SLATED FOR NEW YORK SENATOR IS CANDIDATE OF TAMMANY HALL

EDWARD M. SHEPARD.

NEW YORK, Dec. 4.—The present state is to send Edward M. Shepard to the United States Senate from New York to fill the vacancy of Senator Depew. Mayor Gaynor is for Shepard, and Murphy is expected to get in line. In fact, the chief of Tammany Hall has been boosting Shepard for the Senate for some time. Tammany Hall wants to enlarge its scope, and Murphy sees a chance by sending Shepard to the Senate. Shepard was a candidate for Governor, he stepped aside in favor of Dix, and now, it is claimed, he was promised the senatorship.

PROTEST TO GO TO WASHINGTON

(Continued from Page 1)

especially. The resolution was unanimously passed by the members present, and to the proposition that the McCresson bills will give John T. McCrosson and his associates water and land rights to which they are not fully entitled, there was not one dissenting opinion.

The chamber's action is directly in line with what the Bulletin has been making a fight for, namely, the right of the people of Hawaii to know beforehand what legislation affecting them is to be introduced in Congress, and further that the McCresson bills are improper attempts to secure valuable rights.

The resolution as passed followed closely the one recommended by the board of trustees at its meeting last Monday. The only difference, which, however, is an important one, is that the paragraph requiring the committee of Hawaiian Congressmen handling Hawaii affairs to be in Washington when the Territorial Legislature was assembled, and a new one substituted, which protests against the McCresson bills specifically. It is somewhat in the nature of substitution to the Legislature, which can legally refer the bills are sent to Congress.

The principle of the resolution is not changed at all. The substitution was made because some of the members feared that the clause requiring a committee of such importance to the Legislature would delay and hamper the legislative body.

On the subject of the McCresson bills there was but one sentiment expressed at the meeting, and that was that they should be killed. The two pieces of legislation now before Congress are a general irrigation bill known here as the "San Bill". The other gives him water rights on the military reservation known as the Waianae hill. Both were described variously and vigorously as "grabs," "steals," "robberies," and a few other pet names. Surprise was expressed that McCresson should have allowed himself to appear as the sponsor for and promoter of the plans, but the surprise was far less than the indignation that the bills were allowed to go before Congress before the people here knew what they were about.

Twenty or more members of the Chamber were present and after the reading of Fred L. Waldron's report as Official representative, President J. F. Morgan brought up the resolution as recommended by the board of trustees. W. O. Tenney moved the adoption and J. H. Fitzpatrick seconded the motion. They brought the resolution to the floor and there ensued more than an hour of discussion, which in one point whether or not the Chamber should take a definite position on such a matter as the bills in the hands of Legislative Committees should be opened.

W. R. Castle stated that he was in sympathy with the resolutions but desired the Chamber to go on record as being opposed to the principle of making the enactment of legislation affecting Hawaii dependent upon the approval of Hawaiian Congressmen. He presented a substitute for the resolution which was carried. The substitute provided that the Chamber should go on record as opposed to the principle of the bills, but that the resolution should not be sent to the Legislature. The substitute was not adopted.

J. A. Magoon moved that the resolution be amended by striking out the paragraph requiring the committee to be in Washington when the Legislature was assembled. The motion was seconded by W. O. Smith and carried.
