Champ Clark subscribes to forty-six country papers in his congressional district. Whenever a child is born in the home of anyone he knows, Mr. Clark sends a little note of congratulations; if he reads of a death he sends a letter of sympathy. And in that way he keeps in touch with the home folks all the year round.  
You have been kicking about the abnormal heat this summer. How would you liked to have lived back in the year 1816, when there was no summer at all? It is said that June was filled with heavy snow storms, the white mantle covering Canada and New England to the depth of a foot or more. On the 4th of June it was so cold that several persons froze to death. On July 4th ice a quarter of an inch thick was formed and in August a half inch was a frequent occurrence. Better be thankful for present conditions. It might be a lot worse.  
A Washington dispatch yesterday says that Senator Thomas of Colorado branded the New York Stock Exchange as the "most prodigious gambling hell of any age" and "the Monte Carlo of American finance." "It is the swindler's paradise," he continued. "It is the huge vampire that sucks the blood from the arteries of industry. It is an unincorporated, irresponsible monstrosity beyond the pale of laws. It is the antithesis of fair dealing and common honesty. It has sanctified speculation. It is the most pernicious and corroding influence in the land." It is inferred that if Senator Thomas had had a little more time he might have thought of something mean to say about Wall street.
