GREAT TRAINING STUNTS ON HARBOR BY BOTH BOAT CLUBS

SENIORS AND FRESHMEN ARE PUT THROUGH SEVERE TRIALS—F. W. KLEBAHN HANDLES HEALANI CREW—EVERYTHING GOING WELL FOR REGATTA DAY.

Yesterday was a great day on the waterfront, and at the Healanis and Myrtle boatclubs there were many people congregated to watch the crews that are in training for the Regatta Day sports. The camera fiends were strongly in evidence and hundreds of photos must have been taken. The conversation all around was of rowing and aquatic events of all sorts. A great amount of interest is being taken in the coming regatta, and a record crowd is expected to attend on Saturday next.

At the Healanis shed the followers of the club waxed enthusiastic over the way their men were training, and they had every reason to do so, as under the able coaching of Klebahn, the boat flew over the water in great style.

F. W. Klebahn is a retired international oarsman, and the way he coached the senior crew yesterday was a revelation. Perched on the bow of the Kulamann II, the coach used his megaphone in great fashion, and the way he made those seniors straighten up and pull was wonderful. The expert picked out the flaws in the crew and in a short time had them eradicated. When the crew returned to the shed after their training stunts they were a tired-looking bunch, and all the moisture in them appeared to be wrung out. The day was hot enough without taking any violent exercise, and it can be imagined how the men must have felt after a few miles of hard rowing.

The freshmen did some good work, too, and the crew is shaping up very well. There is going to be some fine racing next Saturday for sure, and when the Healanis and Myrtles meet there is going to be no clean sweep about the matter.

It will be heard with regret that the proposed shell race is not going to eventuate, as the Healanis bunch would have liked to go up against a crew from the barges and not the bunch of oldtimers that was selected by the Myrtles.

The Healanis freshmen were in charge of Paul Withington yesterday morning, and the Harvard man certainly kept the crew at it for a long time. The freshmen were in as limp a condition as the seniors when the work was over.

The seniors rowed so hard that two oars were broken, and they both snapped at the same spot—just outside the rowlocks. The barge will be overhauled and the footrests moved closer to the seats, and then the oars will have a sweep of a couple of feet extra.

The Healanis are going to give the Myrtles a great go in some of the races, and although there are plenty of Myrtle supporters who think that the broom will be elevated at the Myrtle shed, they are going to be disappointed.

The Myrtles yesterday did some fine stunts also, and their crews worked in the opposite direction to

the Healanis. The Myrtle senior crew is getting through the water in fine shape, and the men's stroke is very even. In one of their fast sprints, made after paddling along at an easy pace, they got up a very fast stroke in a very short time. Their work was crisp and clean and the recovery excellent.

The Myrtle freshmen are also doing good work, and they are shaping up well. By Saturday next they should be in excellent condition and ready to row for their lives.

Kenneth Brown and his husky crew of paddlers brought their canoe around from Waikiki yesterday, and for the remainder of the week they will do their training on the harbor. The Outrigger Club will be well represented by Brown and his men, and the crew will be as follows: K. Brown, W. Cottrell, P. Dodge, P. Young, Ted Melanphy and Rex Hitchcock.

The Kona canoe crew of paddlers will arrive on the Mauna Loa tomorrow morning, and they will use Prince Cupid's beautiful canoe. The Kona men are reported to be very fast, and they can stay for a year. It will be a great go between the Hawaiian and haole crews.

The special pair-oar race will be about the most stirring of Regatta Day, and when the Prince and Alec Robertson get into their boat to tackle Charlie Chillingworth and Frank Thompson, a great cheer will go up from the spectators for sure. The four men have taken off some weight during the past week, and on Friday and Saturday they lost a great amount of surplus oop.

The invitations are going out fast for the great day, and all those who receive a badge are entitled to pay a visit to the boatsheds. Over a thousand badges have been distributed by the Healanis, and the Myrtles are doing just as well. The scheme of guests being decorated is a good one, and no one who has not got a badge will be admitted to the sheds. Regatta Day this year is going to be the best ever, and given fine weather, there will be a great crowd at the waterfront. The races should be very interesting, and besides the rowing events, there will be plenty of canoe paddling and sailing contests.

DOTS AND DASHES.

Miles McLeod, the young giant who is talked of as a likely man to tackle Jack Johnson, has it over the negro in all measurements excepting the waist, biceps, forearm, wrist, thigh and neck. Johnson is larger in reach and height the new man is greater.

The annual Japanese wrestling competition will start up next week and the tournament will be held opposite the Athletic Park. Six inter-island embryo champions will compete and a very interesting series of struggles is looked forward to.

NIGHT TENNIS WILL SOON START AGAIN

Manoa Courts to Be Scene of Action—Many Matches.

There is a lot of tennis talk in the air, and before long the game will be in full swing as regards tournaments. The Manoa Valley club is figuring on a slight tournament, and as the new lights have been installed, the affair should be a huge success. It is very pleasant to go out after dinner and, while smoking a pipe, be able to watch some exciting and good tennis. The first night tournament held by the Manoa club was very successful, although the lights were not the best in the world. The new light is very bright and the flickering has been eliminated.

The tournament will probably be started up before the end of the month, but there is no desire to clash with the Hall Cup play, which is also scheduled to come off this month.

Nowell, Castle, Low, Richards, Cooke and half a dozen other good players have been getting a little tennis lately, and they are all shaping up well on the courts. There should be some good matches once the tournaments start up again.

SPALDING'S BALL TEAM TOO GOOD FOR SAINTS

Sporting Firm's Team Defeated College Alumni 4 to 3.

Yesterday morning at the league grounds there was an interesting game of baseball played between the St. Louis College Alumni nine and the Spalding outfit. It was a great struggle, and up till the eighth inning the Saints did not score. The Spaldings had pitted up one in their first and one in the fourth, and then led by 2 to 1. The Saints made three in the first half of the eighth, and then the Spaldings replied with three. There was no further scoring, and the game ended in a victory for the Spaldings by a score of 4 to 3. The Saints' battery was Bill Williams and Markham, while Jonah and Trask did like duty for the Spaldings. Trask pitched a great game, and held the Saints down to nothing till the eighth inning. The Spalding victory was very popular, and the fans from E. O. Hall & Son's went up in the air with delight.

DOTS AND DASHES.

Owing to the Athletic Park diamond being under water, there was no baseball played there yesterday. However, a crowd gathered around, and some hitting was indulged in.

There is talk of an ordinance being passed to protect game birds on Oahu for two or three years. It is felt that if this is not done the total extinction of game birds will result.

The wren race which was scheduled for yesterday did not come off, and it has not yet been settled when it shall be called.

A new blasting explosive, which needs a special cartridge to detonate it, is given the credit for reducing the death rate in the Pennsylvania anthracite region by about 300 within the last year.

TENNIS CLUB FOR WAILUKU

Much Enthusiasm Shown By All Maui Lovers of Fine Old Game.

Last week a few tennis enthusiasts met and organized a Club to be known as the "Wailuku Tennis Club," says the Maui News, Tuesday evening the members of the club met at the home of C. D. Lufkin, and adopted a constitution and by-laws, and transacted other routine business. A tennis court has been secured and men have been working on it for the past week putting it in shape. It is hoped to have the court in condition for play in about two weeks. The new tennis club will be quite an acquisition to the social life of Wailuku and it is anticipated by the organizers to develop some good contests in the near future.

It was voted at the meeting Tuesday evening that the initiation fee should be \$1.50 for both gentlemen and ladies. The dues for gentlemen shall be four dollars per year, payable six months in advance. Ladies are to pay no dues, the initiation fee admitting them to full active membership.

The officers of the club are C. E. Meyers, President; Alfred Martinson, Jr., Vice-President; F. A. Lufkin, Secretary and Treasurer. The annual meeting of the club will be held the first Monday in December, and all those joining before that time will be considered charter members.

THE AMATEUR CHAUFFEUR.

"How do you adjust your carburetor, Biggins?"
 "I'll show you. You see that nut?"
 "Yes."
 "I carefully turn that. You see that screw?"
 "Yes."
 "I gently loosen that."
 "Yes."
 "You see that ring?"
 "Yes."
 "I slowly tighten that."
 "Yes, but what do the nut and the screw and the ring control? What do they mean?"
 "I don't know."
 "Then how can you get a good adjustment?"
 "You didn't let me finish. After going through the manipulations already cited I turn the crank."
 "Then what happens?"
 "Nothing."
 "Well, what is the next move?"
 "I carefully walk into the telephone room, gently take down the receiver and pleasantly summon aid from the factory."—Cleveland Plain Dealer.

BAND CONCERT.

The program for the band concert to be given this evening at Emma Square is as follows:
 March—Veritas (new) Denmore
