It is his purpose to investigate certain matters in regard to the current reports of the strained relations now existing between Japan and the United States and the various European powers. Aside from his investigations Dr. Jordan has been asked to give a series of ten lectures on the peace question in various cities of Japan. He also has been asked to visit on the peace question, and may possibly find time to go to China, where peace enthusiasts have asked him to speak. According to his present plans, he will return to the United States about October 27th.

Six hundred members of the German-American Teachers' association plan to attend the convention to be held in Germany.
