## Proposed Platform

Following is a preliminary draft of a platform for the Territorial Convention. It will be presented at a meeting of the committee on platform at 2 o'clock this afternoon:

1. Fifty-six years ago the Republican party came into existence, dedicated among other purposes to the great task of arresting the extension of human slavery. In 1860 it elected its first president. During thirty of the fifty years which have elapsed since the election of Abraham Lincoln the Republican party has held complete control of the government. For eighteen more of the fifty years it has held partial control, through the possession of one or more branches of the government, while the Democratic party, during the same period, has had complete control for only two years. This long tenure of power by the Republican party has con-

## BRECKONS GETS CLIENTS OFF

### Alleged Chinese Gamblers Are Discharged for Lack of Evidence.

Thirteen alleged gamblers were gathered in by Chief McDuffe last night and, as the men are all well known Chinese, there was much interest shown in the matter this morning at the police court. The names on the calendar did not fit all the defendants, and there was a smile at some of them answered the roll call.

H. W. Breckons appeared for the defendants and A. M. Brown presided. Judge Andrews, based on the evidence and then said there was no sufficient evidence to convict the men. They

## HILO CAUCUS REPUBLICANS ARE STRENUOUS AND WARM

### Want North and South Hilo Represented in the Board of County Fathers.

### AUSTIN WON OUT IN EASY FASHION

### Debate Galore Marked the Proceedings—Candidates Turned When They Were Thrown Down.

(Special Bulletin Correspondence.)

HILO, Sept. 10.—There were some exceedingly warm caucuses in the Hilo town and the Waialua precincts last Friday evening, and there is now considerable soreness on the part of the office-seekers who did not meet with success.

In the Hilo town precinct the delegates decided on motion by Lough to adopt the unit rule. Cabrinha objected to this, but secured no support, and the motion carried.

The main fight occurred when the matter of deciding on a candidate for Representative came up. There were three suggested, namely, Vasco Osorio, Bernard Kelekolo and G. F. Alfonso. It was decided to name a first and a second choice, and on the first ballot the vote stood as follows: Osorio, 6; Kelekolo, 2; Alfonso, 1. A second ballot was taken to decide between Kelekolo and Alfonso for second place, and Kelekolo won by getting seven votes, while Alfonso polled only three.

There was also a contest for the office of supervisor, Austin and Cabrinha being the contestants. Austin won out hands down, getting nine votes to one for Cabrinha.

The following other candidates were placed: Sheriff, Sam Pua; county attorney, W. H. Beers; treasurer, Charles Swain; county clerk, John Kai; senator, Antone Fernandez. The office of county auditor was left blank.

After the caucus Cabrinha protested strenuously.

The Waialua caucus was still more lively. First a regular precinct meeting was held, at which the delegates expressed their thanks for their election. It was moved by Guard and seconded by Bohenberg that the delegation be sent to the convention uninstructed. There was at first some opposition to this, but this was eventually withdrawn, and the motion carried.

Immediately after the precinct meeting, the delegates held a caucus, all being present with the exception of Filler. The main fight centered on the supervisorship. D. Silva nominated Lewis and Cabrinha, Rose opposed this on the ground that South Hilo should elect one and North Hilo the other candidate for supervisor for North and South Hilo. Alfonso contended that there was no rule to that effect, but Senator Brown announced that he would support but one candidate, and that would be Lewis. There was considerable debate, and finally Silva withdrew his motion, and Lewis was declared the choice of the precinct.

Rose tried to get in the name of Bohenberg and his own, but later on tried to turn the tide in favor of Austin, but was unsuccessful.

There was another bit of friction about the choice for the House. Rose mentioned Vasco Osorio and a dark horse whom he did not make known, but Alfonso won out.

The rest of the candidates decided on were as follows: Senators, Hewitt, Sheriff, Pua; clerk, Kai; treasurer, Swain; attorney, Beers; auditor, Filler.

We wonder what five named about Henry Adams tracked in smoke.

## WINNING STATE OF MAINE

(Associated Press Cable.)  
WASHINGTON, Sept. 12.—State elections are being held today in Maine and Arkansas. Arizona is also electing its delegates to the constitutional convention.

Arkansas is conceded to the Democrats. Great interest centers on the Maine election, as the Democrats have made claims of having made inroads on the Republican forces with their candidate for Governor.

Returns received up to this hour show that Congressman Burleigh of the Second Congressional District and Congressman Guernsey of the First Congressional District have been re-elected. They are Republicans. The Legislature to be chosen today will name the successor to United States Senator Hale.

Returns indicate that the Republicans will carry the whole State, though majorities may be reduced in the Congressional districts once represented by C. E. Littlefield and the late Thomas B. Reed.

## "I Am Republican" Says Robt. Parker

### Clear Cut Declaration Of Defeated Candidate Sets All Doubts At Rest

"I want the public to know that I shall support the whole Republican ticket. I have shaken hands with Andrew Cox and congratulated him on his nomination. I shall work for his election, and the election of all others on the Republican ticket."

This statement was made this morning by Capt. Robert Parker to a Bulletin man, owing to the many false stories that have been going the rounds since Parker was defeated for the nomination for County Sheriff on the Republican ticket.

"I have been offered the nomination for Sheriff on the Home Rule ticket. I shall not accept it. I have been urged to run as an independent candidate. I shall not run independently."

## NORGAARD FILES CROSS LIBEL

### Charges His Wife With Being Habitually Intemperate.

Today Dr. Victor Norgaard filed his cross-libel in divorce from his wife, Nicoletta Tyson Norgaard, charging that she has been guilty of habitual intemperance from the excessive use of intoxicating liquors.

In his libel he asks that her libel against him be dismissed, that he be granted an absolute divorce, and he given the custody of the minor son, Francis Tyson Norgaard, aged about thirteen years.

This morning a motion was denied by Judge Robinson, made by Attorney Andrews for Mrs. Norgaard, that the doctor supply her with a horse and buggy in order to take the boy out for exercise in the open air.

Attorney Douthitt, representing Dr. Norgaard, stated in the court that he was going to ask for a reduction in the amount of temporary alimony granted, as the doctor could not draw his salary from the Territory on account of the appropriation from which he was paid being exhausted.

Of the 1,000,000,000 cubic feet of water collected in 1909 into the ocean each year from the United States but 1 per cent is used for municipal purposes, 5 per cent for power and the rest goes to the sea.

It is no less striking for a nation of 100,000,000 people to have 100,000,000 cubic feet of water go to the sea each year.

## ALF ROGERS NOT WANTED

### Healani Crew Think That Other Boat Should Be Used in Race.

As Paul Withington will be unable to get down to the Healani boat club again for some time, Harold Dillingham has decided to coach the freshmen for the balance of the week. Dillingham will probably steer the freshmen in their race, and he will be of great assistance to the oarsmen.

There is a matter that is exercising the members of the Healani club, and that is the fact that the Myrtle may possibly use the "Alf Rogers" boat. This craft was changed from a four-oar to a six-oar boat, and is considerably faster on the turn than the boat that the Healani will use. The "Myrtle" is said to be the boat that should be used by the Myrtle men, and then the race will be more even.

The final crowd will be down this afternoon, and some good training spins are looked forward to by the lovers of the sport who go down to watch the men at work.

The damage and waste caused by smoke in the larger cities of the United States each year is estimated at \$200,000,000 by an official of the Geological Survey, who says his figures are conservative.

This makes a greater proportion of it than is paid for machinery than any other item.
