**TEACHERS READING CLUB.**  
Will Resume Work at Usual Place Tuesday Evening.  
The Hilo teachers and former members of the Reading Club will meet at the Union school next Tuesday evening at 7:30 o'clock. The committees for outlining work this year are as follows:  
Current Events—Misses F. Potter, Ellen Lyman and Mrs. Terry.  
History (Roman)—Misses Deyo and Coan.  
Literature—Mrs. L. C. Lyman and Miss McCord.  
Art (Roman for the present)—Dr. F. Wetmore, Mrs. Severance and Miss Severance.  
Nature Work—C. O. Smith and Prof. Henshaw.  
As history naturally leads the course, other work will, as far as practicable, correlate with it. The new, and the passing event are provided for in "Nature-work," in one branch of art led by Miss Severance, in some readings from modern literature, and in "Current Events."  
The program promises well, and it is hoped that any Hilo residents who are interested will join the circle, or attend as visitors, where they will be cordially welcome. The usual number of attendants last year was about thirty. Several valuable papers or addresses were presented by professional friends in our community—physicians, editors, clergymen, lawyers. Friends have also largely aided the aims of the society by loans of books and pictures bearing on and illustrating the subjects considered. The obliging librarian of the town library must not be left out of this count. For all these favors the above indicated ladies and gentlemen are heartily thanked.  
The meetings are held Tuesday evenings every alternate week. The only expense incurred by the society is about \$25 a year for electric lights.  
The subject in history at the meeting of next Tuesday is the account of early Rome through the "Period of Kings" to 510 B. C. Preparation for historical topics can be made from any ordinary historical work.

**HILO WATER SUPPLY.**  
**Improvements Which Give Us an Admirable System.**  
For many years Hilo has been without an adequate water supply and as for fire protection, that is something she has never known. Recent extensive improvements have been made which with those still in progress will give the city a water works system adequate for the present and for many years to come.  
The water for Hilo is obtained from springs on lands at Pihouua at an elevation of 477 feet above mean tide water. From these springs it is conveyed through 4090 feet of 8 inch pipes to a tank at an elevation of 230 feet. From here it is distributed to the city through 6, 4 and 3 inch pipes. Careful examination and measurement of the flow of water from the 8 inch pipe at the tank shows that there is more than enough water delivered to supply the city of Hilo for many years to come. At night when the use of water practically ceases, more than two thirds of the water runs to waste through the overflow of the tank.  
In designing the new system the Department of Public Works has decided that a reservoir of 1,000,000 gallons capacity should be constructed at this point. This would enable use to be made of the flow during the entire 24 hours and give a supply for emergencies of fire or difficulties in the supply.  
It has been decided also upon completion of the reservoir to abandon the so-called lower spring as there will be no necessity for its use. The sooner this is done the better for the health of Hilo.

**ROOSEVELT'S NARROW ESCAPE.**  
**President's Carriage Collides With Trolley Car.**  
Pittsfield (Mass.), September 3.—President Roosevelt escaped a tragic death by only a few feet in a collision between his carriage and an electric street car in this city today, while one of his most trusted guards, Secret Service Agent William Craig, was instantly killed and David J. Pratt of Dalton, who was guiding the horses attached to the vehicle, was seriously injured. President Roosevelt himself was badly shaken up, but received only a slight facial bruise.  
Secretary Cortelyou, who occupied a seat directly opposite the President in the carriage, sustained a minor wound on the back of the head, and Governor Crane, who sat beside the President, escaped without a scratch. The carriage was demolished by the impact of the rapidly moving car, and the wheel horse on the side nearest the car was killed. The crew and passengers of the car escaped injury.  
The President and party were driving from this city to Lennox, through South street, one of the principal thoroughfares of Pittsfield which was lined with cheering people, and the catastrophe happened in plain view of hundreds whose happiness at the advent of the Nation's chief was suddenly turned to grief.

**PRESIDENT CANNOT INTERVENE.**  
**Investigation Shows That Roosevelt Can Do Nothing.**  
Washington, September 3.—Carroll D. Wright, Commissioner of Labor, was designated by the President in June to investigate and report to him the cause and conditions accompanying the present controversy between the Pennsylvania anthracite coal operators and their miners. Twelve days later Wright submitted his findings to the President.  
After carefully going over the report, the President submitted it to the Attorney General, who, after giving it full and careful consideration, reports that the Executive has no power whatever to take action in the matter. The report, accordingly, is made public.

**HONOKAA.**  
HONOKAA is the most thriving community outside of Hilo on the windward coast of the Island of Hawaii. It is situated 50 miles from Hilo at an elevation of 1500 feet which renders the climate salubrious. Above the cane lands are numerous homesteads on which coffee, cane and vegetables are extensively cultivated. Regular stage lines connect with all outlying districts. The 4th Circuit Court meets at Honokaa annually in July. Regular steamers call to discharge and receive freight.
